

# LOWELL POLICE CAPTURE BURGLAR

## \$10,000 Fire In Tewksbury

### GERMANS AND RUSSIANS REPLY

#### EARLY MORNING CAPTURE OF BURGLAR IN DONOVAN BUILDING

Man Believed by the Police to Be a Professional Had Ransacked Four Buildings---He gives the Name of William J. Sternberg and Says He Belongs in Worcester---Capture Due to Good Work on the Part of Patrolman Spillane

After ransacking offices in the Old City Hall building, the Railroad National bank building and the building next door, and the Mansur block, William J. Sternberg, recently of 173 Vernon street, Worcester, proceeded to the Donovan building at the junction of Central and Gorham streets, where, through a neat bit of work on the part of Police Officer Paul Spillane, he was captured in the act of burglarizing an office and brought to the station shortly before 2 o'clock this morning.

#### STABBED DURING FIGHT

North Adams Man Dying in Hospital—Two Arrested and Held Without Bail

NORTH ADAMS, April 21.—James Pierre, 30, is dying at the hospital here from stab wounds received in a fight while at work in the Arnold Print Works here early this morning. After he made an auto-mortem statement, Caroline Guilon, 44, and his son-in-law, Pasquale Accetta, 26, who were working in the same room, were arrested. In the district court they pleaded not guilty to assault with intent to kill, and were held without bail for a hearing April 23.

#### Signers of Secret Russo-German Treaty Submit Their Replies to the Allies' Demands

#### MORE LIQUOR LAW VIOLATORS

Four Alleged Violators of the Dry Law in District Court

Two of the Defendants Were Operating Still When Found by Police

Prevailing Price for Their Product Was \$5 a Gallon—Other Cases

Four alleged violators of the liquor laws faced Judge Knight in district court this morning, and while two of them drew continuances for two weeks the remaining pair contributed \$100 each, spot cash.

#### BIDS FOR FIRST STREET BOULEVARD WORK

City Engineer Stephen Kearney today received an agreement from the state department of public works, to be signed by the mayor as the city's executive head and, upon the return receipt of which the state will proceed immediately to call for bids on the construction of the new First street boulevard.

#### ARMED MEN RAID SLIGO, IRE., NEWSPAPER

SLIGO, Ireland, April 21.—(By the Associated Press)—Armed men raided the offices of the Sligo Champion today and smashed the frames of type for this week's issue, apparently in order to prevent publication of the newspaper's report of Sunday's meeting when Arthur Griffith, president of the Irish Free State, delivered an address in favor of the Free State treaty.

#### STRIKERS FACE RENT INCREASES

Rent Boosted by Owner of Tenement House Occupied by Strikers

Rent Must Be Paid Weekly—Textile Council Officials up in Arms

The topic of discussion at this morning's meeting of the local textile strike committee was the increase in rents in various parts of the city, which in most cases are affecting operatives of the Hamilton Mfg. Co. and the Bay State Cotton Corp., who have been out on strike for several weeks.

#### BOY KILLED HIS MOTHER

13-Year-Old Lad Fearing Punishment Then Shot His Father and Himself

REDFIELD, S. D., April 21.—Mrs. J. E. Scernemhorn was shot and killed last night when a small calibre rifle in the hands of her son, Elmer, 13, is believed to have accidentally discharged. Fearing he would be punished, according to Coroner A. D. Coleman of Redfield, Elmer shot his father in the jaw, and then inflicted a wound in his own forehead which physicians say may prove fatal.

#### WANTS MOTORIZED HOOD AND LADDER TRUCK

Fire Chief Edward P. Saunders has recommended to Mayor Brown that the city at once purchase a motorized hood and ladder truck at a cost of \$5000, to replace the antiquated piece of apparatus now being used at the Lawrence street house.

WANTED

A young man of good education and a talent for writing, to learn newspaper reporting. Apply in writing, stating qualifications.

Address R-24, Sun Office.

#### GERMANS ACCEPT ALLIED PROPOSAL

To Take No Further Part in Negotiations Between Allies and Russians

Reply Does Not Modify Effectiveness of the Russo-German Treaty

Russian Reply Accepts Proposal for Payment of Debts Due to Foreigners

GENOA, April 21.—(By the Associated Press)—Both the Germans and the Russians today submitted their replies to the allied demands. The German reply accepts the allied proposal that the Germans take no further part in the negotiations between the allies and the Russians, but the reply does not modify the effectiveness of the Russo-German treaty.

#### GERMAN REPLY TO ULTIMATUM

GENOA, April 21.—(By the Associated Press)—The German reply to the allied ultimatum accepts the condition that the German delegates be barred from participation in the further discussions of the Russian question by the Genoa conference. The Russo-German treaty signed at Rapallo is allowed to stand.

#### MODEL LOCOMOTIVE IN COURT ROOM

A novel feature of today's superior court trial was the bringing into the court room of a model locomotive, complete in every detail as are the big moguls which haul passengers and freight. The locomotive, made of tin, about 30 inches long and a foot high, was used to demonstrate the channels through which sparks must pass from the firebox before they were chucked out of the smokestack.

#### CHANDLER ESTATE IN TEWKSBURY DESTROYED BY FIRE

One of Town's Oldest Landmarks Is Wiped Out—Fire Believed to Have Started From Fireplace in Kitchen---Tewksbury, Billerica and State Hospital Departments Summoned---Loss Is Estimated at \$10,000

Fire, fanned by a high wind, completely destroyed the Chandler estate on James street, Tewksbury, this morning, causing damage that will approximate \$10,000. The estate, at the present time occupied by Steve Urban and family, was one of the oldest landmarks in Tewksbury Centre. Details of the origin of the fire, which broke out shortly after 9 o'clock, are meager, but best information obtainable says that it started from a fireplace in the kitchen. No lives were lost.

#### Gen. Tso-Lin Takes Possession of Peking

PEKING, April 21.—(By the Associated Press)—The troops of Gen. Chang Tso-Lin, governor of Manchuria, today took possession of Peking and Tien Tsin, replacing the local police forces of those cities. The transfer of authority was devoid of incident.

#### Seeks Details of Leasing of Oil Reserves

WASHINGTON, April 21.—Complete information regarding the leasing of rights of naval oil reserves was sought in a resolution introduced today by Senator La Follette, republican, Wisconsin, who at the same time made public a letter from Josephus Daniels, formerly secretary of the navy, opposing the leasing of the government domain.

#### MURDER OF TICKET AGENT STILL A MYSTERY

WINCHESTER, April 21.—The murder of Ralph W. Brewster, ticket agent of the Boston & Maine railroad here, was still a mystery today. With robbery apparently eliminated as a motive by the fact that both the personal and official funds of Brewster were untouched, although easy of access, officials were checking up slight clues that were said to indicate that the person who fired the four shots was a close acquaintance of Brewster, possibly a woman.

#### \$1,000,000 TO FIGHT FLOOD

With Mississippi Now at Highest Stage in Years Relief Measure is Passed

WASHINGTON, April 21.—The sum of \$1,000,000 for control of flood water of the Mississippi river now at the highest stage in years, was made available immediately by a resolution rushed through the senate and house today within an hour after the proposal made by southern members had been approved by Secretary Weeks and Director Dawes of the Budget.

## HARDING MAY ATTEND

President Hopes to Be Able to Go to Editorial Association Convention

ST. PAUL, Minn., April 21.—President Harding has indicated that if congress adjourns by July 1 he will participate in the 37th annual convention of the National Editorial Association at Minneapolis, Minn.

Definite dates for the convention have been fixed as July 18 to 23, according to H. C. Hotaling, secretary of the association.

Mr. Harding is shaping all his plans toward attending the convention, the president is quoted by Mr. Hotaling as saying, "and the only possible contingency that could prevent my going would be congress continuing in session until the middle of July. I expect congress will adjourn about July 1, however."

Special trains will leave Chicago the evening of Sunday, July 9, taking the party westward and participating in the semi-centennial of the opening of Yellowstone National park, according to Mr. Hotaling. Later Glacier National park will be traversed.

Secretary of the Interior Fall probably will be a member of the party. The itinerary of the special trains contemplate stops at Medora, N. D., where a tribute will be paid to the late Col. Theodore Roosevelt in the erection of a monument with suitable ceremonies. Numerous other stops also will be at Montana towns as well as at St. Paul and Minneapolis.

A daily newspaper will be published on the convention train while a complete printing office, including typesetting machine (linotype) and a press will be installed in the baggage car and a copy of this publication will be mailed each day in every daily paper in the United States.

The convention will receive a special message from E. B. Brodie, president of the association, who now is United States minister to Spain.

## TARGET PRACTICE CAUSES ALARM

LOS ANGELES, Cal., April 21.—Weather conditions are responsible for target practice of the Pacific fleet off the Southern California coast being occasionally mistaken for earthquake shocks, according to a report made to the chamber of commerce of this city by Dr. Ford A. Carpenter, head of the meteorological bureau of the chamber.

Dr. Carpenter cited cases of Jan. 17 and March 23 last, when vibrations caused by big gun fire rattled houses many miles inland and resulted in reports of "earthquakes" from widely-scattered localities.

"It is a well known fact," the report continued, "that sound coming from some point may be heard more distinctly at certain times than at others. The distance at which the sound may be heard is also variable. The wind direction plays a most important part in this. If the sound-emitting body is in the direction from which the wind is coming, the sound may be heard more distinctly. It can be seen readily that sound waves traveling in the opposite direction from which the wind is blowing or against the wind, will be broken up and deflected."

"The weather conditions during the evenings of January 17 and March 23 were practically the same. At both times an area of low pressure was central over Nevada and Utah, with an area of high pressure off the California coast. Under these conditions Southern California would experience southerly winds shifting to westerly by way of southwesterly."

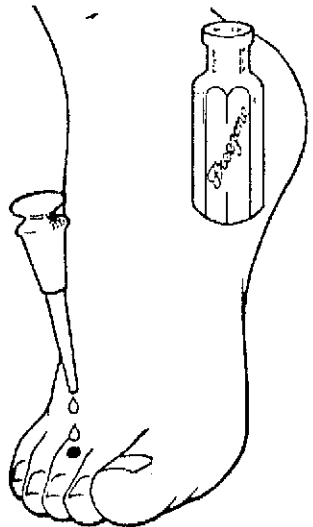

"The firing took place near Catalina Island, which would give the ships a position practically due south of Los Angeles. The great atmospheric waves traveling with the wind would be carried great distances. Had there been a northerly wind the shock would probably have been unnoticed."

"With gun firing at sea, the waves are in the air, but with an earthquake the waves are sent out from some disturbance under the surface of the earth and a vibration of the ground results. The gun firing shocks rattle windows and doors and but there is no vibration. The effect is more like a high wind."

"As the navy seems to have chosen California waters for target practice and target firing of ships, we are likely to have recurrences of these shocks from time to time."

## CORN

Lift Off with Fingers

Doesn't hurt a bit. Drop a little "Freezone" on an aching corn, instantly that corn stops hurting, then shortly you lift it right off with fingers. Truly! Your druggist sells a tiny bottle of "Freezone" for a few cents, sufficient to remove every hard corn, soft corn or corn between the toes, and the calluses, without soreness or irritation. —Adv.

## TO URGE UTILIZATION OF NITRATE PLANTS

BALTIMORE, Md., April 21.—That the government be urged to complete and utilize plants in process of construction for the production of nitrates and other necessary chemical elements needed in agriculture, will be recommended at the convention here of the National League of Women Voters April 24-29. The convention will be held during the sessions of the Pan-American conference of women which opens April 20. The proposal is part of a program to be recommended by the committee on food supply and demand, of which Mrs. Edward P. Costigan of Washington is chairman. Lady Nanoy Astor, N.Y., will address a mass meeting to be held by the convention, April 24.

The food committee will also recommend the support of federal legislation removing all legal restrictions which hamper co-operative associations conducted on the Stockdale plan. It will advise continued investigation of the operation of the judicial decree of 1920 issued under the agreement between the United States attorney general and the packers, and of the effectiveness of the act of congress of 1921 regulating packers.

The committee attributes the high cost of living in large measure to the organized and wasteful methods in the distribution and use of food. It con-

demns specifically "manipulation of markets" by large food organizations and combinations, and the practices of "open price associations" which distribute to members information in regard to costs, prices, production and available supply and demand.

The program to be proposed by the committee on women in industry, of which Mrs. Mary McDowell, Chicago social worker, is chairman, will include: state legislation limiting working hours to a maximum of eight hours in any one day and 40 hours in any one week, with one day's rest in seven; establishment by law of a committee with power to fix and enforce mini-

imum wages; re-classification of federal civil service without discrimination on the ground of sex.

Mother's pensions will be recommended by the committee on uniform laws concerning women, of which Mrs. Catherine Waugh McCullough of Chicago is chairman. The committee will also counsel support of federal legislation for independent citizenship of married women, and state legislation for equal guardianship of children by both parents, for abolition of common law marriages and for other reforms in marriage and divorce laws.

The program of the committee on social hygiene will be subdivided as educational, recreational, law enforce-

ment, legislative, remedial and medical. Mrs. Ann Webster of Washington is chairman.

An emerald of average quality is much more valuable than a diamond of the same quality.

## TWO RING ENGAGEMENTS

Kid Buck Married—Then Entered Boxing Arena and Beat Frankie Mason

BATTLE CREEK, Mich., April 21.—Kid Buck passed successfully through two ring engagements here last night. As John McCrumb he was married at 7.30 o'clock to Miss Sella Olson. As Kid Buck, an hour and a half later, he went into the boxing arena and de-visedly defeated Frankie Mason of Fort Wayne, Ind., former flyweight champion of America.

## FAMINE RETREATING IN VOLGA VALLEY

SAMARA, Russia, April 15. (By the Associated Press).—Famine is begin-ning to retreat in the Volga valley be-fore the slow but steady arrival of American corn for adult feeding. It is due to vanish almost entirely when the spring sunshine uncovers the black earth of this fertile region and brings out the early grasses and vegetables which, added to the relations sup-plied by the United States, other foreign countries and the Russian government, will sustain most of the population un-til the rice and wheat harvest of late August and early September.

## ANNUAL CONGRESS OF D. A. R. OPENS

WASHINGTON, April 21.—A recep-tion at the White House and election of officers held the chief interest today of delegates attending the annual con-gress of the Daughters of the Ameri-can Revolution. The White House re-ception was scheduled for 2.30 o'clock this afternoon.

## B. & A. REVENUES SHOW DECREASE

BANGOR, Me., April 21.—With the exception of the earnings received from the transportation of freight, revenues of the Bangor & Aroostook railroad showed decreases from those of 1920, ac-cording to the annual report of the di-rectors, just issued to the stockholders of the corporation. The freight re-venues showed an increase of 16.9 per cent. Operating expenses experienced a decrease of 3.6 per cent, from those of the previous year. Lumber ship-ments fell off considerably, while those of potatoes showed a substantial in-crease.

## ALLIES URGE DECISION BY U. S. ON DYES

PARIS, April 21 (by the Associated Press).—The allied reparations com-mission has again cabled an urgent request to the state department in Washington asking it to decide defini-tively whether the American govern-ment desired to renew its official sup-port of the textile alliance, through which the textile industry is selling all its German dyes, or to make some new arrangement.

The dispute grew out of the protest made by the minority American dye interests following the conclusion of a two-year agreement between the al-liance and the reparations commission the first of this year. The failure of the state department to make a deci-sion resulted two months ago in the refusal of the German dye manufac-turers to deliver any more dyes to the alliance, seriously handicapping the American textile industry, accord-ing to dye experts.

Within the last 10 days Germany has resumed partial deliveries of dyes to the alliance, but officials of the re-parations commission say the dispute has seriously disturbed the whole machinery of the commission through which the allies obtain 25 per cent of all the dyes in Germany.

## MORE POLICEWOMEN AT BEACHES URGED

FITCHBURG, April 21.—Encouraged by the success of police women on duty in the metropolitan park district of Boston, the presidents of Massachu-setts women's clubs, meeting here yes-terday, voted to petition the park com-mission to appoint additional police-women at Revere, Nantasket and other beaches. Three hundred delegates at-tended the conference.

## TO CHURCH IN BOOTS ON EASTER

Beardstown (Ill.) women put away their Easter finery and went to church Easter Sunday in khaki suits, knickers and hip boots after the Illinois river had risen and inundated the whole town. All business since has been suspended due to the river's continuing rise. Photo shows street in residence district.

## Another Serious Case of Nervous Breakdown Benefited by Wincarnis

Mrs. W. I. Fennell of Cato, N. Y., writes: "Some time ago I had a very serious nervous break-down caused, it was said, by over-work. I was in such a debilitated condition that an infection of my blood followed an attack of ulcerative sore throat, and I began to lose weight and strength at an alarming rate."

As my condition grew worse, I suffered more and more from wakefulness, and in time it became impossible for me to get a full night's sleep.

When my nervousness and weakness became almost un-bearable I began taking Wincarnis, and the improvement was very noticeable before I had finished the first bottle. I am now myself again, and both my father and my son are taking Wincarnis because they have seen how wonderfully it acted in my case. Wincarnis is certainly a remarkable tonic for those suffering from nervous exhaustion, thin blood, sleeplessness or great debility."

Wincarnis is sold in Lowell by Burkinshaw Drug Co., 416-418 Middlesex St., and all First Class Druggists

WHAT'S THE USE OF WORRYIN'?

A picnic? No, sir! Some of the 2000 negroes made homeless in the fire at Berkley, suburb of Norfolk, Va. They have just received food handed out in one of the 12 breadlines established by the city.

**SURPRISE PARTY**  
A very pleasant evening was spent Tuesday at the home of Mr. and Mrs. Matthew McNamara, of 33 Newhall street when Catherine McNamara surprised her sister, Jennie McNamara, with a wrist watch in honor of her 15th birthday. Games were played and

the entertainment included piano selections and singing. Luncheon was served by Mrs. Matthew McNamara and daughter, Catherine, and Loretta Bernardini. Jennie received many valuable gifts. The party broke up at a late hour wishing her many happy returns of the day.

Many temples in China are provided with a bell at the entrance, and when a worshiper enters he gives the rope a pull to ring the bell in order that the gods may be notified of his coming and be at hand to attend to his prayers.

## World's Greatest Woman Preacher

MISS MAUD ROYDEN

BY ALEXANDER HERMAN

NEW YORK, April 20.—If Maud Royden had elected the stage or screen or politics for her career, instead of the pulpit, she would have attained equal pre-eminence.

For Miss Royden has a dynamic, dominant personality that commands recognition. Yet she is pleasing, attractive, congenial, of medium height and slender, with dark hair and dark eyes. She has come to America to attend a Y.W.C.A. convention.

She is one of the most eloquent speakers in Great Britain, wields a ready pen and is fearless in the cause and reforms she advocates.

Her 40 years have been packed with activities.

She is the youngest daughter of the late Sir Thomas Royden, a great ship owner of Birkenhead. She was graduated with honors from Cheltenham Ladies' college and from Lady Margaret hall, Oxford university.

For three years after that she worked in a settlement in Liverpool, lectured on English literature at Oxford and then threw herself into the suffrage cause.

"I spread my wings, so to speak, when the University of Oxford asked me to speak on 'Purity,'" she says. "That was my first stepping out of

the smaller circle in which my suffrage activities had confined me.

"Canon Scott Holland was in the chair and my audience consisted of 1200 male undergraduates. It was the first time in 30 years that the university had been addressed by a woman."

Another chance invitation changed the entire course of her life. "It was like a bolt from the blue," said she, "this invitation to preach Rev. R. J. Campbell, the famous preacher of the equally famous City Temple, had to go away because he had worn himself out."

"Dr. Fort Newton had been called to succeed him. They wanted me to fill in. I sent a prompt refusal, but they overruled me. Before Dr. Newton arrived, I preached four times. When Dr. Newton came he stipulated that he would preach only twice a week, so they asked me to occupy the pulpit on Sunday evenings."

Miss Royden won fame as a preacher at the City Temple. Some years later she withdrew and is now the main public attraction at the Ecclesington Square Guildhouse in London.

There is no subject she will not tackle. She preached a series of sermons, afterward printed in book form, on "Sex and Common Sense."

## DIVORCED MAN MUST LIVE WITH EX-WIFE

KIEV, April 21.—Team work between the soviet bureau of marriage and divorce and the bureau of housing is not so good as it might be in Kiev.

In the past many young husbands have found it impossible to obtain living quarters with their brides, as no one can move without permission from the housing bureau, and this department invariably frowns upon such application.

While these young men have complained, they have not been the objects of much concern, for soviet Russia has many problems of far greater magnitude in the offing. But cold and hunger have not completely banished its ability to sympathize, as was demonstrated recently when the hearts of the populace went out to a young university professor who procured a divorce and walked jauntily over the housing bureau to get a moving permit.

"Nothing doing," was the gist of the clerk's reply.

Thinking he was misunderstood, the professor made it clear that he was divorced and exhibited documents to prove it. Still the clerk remained obdurate and was supported by his superior, even to the head of the bureau.

The professor spent long hours pleading with the authorities, whose ready supply of excuses for not issuing the permit finally wore his patience down and to this day he and his ex-wife are fighting their battles within the same four walls.

"The phrase, 'a feather in his cap,' originated in an old custom in Hungary, which forbade anyone to wear a feather in his cap unless he had killed a Turk."

## WOMAN FOUND BOUND AND GAGGED IN HOME

BOSTON, April 21.—Mrs. Esther Morrisroe was found bound and gagged in the kitchen of her home last night by her husband, Joseph Morrisroe. She told her husband, who had been asleep in another room, and the police, that she was at a table in the kitchen when the light went out and a hand was thrust over her mouth. She said she was bound and gagged, and that the

intruder then left without disturbing anything.

The state hospital for the insane is nearby and police are working on the theory that the attack was made by an inmate of that institution. The hospital authorities, however, said no one had escaped.

## WHY BE SICK?

Did it ever occur to you that the sickness you are troubled with may be directly traceable to bowel poison? Get quick relief from Dr. Grady's Tablets. Sold by druggists and recommended as the world's best medicine for 10 cents a package.—Adv.

## ADMITS THEFT OF \$26,000

Assistant Cashier of Edison  
Co. Has Made Confession  
According to Police

Stole to Recoup Gambling  
Losses — Thefts Cover  
Period of Three Years

BOSTON, April 21.—Harold S. Adams, charged with the theft of \$26,000 from the Edison Electric Illuminating Co., by whom he was employed for 14 years as assistant cashier, has confessed that the money was lost in Rhode Island gambling houses, police announced today.

Irregularities were discovered in his accounts last January during a serious illness. The bonding company which bears the loss waited for his recovered health before making an arrest.

Adams' confession, the police said, showed he had been taking money for the past three years. The first theft was to recoup a small gambling loss and, when that and succeeding ventures failed, he plunged deeper each time. Adams, who is 30 years of age and married, had received a salary of \$40 a week.

## GRAND CROSS OF CHRIST FOR NOTED AIRMEN

LISBON, April 21 (By the Associated Press).—Captains Sacadura and Coutinho, the Portuguese aviators, who reached St. Paul rocks in their Lisbon to Rio Janeiro flight, have been decorated by the government with the Grand Cross of Christ.

## Germans Accept Proposal (Continued)

from the allies, and begins by acknowledging "with painful surprise" the protest received which is considered undeserved. The note then repeats what Dr. Rathenau, German foreign minister, has stated on several occasions—that negotiations for the conclusion of the Russo-German treaty had begun long ago and were known to have been in progress by all the European governments and had lately been suspended out of deference to the conference.

But the exclusion of Germany from the negotiations held by the allies with the Russians at the Villa de Albertis gave to the German delegation the impression that the allies were trying to conclude arrangements with the Soviet government without German participation, perhaps to Germany's detriment. At a certain moment, perhaps through misunderstanding, the German delegation received the impression that the allies were about to conclude an agreement with the Russians; therefore the Russo-German negotiations were resumed, and resulted in the signing of the Treaty at Rapallo on Easter Sunday.

The German delegation believes that this treaty does not violate the spirit of the conference and indeed contributes to its supreme aim—the pacification of the world and the reconstruction of Europe.

The note admits that, after the conclusion of this treaty, the German delegation has no reason to participate in the work of the first commission, dealing with Russian affairs, but says it will willingly participate in the other work of the same commission, dealing with European and German interests.

The first commission was summoned for a meeting this morning by the chairman, M. Schanzer, for a discussion of the Russian answer to the report prepared by the allied experts at their London meeting.

The Russian answer, which has not yet been made public, is understood to accept in principle the acknowledgment of Russia's pre-war debts on conditions that a long moratorium be granted, this to be followed by minimum interest payments which would gradually be increased as Russia became able to pay. It asks that the other Russian debts be wiped out by the indemnity claimed by Russia from the allies, and, finally, asks for a large loan.

Foreign Minister Rathenau made the German note public to the newspaper representatives today simultaneously with its delivery to the conference officials. He declared the German delegation was absolutely harmonious, and he expressed high commendation for Italy for her skill as a mediator in averting a rupture over the Russo-German treaty.

## RUSSIANS SEEK FURTHER PARLEY

GENOA, April 21.—(By the Associated Press) If the Russians are granted

recognition de jure and adequate financial help, they state in their reply, submitted to the entente today, that they are willing to admit Russia's war and pre-war debts, waive their counter claims and restore the use of nationalized property to its former owners or satisfy the claims of foreigners in cases where the property cannot be restored.

The clause of the Russian reply relating to the restoration of nationalized property to foreigners says: "The Russian government would be willing to restore to its former owners the use of property nationalized or withheld, or where this is impossible, then to satisfy the just claims of the former owners."

The allied proposals on finance to which the Russians replied today were textually as follows: "Section I.—The creditor allied governments represented at Genoa cannot admit any liability regarding the claims advanced by the Soviet government."

"Section II.—In view of the serious economic condition of Russia; however, such creditor governments are prepared to write down the war debts owing by Russia to them by a percentage to be determined later, and the countries represented at Genoa would be prepared to consider not only the postponement of payments of interest upon financial claims but also the remission of some part of the arrears of interest or postponed interest."

"Section III.—It must be definitely agreed, however, that there can be no allowance made to the Soviet government against: First, either debts and financial obligations due to foreign nationals; or, second, the right of such nationals regarding the return of their property and compensation for damage or loss in respect thereof."

"Section IV.—The allied governments are justifying their contention that the allies could not as a matter of right demand compensation for property, the Russians cite the abolition of slavery in the United States, where neither Americans nor foreigners were compensated. They also cite the adoption of prohibition in America as a case

where no compensation was given to the producers of alcoholic drinks."

King to Visit Genoa  
GENOA, April 21.—(By the Associated Press) King Victor Emmanuel will arrive here tomorrow morning on the dreadnought Conte di Cavour for his visit to the international economic conference. He will receive the authorities at the prefect's palace and give a luncheon at noon aboard the dreadnought Dante Alighieri to which all the delegations have been invited. It is not yet known whether the Russian delegates have accepted the invitation to the luncheon. The Italian communists are urging them to abstain from meeting the king, maintaining this would produce a bad impression among the Italian communist masses.

Which conceive communism as anti-monarchical.

Grave Menace  
GENOA, April 21.—(By the Associated Press) Germany and Russia, asserts the Cattadino today, already have agreed with the Turkish Nationalist government at Angora on a common program of foreign policy. This, it argues, will constitute a grave menace to the other powers, especially the Balkan states.

Financial Principles  
GENOA, April 21.—(By the Associated Press) Sir Robert Horne, the British chancellor of the exchequer, left Genoa for London today for the discussion of the British budget before parliament at Westminster. He promised his fellow conference here to begin immediately to put into practice the financial principles that have been approved by the conference.

France, Italy, Belgium and Spain declared their desire to continue intensive work for the regeneration of their finances, gradually bringing their currency up to pre-war value. The representatives of Bulgaria, Hungary, Poland, Finland and Latvia emphasized their special conditions, pointing out that owing to the great depreciation of their currencies it was impossible for them to meet their difficulties by following the same line as the richer countries.

## MINE STRIKERS GAIN 20,000

Peak Strength Not Yet Reached, Although 630,000 Are Idle, Say Union Heads

Efforts to Bring a More Complete Tie-up of the Industry Will Be Continued

INDIANAPOLIS, Ind., April 21.—With the third week of the nationwide suspension of work in the coal industry ended today, officials of the United Mine Workers of America at union headquarters here declared that the peak strength of the strikers had not yet been reached, although the number of idle miners had increased to 630,000, a gain of 20,000 during the week.

Efforts to bring a more complete tie-up of the industry will be continued, but officials declined to make any specific predictions. They asserted that they expected further gains and added that no break was threatened within the union ranks, which now include many supporters in the unorganized fields.

Under the union's avowed program calling for almost a complete suspension of coal production, any new developments, forced by the union, may be expected to come in the Pennsylvania bituminous regions, and also in West Virginia, the stronghold of the non-union operators. Almost from the beginning of the strike, these two states have provided the centers of activity, and in Central Pennsylvania particularly, the union has massed its organizers for the attack.

In all the Central Pennsylvania region has 55,000 of its 85,000 non-union

workers on strike, according to reports to union headquarters here.

Incomplete reports from West Virginia show 10,000 non-union supporters of the suspension. It was said. All union miners numbering 61,000 also are idle.

As long as the general suspension of work obtains, the nation's coal output hinges largely on the non-union mines, which operators here say have an aggregate output of 8,000,000 tons weekly.

### Strikers Face Rent Increases

Continued

ants within the past few days to the effect that their rent had been increased from \$18 to \$21.75 a month and that from now on the rent must be paid weekly instead of monthly as heretofore. Another case was brought to the attention of the committee, when a woman reported that the owner of a cottage house, which she occupied with her two sisters, had increased her rent from \$22 a month to \$26.50 a week or \$25.15 a month and that the rent must be paid weekly instead of monthly. Several other similar cases were reported and at the close of the meeting one of the officials of the strike informed The Sun that if anyone disputed the veracity of the reports, they can secure the names of the tenants and their addresses by calling at strike headquarters.

The question discussed at the meeting was whether or not there is any city ordinance or state law forbidding

such radical increases at this time, when wages are being lowered and mill officials are claiming that the cost of living is coming down. A committee was appointed to look into the matter and report at their earliest convenience. If it is found that profiteering on such a large scale can be stopped, action will be taken at once by the Lowell Textile council.

The number of pickets at the Hamilton and Bay State mills has been increased and the strikers are doubling their efforts in order to close both mills tight if possible. It is reported that the strikers are holding their own very well at the Bay State plant, as the working force there is not being increased. It is said that every day new faces are seen going into the mill, but the report has it that they are filling places made vacant by strike breakers who got tired of their jobs.

The number of operatives at the Hamilton remains about the same. Some of the operatives, according to reports, enter the mill through the Middlesex street entrance, others through Jackson street and a small number through the door in the rear of the plant in the rear of the police station.

### MERRIMACK RIVER IS RUNNING FULL

The Merrimack river locally continues to run well filled for this season of the year and the freshest conditions of last week still are evident,

although the height of the river at Pawtucket dam has fallen considerably.

The Locks and Canals were advised this morning that tributary streams up country still are swollen and there is yet a considerable amount of snow on the ground. Unless a heavy and continued rain comes no sharp rise in the water here is expected.

### THE FIRST STREET OVAL PROPOSITION

While no definite word has been received from the Locks and Canals Co. relative to the city's offer for \$20,000 for purchase of the First street oval, the mayor feels sanguine of its acceptance and today announced that he will authorize the provision of some amount of money to be expended upon the area this year toward its development as a playground proposition. Any work done there would be under the supervision of the park department.

Asked how the money would be secured, the mayor said that probably he would take it either from overlay or from the prior revenue account.

# Mme. Calve Will Tutor Girl With "Most Wonderful Child Voice"

MISS KATHLEEN KERSTING

By N.E.A. Service  
WICHITA, Kan., April 20.—"The most wonderful child voice I have ever heard!"

Mme. Emma Calve, noted singer of the title role in "Carmen," said it.

And the praise was prompted by one little song sung by 13-year-old Kathleen Kersting, a high school girl of Wichita.

As a result Kathleen and her mother are to accompany Mme. Calve to her castle, Le Cabrioles, in southern France. Then the noted singer will see to the proper voice education of her little "aud."

Miss Kersting first attracted more than local attention when Edouard Sacerdote, noted voice specialist of Chicago, called the girl a "wonder

child," after hearing her sing at the Kansas Music Teachers' convention. Then Mme. Calve, who gave a concert in Wichita, Music critics induced her to visit the Kersting home.

Kathleen sang "Rose in the Bud." That was enough! The trip to France was immediately planned.

And what does the little singer think about it?

"Just think what a wonderful teacher I'll have," says she. "And naturally I'm tickled with the idea."

"I will pursue my regular course of studies in addition to my vocal lessons. A person doesn't get very far nowadays without an education."

Mme. Calve paid high tribute to Mrs. Martin Flanagan, Kathleen's singing teacher. "There is not a single thing to be undone," said she.

## INSURANCE MEN MAKE MERRY

It was a merry gathering that took place in Fairburn's restaurant in Bridge street last evening, the occasion being a dinner for the members of the Lowell agency staff of the Metropolitan Life Insurance company. The affair was the culmination of a contest recently organized between the local employees of the company, who had been divided into two teams, the losers to settle the expense of the festivities.

The gathering took place at 7.30 o'clock and, according to reports, the

hosts spared nothing to provide an evening of enjoyment for their guests and themselves. Seated around the festive board were the employees of the local office of the company as well as a few guests. Assistant Manager C. O. Leadbetter acted as toastmaster and, under his direction an impromptu program was carried out. Prominent among the entertainers were Agent Galvin, Edouard F. Gregoire, Frank McCarthy, Agent Colby, Thomas Bean and John O'Brien. Interesting remarks were made by Manager J. P. Heron, Assistant Managers Clifton, Dalgie and

Nealon. Agent Miller also entertained with delightful violin selections.

At the close of the post prandial exercises the floor was cleared of the tables and general dancing was started and continued till a seasonable hour. The success of the affair was due to the efforts of the following committee: Peter Gill, Agent Miller and David J. Hackett.

A French engineer claims to have discovered evidence that a great river once flowed northward across the Sahara desert into the Mediterranean, its banks being lined with prosperous communities.

## JUDGE MURLEY WAS WELL KNOWN HERE

Judge Joseph J. Murley of the Boston municipal court, who died Tuesday in Boston after a few weeks' illness, was very well known here. He served in the legislature with Hon. John F. Maehan and Martin F. Conley, and was an able young legislator. He had been an associate justice for almost a decade, and had been boomed lately for congress, to succeed Congressman Tague. The funeral is to be held tomorrow.

## ANNUAL PARTY AT CHILDREN'S HOME

The annual pound party of the Children's home in Hosford square will be held at the home Saturday, April 22. The house will be open all day, and gifts of groceries, vegetables or money will be gratefully received. At 2 p. m. there will be an entertainment in charge of Mrs. Hugh Green, assisted by the orchestra and other talent from St. Paul's Methodist church.

## TO FLASH RADIO MESSAGE

Sec. Wallace Plans Most  
Widespread Distribution  
on Eve of Arbor Day

WASHINGTON, April 21.—Secretary Wallace of the department of agriculture will attempt tonight, on Arbor Day eve, what is described as "the most widespread radio distribution of a single message" ever made.

The message will be transmitted at 9 o'clock eastern standard time, from the government stations at Arlington, Va., San Diego and San Francisco, the Great Lakes navy station, and all army and post office department stations, and also by the Radio Relay league and Radio Broadcasting stations.

One year ago there were perhaps 60,000 radio receiving sets in this country. Today there are over 800,000 and the present monthly increase is estimated at 100,000.

The modern express passenger locomotive can run at the rate of 112 miles per hour on a heavy rail and straight track, provided there is a train behind it to prevent it from jumping the track.

## PRES. WOOD PREDICTS TOTALS \$12,366,000,000

## BANNER YEAR

NEW YORK, April 21.—A banner year for manufacturers of woolen goods was predicted yesterday by President Wood of the American Woolen company, who is registered at the Waldorf Astoria. He said that prices will be higher. He was unable to forecast how much higher they would go, but was sure they would be "very much higher."

Wool in foreign markets is at top prices, he explained, "and with the duty imposed on wool imports the American manufacturer must depend almost entirely on the American output. This," he said, "is insufficient to clothe the nation's people."

"Although clothing salesmen have been out only a few days, our woolen departments have already been inundated with duplicate orders," he said. "A large volume of this business it will be impossible for us to accept. The counters of the retailers are pretty bare of goods. The many outside mills have either been shut down entirely or are on reduced output. If these mills continue to remain closed, the American Woolen company cannot supply the demands."

Dept. of Agriculture's Estimate of Gross Wealth Produced by Farmers in 1921

WASHINGTON, April 21.—The department of agriculture estimated today that the gross wealth produced by farmers in 1921 had a value of \$12,366,000,000 or about two-thirds of the aggregate value of the farm products of 1920, and little more than one-half the aggregate for 1919. During the same period, 1919-21, production of crops which represent about 85 per cent. of the total crop acreage fell eight per cent.

The total value of crops, the department said, declined from \$15,423,000,000 in 1919 to \$10,909,000,000 in 1920, and to \$7,028,000,000 in 1921. The decline of the total value of animal products on the farm was from \$3,551,000,000 in 1919 to \$7,354,000,000 in 1920 and to \$4,229,000,000 in 1921.

## VOTE MINISTER MAY PLAY BILLIARDS

BELLEVUE, Ill., April 21.—The Rev. E. V. McCluskey, of the First Presbyterian church here, may play billiards as often as he wishes, according to a Congressional announcement today after a hearing in which the minority seeking his removal was voted down.

## "TIZ" FOR ACHING, SORE, TIRED FEET

Just take your shoes off and then purchase weary, shoe-crinkled, aching, burning, corn-pestered, bunion-tortured feet of yours in a "TIZ" bath. Your toes will wriggle with joy; they'll look up at you and almost talk and then they'll take another dive in that "TIZ" bath.

When your feet feel like lumps of lead—all tired out—just try "TIZ." It's grand—it's glorious. Your feet will dance with joy; also you will find all pain gone from corns, calluses and bunions.

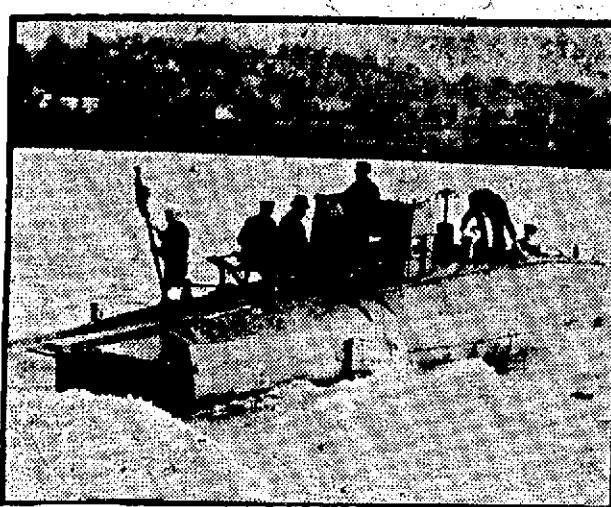

There's nothing like "TIZ." It's the only remedy that draws out all the poisonous exudations which puff up your feet and cause foot torture. A few cents buy a box of "TIZ" at any drug or department store—don't wait. Ah! how glad your feet get, how comfortable your shoes feel.—Adv.

DENBY TESTS NEW SPEED BOATS

Secretary of the Navy Denby takes a trial spin in one of the new boats bought from England for coast patrol duty. It made 42 knots an hour.

## OAT KERNEL SPROUTING IN EAR CAUSED DEATH

NEW HAVEN, Conn., April 21.—An oat kernel which sprouted in the right ear of Peter Everson two weeks ago, brought on meningitis from which Everson died at a hospital here last night.

## TO GIVE BATTLE

Pres. Obregon Orders Attack on Gorozava

MEXICO CITY, April 21. (By the Associated Press).—Acting under orders of President Obregon, Gen. Guadalupe Sanchez, chief of operations in the state of Vera Cruz, has left for the Huasteca region to give battle to Francisco Gorozava, who began an uprising several days ago.

Gorozava is understood to have more than 300 men in his command.

## DISCUSS WOMEN IN INDUSTRY

BALTIMORE, April 21.—Round table discussions were continued at today's meetings of the Pan-American conference of women begun here yesterday under the auspices of the National League of Women Voters, women in industry being the topic at the first session. Miss Mary Anderson, chief of the women's bureau, United States Department of Labor, presided.

## BIG INCREASE IN BUILDING

BOSTON, April 21.—Building permits issued in 21 Massachusetts cities during March show an increase of 117 per cent over the total for March, 1921, and of 24 per cent over February of this year, the department of labor and industries announced yesterday. These increases are "the basis for much encouragement," the department said, adding that "it appears probable there will be ample employment for all building tradesmen in the state in the very near future."

Ground soapstone is used to some extent in foundry facings, as a lubricant, as a dusting agent in making prepared roofing, in low-grade paints and for a few other minor uses.

# Radio-graphs

## RADIO TUNING IS VERY IMPORTANT

BY R. L. DUNCAN  
Director, Radio Institute of America

Tuning a radio receiving set is an art in itself.

Few amateurs take the pains to learn it. They are in too much of a hurry to start listening in.

In a loose coupling, the operator who wants to get everything, pushes his secondary completely inside the primary, making a tight coupling. For selectiveness in tuning, it is imperative that loose coupling be employed.

This weeds out interference. Of course, there is some loss in energy. But since it is useless to try to tune in with tight coupling when there are several stations transmitting on the same wave length, loose coupling will have to be resorted to.

In this, there is no direct connection between the primary and secondary. The current received in the primary in the form of electro-magnetic waves is induced in the secondary. The further away the secondary, the harder it is for the inductive relation to come about.

In this, there is no direct connection between the primary and secondary. The current received in the primary in the form of electro-magnetic waves is induced in the secondary. The further away the secondary, the harder it is for the inductive relation to come about.

Go over all contacts in your set frequently. Those connections which are not soldered should be kept free from all dust and foreign substances.

All currents received are very feeble and the slightest resistance offered them by a poor connection decreases the efficiency of the set considerably.

A poor ground on the receiver is the most frequent cause of loss of energy. The best ground is the cold water pipe in the house, or a large iron plate or pipe driven into the ground.

Be sure to scrape the connection surface and solder the grounding.

Keep these pointers in mind and you will find that tuning in will be made much easier.

## Radio Story-Teller Sings 100,000 Children to Sleep—All at Once!

LEE FORSTER, THE GIRL WHO TELLS THE RADIO BED-TIME STORIES, AND LITTLE DOROTHY HANSELEEROOK, NEW YORK, GIRL, LISTENING TO ONE OF THEM.

### RADIO PRIMER

Radio frequency—Currents alternating at the rate of more than 10,000 cycles a second are termed currents of radio frequency. That is, they produce vibrations of such fast frequency that they are practically inaudible to the human ear.

By N.E.A. Service  
CHICAGO, April 22.—"Sing 100,000 children to sleep!"

That was the order given Miss Lee Forster, Chicago girl, who often had sung lullabies and told songs to groups of children, but never to 100,000 scattered over 26 states.

Even the Old-Woman-Who-Lived-in-a-Shoe never had a task put up to her like that!

But Miss Forster said: "I'll do it. And if they're not asleep after the first lullaby; if the sandman hasn't come hovering over their cribs,

and some of them are still kicking their fat little legs, I'll give 'em another—a drowsier one."

Twentieth century magic made the task possible. From the Westinghouse company's KYW station here and from other stations throughout the country, Miss Forster sang songs about bunny rabbits, gingerbread men, rag dolls, and other things dear to the child heart, until her big family was satisfied.

She has promised to sing for them every week at bedtime and save thousands of tired mothers the trouble of rocking their little ones to sleep.

## THE GROTON HOSPITAL

Informal Opening Patriots

Day of the New Hospital and Annex

On April 19, Patriots Day, the Groton hospital was the scene of hospitality from noon until late in the evening, the occasion being the informal opening of the new hospital and annex, known as ward 13, to the main hospital. The addition was dedicated, and visitors were delighted with the excellent conditions about the hospital and the discipline among the patients.

After the opening exercises a flag-raising was participated in by all present, and the flag was presented to the hospital by the Elks of Framingham. The Legion post from Maynard was present and assisted Commander Peterson in unfurling the colors during the flag-raising.

Present as guests were Col. and Mrs. Charles Stevens of Lowell; representatives from auxiliaries through Middlesex county, the Army and Navy club and the Red Cross. The flowers that filled the room were very beautiful and added greatly to the decorations. Dining was enjoyed during the evening with a buffet lunch served during intermission.

Dr. Cavley of Boston is the district relief officer, and a very important factor in this particular branch. Great success to Dr. Ayers and his competent staff, Dr. Smith and Mr. Cady, was the wish expressed by the visitors.

Dr. Ayers is an excellent worker for the physical welfare of the boys in his charge, and with the able assistance of Dr. Smith and Mr. Cady has accomplished much for the veterans. If the patient's condition is such that he can sleep outside, there is every opportunity to do so, with pleasant outdoor quarters containing 110 beds and lockers. The best of sanitary conditions prevail. Dr. Ayers, through his untiring efforts, has made a companion and friend of each and every boy in the hospital.

## WAS INJURED IN RUNAWAY ACCIDENT

Stephen Anderson of 43 Hurd street, a teenager in the employ of Saunders' Public Market, Inc., received painful injuries in a runaway accident, which occurred in Pawtucketville last evening. Anderson was walking deliver in the vicinity of Eighth avenue, when his horse, becoming frightened, bolted down Mammoth road at breakneck speed. At a point near the corner of Hosa avenue, Anderson was thrown out of his wagon and received cuts and bruises about the body and legs. He was taken to the Lowell Corporation hospital in the ambulance. The horse continued its wild race as far as Pawtucket bridge, where it was brought to a stop by Arthur Hayes, a resident of the district. The animal received a cut on the leg, while the wagon was badly smashed.

## BELFAST DEATH TOLL NOW 12

Firing Again in Progress—  
Looters Tarred and Feathered by Police

Attack on Wellington Barracks Continued 40 Minutes—  
Bombs Hurlled

BELFAST, April 21. (By the Associated Press.)—Firing was again in progress in the Short Strand area of Belfast, the eastern section of the city, early today. A sergeant in the special constabulary was the first casualty of the day. Two deaths in the hospital last night and the death of Andrew McCartney, one of yesterday's wounded, raised the fatality toll to 12. Three men who were discovered looting in the Falls district yesterday, received a severe shock when they were tried and sentenced by republican police to be tarred and feathered. The sentence was duly carried out, and the thieves were marched down the street labelled "Looters, beware," and accompanied by a jeering shouting crowd. The arrival of the military ended the thieves' ordeal.

Bomb Explosions Cause Alarm  
DUBLIN, April 21. (By the Associated Press.)—The attack on the Wellington barracks, which began at 11.15 o'clock last night, continued 40 minutes, when the besieging forces were beaten off by the garrison of regular Irish republican army troops. An attempt was made to rush the front gate, and two grenades were hurled, slightly wounding three of the garrison. The guard replied with a grenade, and it is believed two of the attackers were wounded, as they were seen being assisted away by comrades. The firing in different parts of the city, while it lasted, was even more intense than that of the previous night, the explosions of bombs causing the greatest alarm.

Wireless Station Seized  
BELFAST, April 21.—The wireless station at Dunbar, near Gweedore, on the western Donegal seaboard, has been seized by republican forces. It was announced here today. The raiders provided the naval men in charge of the station with transportation to the nearest railroad depot.

BELFAST, April 21.—The Belfast newspapers today received a request from a leading newspaper distributing firm not to send their editions to Dublin or to the firm's railroad bookstalls outside of Ulster, until further notice. A boycott was formally proclaimed today at the city of Londonderry, on merchandise from Belfast, Lisburn, Drogheda and Banbridge.

### FLOATING EFFECTS MARK SUMMER FROCKS

The fact that Paris is using a great deal of lace just now, added to the fact that many lovely frocks were seen at Palm Beach, indicates that lace of every kind, color and width, will be much used this summer. Spanish laces, in black and white, are still decidedly popular. A new lace which seems destined to enjoy a real vogue this spring and dur-

ing the early summer is a mixture of silk and wool in a lace design. This comes in wide becoming. To meet the demand for dainty fabrics which alone really, the manufacturers have done their utmost, and the array of chiffons, crepes, embroidered laces, sheer novelty cottons, has been, voice and the lace is enough to turn the heads of beauty-loving women. The spring of 1922 began, dressed such an array of color, following a season of somber black, that it will be a surprise if the brightest colors in wash fabrics are ignored by the women seeking her summer dresses, and white or sweet past shades chosen, leaving the high colors for the summer generation, which does not care to fagged and faded when the thermometer begins to climb. White or cream, pale blue, yellow or orange always look especially cool, and will be worn extensively.

### PAINTING WHITE CROSSING LINES

More white crossing lines were painted on the pavement at the head of Central street last night and were in use today. As was the case in Merrimack square, pedestrians used them in the majority of instances and the traffic officer at that point felt that his work was greatly facilitated. The lines were put on between the hours of 12 midnight and 3.30 a. m. by two men of the street department and under the direction of Traffic Supervisor Edward Connors. It has developed that the lines recently painted in Merrimack square have not worn well and to be of continued effect must be repainted. Whether it is the fault of the paint or whether it is due to the continuous traffic stream cannot be determined, but a different make of paint was used at the head of Central street and some decision may be possible after a comparison of the two jobs is made. Within a few days the same scheme of crossing lines will be carried out at the intersection of Market, Central and Prescott streets and at Towers' corner.

## Sixteen-Year-Old Girls Country's Most Famous "Siamese Twins"

DAISY AND VIOLET HILTON

(BY N. M. A. SERVICE)  
SAN ANTONIO, Tex., April 21.—Living here are the successors of Rosa and Josefa Blazek, world-famed Siamese Twins, who died recently at Chicago.

They are Violet and Daisy Hilton, 16, and attractive. Violet and Daisy are "Siamese Twins"—their bodies are joined together at the base of the spine—just like Rosa and Josefa, just like Eng and Chang, original Siamese Twins whom Barnum made famous in the last century.

Save for the abnormal joining of their bodies, Violet and Daisy are just like any two ordinary 16-year-old girls.

And save for the fact that one must

go wherever the other goes, they enjoy the same pastimes and diversions any girls of 16 would enjoy.

### Fond of Games

They're fond of cards, checkers and dominoes. But both don't always play the same game at the same time.

The other night Daisy was engaged in beating her uncle at dominoes while Violet, brows puckered, was trying to disentangle herself from the intricacies of a high bid in bridge.

Both girls like to read. But while one reads "Silver Twist," the other may be thrilled by a movie serial.

Both are fond of the movies and of the same kind of movies for both must always attend the same show. They prefer serial pictures of wild adventure to the humdrum society romance.

### Writing Different

Each twin writes an entirely different handwriting. While the handwriting of both is good, their scripts are as different as the two poles.

The children romp and play about the grounds of their winter home here just as any children. They move about with marvelous rapidity and ease.

Daisy and Violet have been educated by private tutors. Their parents refused to send them to public school because of the comment their joint condition might call forth.

San Antonio's "Siamese Twins" today are the oldest known such twins in existence. Many such twins are born, but few live beyond babyhood.

Rosa and Josefa Blazek were well over 40 when they died. Eng and Chang were 62.

### SLAYER ARTHUR

GIVEN 14 MONTHS

BUFFALO, April 21.—Julius B. Arthur of Quincy pleaded guilty to a charge of manslaughter when arraigned in Norfolk superior court late yesterday for the murder of his brother-in-law, George Bodey, on June 18, 1921. Judge Nelson P. Brown sentenced Arthur to 14 months in the house of correction.

Asst. Dist. Atty. Kane, in announcing that the state would accept the plea said that the shooting had followed a family quarrel after both men had drunk considerable liquor.

Paper is made from wood, rags, banana skins, beanstalks, pea vines, coconut fiber, clover, hay, straw, weeds, seaweed, to kinds of bark and more than 100 kinds of grasses.

## TO WELCOME CARDINAL

Mgr. O'Brien, Humphrey O'Sullivan and Edward O'Connell at New York

NEW YORK, April 21.—Prominent Catholic clergymen and laymen of

AFTER your energies have been "short circuited" through undue exposure, fatigue or worry, restore the system to normal health and vigor by taking that blood-maker and tissue-builder

**BOVININE**

The Food Tonic Of All Druggists

180

Greater Boston, who have come here to welcome Cardinal O'Connell on his return from Rome, experienced a few anxious minutes yesterday when they learned that the White Star liner Arabic was battling southwest gales and heavy seas about 1000 miles east of New York harbor.

Their fears were dissipated when at 10:50 a. m. a wireless message was received from Capt. W. Marshall of the Arabic that the 33,000-ton liner was weathering the gales, though receiving a severe buffeting, and all was well with those aboard, the cardinal and his companions being in particularly good health.

At the time the message was sent the Arabic was 753 miles east of Ambrose light, and consequently there is no possibility of the steamer's arrival here before daybreak Saturday. At the headquarters of the White Star line here it was said that the vessel would not arrive at quarantine before Saturday afternoon. She was scheduled to dock this afternoon.

The Rev. Charles Sullivan, vice-chancellor of the archdiocese of Boston, who is in charge of arrangements for the reception to be given by the clergymen, said last evening that he had been informed that the Arabic might arrive at quarantine about 4 o'clock Saturday afternoon. Should the liner reach the lower harbor after sunset she would be compelled to remain there until Sunday morning, and the passengers would be held aboard, that being the ruling of the government officials.

Accompanying the cardinal are Mgr. Richard J. Haberlin, chancellor of the archdiocese, who is the cardinal's secretary; Mgr. M. J. Spillane of St. Joseph's parish, Roxbury, and Dr. John

R. Slattery, knight of the Holy Sepulchre, who is superintendent of St. Elizabeth's hospital, Brighton.

Among the Boston archdiocese clergymen who were at reception headquarters, the Hotel Belmont yesterday were Mgr. John B. Peterson of St. John's Seminary, Brighton; the Rev. Charles Sullivan, Mgr. William O'Brien of Lowell, Mgr. Joseph F. McGlinchey, diocesan director of the Society for the Propagation of the Faith; the Rev. John J. Ryan of St. Paul's church, Cambridge; the Rev. William B. Finnigan, rector of the Cathedral of the Holy Cross, and the Rev. Philip J. O'Donnell of St. James' church, Harrison avenue.

Other clergymen who will greet the

cardinal on his arrival include Mgr. Arthur T. Connelly of Jamaica Plain, Mgr. Ambrose F. Roche of Watertown, the Rev. Lawrence Slattery of Newtonville, and the Rev. Nicholas J. Murphy of Allston.

The prominent laymen who will be here to receive Cardinal O'Connell include Henry V. Cunningham, Joseph H. O'Neill, James J. Phelan, Francis E. Slattery, all of Boston; Edward O'Connell, brother of the cardinal, and Humphrey O'Sullivan, both of Lowell, and Maurice J. Curran of Andover.

Galen, born about 129 A.D., complained that there were no real pleasures after truth in his time, but that all were intent on money, political power or pleasure, and that not one of all those had met preferred to rather than seem, wise.

Teach Children To Use Cuticura Soap

Because it is best for their tender skins. Help it now and then with touches of Cuticura Ointment applied to first signs of redness or roughness. Cuticura Talcum is also excellent for children.

Sample Book Free by Mail. Address: "Cuticura Laboratories, Dept. 177, Malden 15, Mass." Send every-where. Soap, Mo. Ointment and Talcum. Cuticura Soap shaves without mug.

**DYE OLD SKIRT, COAT, DRESS IN DIAMOND DYES**

Each package of "Diamond Dyes" contains directions so simple any woman can dye or tint her worn, shabby dresses, skirts, sweaters, coverings, draperies, hangings, everything, even if she has never dyed before. Buy "Diamond Dyes"—no other kind—then perfect home dyeing is a sure because Diamond Dyes are guaranteed not to spot, fade, streak, or run. Tell your druggist whether the material you wish to dye is wool or silk, or whether it is linen, cotton or mixed goods.—Adv.

The best Spring medicine you can take to drive out the Winter impurities and put your liver and bowels in perfect condition costs but a trifle and can be brewed at home just like ordinary tea.

### CELERY KING

Is purely vegetable. Brew a family supply tonight—gives the children a cup. It's a gentle laxative, good for sick headache, bad breath and sallow, pimply skin.—Adv.

## LADY ASTOR PRAISES LEAGUE OF NATIONS

NEW YORK, April 21.—Lady Astor is praising the League of Nations before a gathering of nearly a thousand men and women last night received long applause when she appealed for the United States to either enter the league or some association of nations, banded together for peace.

She led up to this appeal, which brought the crest of the almost continuous wave of applause, given her by the gathering under the auspices of the English speaking union, by saying she did not believe war ever could be ended with war.

"All Europe wants to get back to what you call normalcy, whatever that means," she said. "I wish America had entered the Geneva conference for its purpose is to straighten things out. You cannot live near Europe without wanting to help her out of her sad devastation. It's all very well to say it's Europe's own fault, but it is our fault if we don't help her."

When she spoke of the League of Nations "where angels fear to tread," praised its accomplishments, and declared that while it was only half a league, it was half a league onward. The audience at the dinner, including leaders in many branches of activity, cheered continually.

"They are very generous in the house of commons to America," she went on, "more generous than some people," and then, hesitating added, "some people in the senate."

## Tom Sims Says

Chicago robber shot in New York should have sense enough to stay at home where the folks knew him.

When business is slow it is a good idea to get after it.

European merchants can take Russia's orders. It is Russia will take their orders at Gueva.

Men who think they know all don't know all they think.

You can save daylight by using it.

With so many autos and porch swings it is a wonder anybody is single.

Landlords should remember they don't have as hard a time collecting the rent as tenants do.

The man who stays on his toes keeps others off of them.

Bridge is a great convenience to pass an open night.

Being down in the mouth is a fine way to get up in the air.

A salesman has to strike a man right to make a hit.

Conan Doyle says it is a funny feeling when you die, but then Conan never has tried it.

The chief interest in life with some people is that at the bank.

Perhaps prosperity is slow because we haven't paved the way.

When it comes to getting there perspiration beats inspiration.

Blessed are the pacemakers, for they shall never be out of work.

Some of us just leave off our vest and we have our spring suit.

Fact that the world's diamond supply has been cornered will make a fine alibi for June grooms.

Congresswoman Robertson asks the people to pray for congress; but some think it is too late.

## WILL GRADUATE FROM PORTIA LAW SCHOOL

Two Lowell girls, Miss Lillie S. Cutler and Miss Mary V. Moloney, will graduate with the highest honors next June from the Portia Law School of Boston. After completing four years of evening study at this institution they will graduate as valedictorian and salutatorian, respectively.

A graduate of the Lowell High School and stenographer for the superintendent of police for about 15 years, Miss Cutler, the valedictorian, is expected to take the bar examinations the first of July, after leaving the law school.

Miss Mary V. Moloney, salutatorian of the graduating class, is also a Lowell high school graduate. She has worked successively in the school department of the U. S. Cartridge Co., the federal labor bureau, where she was assistant to Cornelius F. Cronin, and for E. A. Shaw Co., cotton brokers, in Boston, where she is now employed as a stenographer. Miss Moloney will also take the bar examinations in July.

## WILL GIVE RECITAL AT STRAND THEATRE

Great interest is already being manifested in the recital to be given by Ronald Werrenrath, Metropolitan Grand Opera company baritone, at the Strand theatre, Thursday evening, May 11. The recital will be under the auspices of the Lowell Tufts College Alumni association.

Has your skin a clean healthy outdoor look?

## GAVE ENTERTAINMENT AND EXHIBITION

The Massachusetts Home Economics clubs held an entertainment and exhibition of the work done by the members of the clubs at the Draught

Grange hall recently. A play entitled "Hiring a Maid," singing of club songs and a demonstration by members of the sewing club on the care of clothing were features.

W. J. Howe of M.A.C. spoke of the splendid work done by the club. Miss Forbes then awarded prizes to the following club members: Boys' Bread

club; first year members, first prize, Maurice Alberts; second prize, Merrill Huntley; third prize, Howard Walsh; second year members, first, Warren Labue; second, Kenneth Molt; third, Arthur Wells; Girls' bread club, first year, first, Leone Mille; second, Grace Robertson; third, Gertrude Callahan; girls' first year sewing, first, Rella M. Park; second, Ora K. Park; third,

Dorothy Brown; second year, first, Hazel Wilkinson; second, Laura Hague; third, Ruth Middleton; third year, Marjorie E. Root.

South American anti-bears have been imported into the state of Washington by fruit and vegetable growers to keep down the various insects that infest this region.

## FOREIGN JAZZ ARTISTS POPULAR IN PARIS

PARIS, April 21.—American, Cuban and Hawaiian jazz band instrumentalists have become so popular in Paris restaurants, hotels and dance halls that the municipal council is considering limiting the number of foreigners employed in an orchestra to 10 per cent.

More than 50 per cent. of the musicians in most Paris establishments are foreigners, while it is estimated more than a thousand French instrumentalists here are without work.

# 8th Birthday Sale!

Our Birthday Sale has been a great success—now comes the wind-up and greater values. There's a great difference between sale stores and stores that have occasional sales and make those real sales—this is a real sale—a sale with a purpose. We celebrate our success by sharing our profits with you. We don't promise you something for nothing—no exaggerations—A real sale with unusual values.

**Come Saturday and Monday and Save Many Dollars!**

## Suits

New styles just arrived. Hand tailored, long line models—mandarin and box coat effects—beaded—embroidered. Lined with peau de cygne. Tricotine—Poiret Twill and Picotine, in navy and black. Every size is here.

**\$23 and \$32.50**

A Saving of at least \$10 to \$15

## Kelley Tweed Suits

New long lines and Norfolk effects.

Every color. The finest **\$18.50** Handsome silk linings. Tweed Suits at..... Hand tailored.

## Wrap Coats and Capes

Handsome models in Marvella—Olando—Gerona—Pandora and Shawsheen. Lined with Canton Crepe. Embroidered and silk stitching.

Great Values At **\$25** All the Colors

## Coats

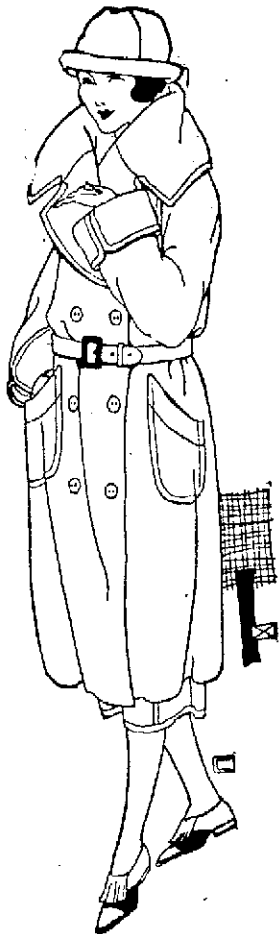

New sport models with set-in or raglan sleeves, slash and novelty pockets. Camels Hair—Chinchilla—Herringbone—Plaid Back Cloth—Tweeds. All colors. Full lined, half lined.

**\$10 and \$15**

## Girls' Coats

Youthful models in Camels' Hair and Chinchilla.

Sizes 4 to 14. Unusual at **\$7.50** All Colors

## Hosiery

Heavy Silk Stockings, fashioned with three seams. Double heel and toe. Elastic lisle top. Every new color **\$1.00**

Full Fashioned, Heavy, Pure Silk Stockings—double heel and toe. Every new color to match the shoes. All sizes **\$1.95**

Lowell's Busiest Hosiery Department

## Dresses

Exclusive creations shown for the first time in Lowell. Panels—blouses—tunics, straight lines—flowing sleeves—circular skirts—bateau neck lines. Canton Crepe—Charmeuse—Paulette—Cape Elizabeth—Georgette Crepe.

100 new styles to select from. **\$18.88** Beaded—Embroidered. ALL COLORS. They are unusual.

## LIGHT ON COAL STRIKE

There is probably much in reference to the coal strike that is still not clearly understood by the general public. But while mutual recriminations are going on between operators and miners, the National Bank of Commerce of New York comes out with a statement showing that the blame rests on neither side but on the fact that the bituminous mines are able to mine all the coal needed to meet the demands of the nation in 215 days, thus leaving the miners idle for the remaining 150 days, deducting Sundays, would leave 98, or a little over three months, of actual idleness.

It is not surprising, therefore, that the miners ask for a five-day week and a six-hour day in order to give them continuous employment. In 1921 the bituminous mines worked only from 165 to 170 days during the year. The miners may be excused, therefore, if they want a wage that will be sufficient to support them during their idle time as well as when they are at work.

On the other hand the operators have large fortunes tied up in the mines and they naturally expect reasonable returns. But they find that by working the mines for nine months of the year they can meet all the demands for bituminous coal.

It is estimated that the capacity of the mines, if worked continuously, is 750,000,000 tons, but the consumption and export combined has never exceeded 550,000,000 tons. There is thus an unnecessary mine capacity or surplus of 200,000,000 tons of bituminous coal and 175,000 bituminous miners.

For this degree of overdevelopment, the bituminous operators are not to blame. Indeed it appears that they would gladly have adopted some plan of curtailing the output but for the fact that any general agreement of this kind would be treated as a violation of the anti-trust law.

The only remedy for the present condition is to get rid of the surplus output of the mines by export or else to put a limit on the production. Under present conditions of the international rates of exchange, there is no prospect of any material increase in the export of bituminous coal from this country. The other countries could not pay the price. Hence the whole problem must be settled at home. The mine operators cannot afford to conduct the mines without a fair profit on their investment; the miners cannot afford to live three months of the year unless they have a rate of wages during the other nine months of the year high enough to enable them to live during the period of idleness.

All this is quite reasonable as far as both sides are concerned and hence, the case is one that demands the attention of congress or of some government agency. There must be a new basis of operation as well as of dealing with the miners. The demand for a five-day week and a six-hour day will hardly be conceded; but the only alternative is that some plan be devised of keeping the miners continuously employed at fair wages. Otherwise, they must get as much for nine months' work as they would for a full year. The situation has its difficulties and unless the government intervenes, it is likely to be settled by increasing the price of coal to the consumer, although it is now at least \$4 per ton higher than it should be if justice prevailed.

**CIRCUMNAVIGATING THE EARTH**  
Much interest was centered in the enterprise started by the brothers Ross and Keith Smith of Australia to fly around the earth in an airplane, starting from Croydon, England, on April 25. Unfortunately, one of the brothers was killed while practicing near London so that the joint attempt as planned cannot be carried out. The surviving brother, however, will probably get some other aviator to undertake the feat with him and it is not at all improbable that it will be successfully achieved. When an aviator can cross the Atlantic, he can also cross the Pacific, and if so, he can circumnavigate the earth. The progress made in rapidity of travel is really marvelous. The Smiths calculated that they could circle the earth in 240 hours, actual flying divided over a period of ten days.

The sailing ship in which Magellan started in 1492 to sail around the world for the first time, took three years and thirty days for the trip. Since then there have been wonderful progress in conquering over time and there is reason to believe that the future progress of our present methods will be quite as great as has been ours since that of Magellan.

**WORLD'S LARGEST CITIES**  
Chicago will have a population of 1,400,000 in 1940, predicts Ernest Burton of the research department of Illinois Bell Telephone company. The population may be two or six million in 1940. There is no telling what the expansion of that city will be if it be progressive and well governed. Its present population is about three million.

Some census experts believe that Chicago eventually will be the world's largest city, with at least 20,000,000 population.

An American city of that size will be a frightful mess to live in, unless there is a revolutionary readjustment in municipal management.

New York is at present the most populous city in the world, having recently outstripped London. Its population in 1920 was 5,629,948 and its increase in the decennial period from 1870 to 1920 was 1,147,000 less than a million. The population of London in 1921 was given as 6,621,036.

## COST OF LIVING

The cost of living among wage earners' families March 15 was nearly 64 per cent higher than in 1914. It had dropped about 24 per cent from July, 1920, when living costs were highest. These figures, furnished by the Na-

tional Industrial Conference board after a check-up, are obtained by striking a national average. In some sections, it is higher than the average and in others lower.

Unless the rate of decline increases, it will be May, 1924, before the cost of living gets down as low as it was before the war, if it ever gets so low again, which is doubtful.

When the high protective tariff is put into operation, the prices of many commodities will jump upward. Then the cost of living will follow and wages will struggle quite a distance behind.

## BOOTLEGGERS BUSY

The bootleggers are still active in Lowell and the sale of liquor is going on in the saloons, despite the activity of the liquor squad in bringing in rum-runners. Occasionally the rum-runners are caught bringing their supply from Canada, although the imports from that source are not so heavy as formerly. The bootlegger is still an active agent in maintaining illegal sales.

Liquor, shipped to foreign countries for storage on the eve of national prohibition, is gradually being brought back, some by smugglers, some through legitimate channels.

The total of this liquor is worth \$300,000,000 in the legitimate market, \$1,000,000,000 if handled by bootleggers, says John D. Appleby, general prohibition agent in the New York and New Jersey district.

At this rate, the bootlegging system takes 234 per cent profit for the risk it runs. This reduces bootlegging to a mathematical basis, operating on the law of averages.

## FULLER-WARNER

Former Speaker Joseph Warner is to be a candidate for lieutenant governor against Lieut. Governor Fuller. Doubtless the contest will wax warm and it remains to be seen whether Fuller will resort to his usual plan of vilification in dealing with Warner. In assailed him to such an extent in his campaign two years ago that Warner sued for \$100,000 damages in a slander suit. He won a verdict of \$10,000, which is still in litigation. Fuller is not likely to use any milder methods in conducting his campaign this year. He may not go to the extent of accusing Warner of being connected in any way with Al Raba and his party thieves; but he can be relied upon to deliver some stinging blows. It will be a sort of Brutus and Cassius affair with Warner the more exciting in the colloquy.

## TARIFF ON SUGAR

The American producers of Cuban sugar are making a big kick over the proposed increase of 60 per cent of the tariff on sugar, which would raise the price to the American consumer and thereby serve as a subsidy to American producers, something which is not needed. Exports estimate that the subsidy would amount to \$12,000,000 and that the total increase in the amount of the annual sugar bill of the United States as purchased from Cuba would be \$162,000,000. The high tariff was proposed at first to prevent dumping the Cuban sugar crop here; but the surplus of the crop has disappeared so there is no valid excuse for a very high import on sugar.

Venerable indeed and dear to the heart of Lowell are the survivors of the old Sixth regiment, who gave the first martyrs to the Union cause. There are but a few of them left in Lowell and they are revered by all who know them for the glorious services in which they bore a heroic part.

Treasurer Greene of the Pacific mill of Lawrence seems at least to be candid and unafraid to talk. If conditions are as he says, there is not much hope of a victory for the Lawrence strikers. If he could get along with a 10 per cent cut for the present, the change would be readily accepted by his employees.

President Harding wants the tariff bill pushed ahead of the bonus bill but congress refuses to hold the bonus bill to await the outcome of the tariff. Both should have been disposed of long ago, had the republicans shown the business capacity of which they are wont to boast.

Mayor Hyman is threatened with removal by Governor Miller and should the governor attempt such a coup, he would probably make Hyman a potential candidate for governor. That is how the political game has been working of late.

The city of Savannah, Ga., has barred jazz made under penalty of \$100, or imprisonment for thirty days. For a state that holds the record for lynching without any apparent quaking, this appears rather amusing.

The republicans ask the legislature for power to appoint women to the state committee. If women enjoy all the rights and privileges of men, why offer them any special privileges?

Germany undoubtedly feels that she could not expect much from the Geneva conference anyhow and that she had better get what she could from Russia in advance.

If Lloyd George can bring harmony out of the chaos that confronts the Geneva conference, he will have won one of the greatest triumphs of his political career.

The building trades refuse to reduce wages in order to encourage a building boom. That puts a damper upon building operations for the season.

This is forest protection week against fire. We haven't many forests hereabouts, but somehow we manage to have our share of brush fires.

## SEEN AND HEARD

Liberty bonds are getting higher—so is liberty.

This is the time to keep cool over the coal situation. Next winter will be the time to get hot.

Some married people are happy; others make their home with the parents of the bride.

## Thought For Today

What is meant by redeeming time? It is to fill the hours full of the richest freight, to fill them with the life of thought, feeling, action, and passion. One moment of self-conquest, one good action really done, yes, one effort to do right, really made, has the seal of time put upon it.—James Freeman Clarke.

## A Word a Day

Today's word is *deary*. It is pronounced *de-kry*, with accent on the last syllable. It means—to blame, to censure, to condemn. It comes from—Old French "*decker*," to cry out against. It is used like this—"The whole world decried the action of the German emperor in plunging Europe into war."

## Drop In Temperature

Little Girl (rushing into doctor's office)—"Please, doctor, come at once to father," said the little girl. "Mother's taken his temperature, and it's gone down." "That's all right, my dear," said the doctor, "repaid the doctor." "That's all right," said the doctor. "That's all right," said the doctor. "That's all right," said the doctor.

## Very Poor Picking

He was recognized as the meanest man in the neighborhood, but this did not prevent his house being broken into by optimistic burglars. When the gang came to talk matters over and adjust finances the gloom of the leading burglar checked all of them. "Didn't make much," Bill, asked someone at last. "Make much," Jerred Bill, with sarcasm. "I lost money over the job."

## "Curseful" All Right

A huntsman called at the farmstead to settle for damage done by the hounds and found only the farmer's wife at home. "Has your good man made an examination yet?" he asked. "That he have, sir," replied Mrs. Bodkin. "Rather a curseful examination, I suspect." "O, dreadful, sir," said the huntsman. "I never heard—never!" And the dame held up her hands at the bare recollection.

## Not Easily Disturbed

A number of sportsmen in the north of Scotland, putting up at Jack McGie's cottage, found their sport much interfered with by rain. Still, fine or wet, the old-fashioned barometer that hung in Jack's front room marked the weather. "That's just one of the party," said Jack, "and I don't think it is his business to mind." "Don't you think," he said, "that there's something the matter with your glass?" "No, sir," answered Jack indignantly. "She's a good glass and a powerful one. But," he added, reflectively, "she's not moved by trifles."

## Deserved Promotion

A young Australian reporter was left in charge of the news room one evening. Suddenly he was confronted with a film, an inexpressible cable from England. It ran: "Lincoln, 2.50. Dean Swift told Lincoln 'Dawn,' and was in fact, the result of a race which had been run that day. Knowing nothing about racing, and feeling bound to justify his existence, the inventive youth had the following inspired paragraph inserted in the paper next morning: "We regret to announce the death of Lincoln at 2.50 yesterday afternoon of the Very Rev. Dean Swift, the author of the well known hymn, 'The Rose Tree' of Early New Mexican Hill Song."

## A New Mexican Hill Song

Wind in the lap of great waste places Sweeping the cliffs and the sands, Daring the desert's hot white spaces Under the starry ghostly hands. I would dance with joy across the balltops, Over the depths and heights, Along the crest where the swollen sun drops, Scattering rainbow lights.

I know the touch of the marsh rock, The breath of the oak and the pine, I know the paths where the rose light lingers, Wind that is mine, are mine. Once when the yellow trail went winding, I heard your whispered call. Why are you dumb to me, when will you come to me, Mad with your spirit thrill?

The tough hill grasses are gray and golden, The flowers are white with bloom, The still, low sunbeams, the lizards are golden. Around the old Indian tombs, The barren mesas are widely kneeling Under the first thin, Under the first thin comes a presence stealing. What is it you? —ROSE HENDERSON, in the Dial.

## MAN ABOUT TOWN

The beautiful new chapel in St. Patrick's cemetery, which I had the pleasure of visiting the other day, is only one of the most important and important improvements conceived and carried out in Lowell for many years. The building is so constructed that it will stand the storms of ages and will be an enduring memorial of its sponsor and builder. The opening on Memorial day is certain to be attended by thousands, and until that time comes most of the people will be unable to realize not only its beauty and convenience but its durability as well.

On all sides you hear people say, "A fellow wouldn't mind this deflation so much if taxes didn't stay so high." National taxes during the fiscal year, which will end next June 30, average \$2.14 for each inhabitant. The Englishman's average of \$1.85 on a combined with our \$2.14, Italian pays \$1.85, Frenchman \$1.49. The British treasury, which hence this out, also finds that corresponding taxes in Germany are only \$1.18 for each inhabitant. That's a peculiar form of penalty for being the war.

If Shimon B. Harris were alive, he would be up daily to see the fish jumping over the new fishway at the falls. Mr. Leon A. Eliot has been named a special commissioner to watch the fishway and report upon the kind and number of fish he sees making their way upstream. I may be pessimistic, but I believe Mr. Eliot will have to wait

quite a while before seeing any fish pass upward. I doubt whether there are any fish in our river or whether fish can live in water so contaminated with sewage.

Another discussion relative to "pant-hole" conditions, although not as yet brought to the attention of the general public, is said to have arisen in the sections of the city surrounding the various parks and recreation grounds, particularly the North and South commons. With the happy disposition of the city, the dance hall proposition, which has afforded great satisfaction to the residents of Pawtucketville, the people who live in the neighborhood of the two commons, two of the city's most popular recreation centers, are complaining of the lighting conditions now existent, which they say, make for a situation in the heart of the city comparable only to those predicted on the boulevard in the event that the new dance hall was licensed. Those who are in the best position to know say that the North common is by far the darkest spot in the night time in the city. The spot in the common is illuminated by pale gas lights at infrequent intervals, with large sections of the wide area in complete darkness except on moonlight nights. The policing of the common is not so extensive as to make further lighting unnecessary. The first darkness until after midnight the police on their rounds may pay but infrequent visits to the common, and on the late shift the visits are still farther apart. With the policemen starting on their vacations, a natural shortage has developed, and on many nights the officer who takes the North common, is compelled to "double," and include the beat in the vicinity of Liberty square. At other times the situation is reversed, with the same results. The common cannot be patrolled as it should. The officer who walks the beat which includes upper Broadway, Pawtucket street and Fletcher street, seldom has time to do more than walk along the westerly side of the common once in two hours. As this visit corresponds very nearly to that of the other officer, when doubling, intervals of two hours elapse without anyone in authority in sight. Residents of the section consider this condition deplorable, and believe that some defects should be taken, particularly on account of the extreme watchfulness exercised in the daylight hours, when everything is open to the eye. Not so much is heard relative to the South common, although it has been remarked that there is a considerable area along the southern edge especially on the upper Thorndike street section, which is not lighted to the extent that might be considered desirable with such isolated surroundings.

**ANNUAL DANCING PARTY AND REUNION**  
Outdistancing all previous efforts in every way, the eighth annual dancing party and reunion of the students of Associate and Mass College was held in the gymnasium last night. Principal Eliot Wood and several from the school faculty, and graduates from Lawrence, Haverhill, Nashua, N. H., and Manchester, N. H., were guests. Prominent in the pretty setting and surrounded by beautiful decorations were the school seal and class colors.

The following officers were responsible for the affair: president, General manager, Edward O'Brien; assistant general manager, Alice Heslin; director, John J. Leary; assistant floor director, Florence McFarlane; chief aid, Francis Redding; treasurer, Elizabeth Farham; secretary, Anna Mahoney; committee in charge, Viola Darrezo, Catherine Clavary, Blanche Magotte, Dorothy Dockett, Arthur Brown, Francis Redding, John Leary, Edward Farham, John Mahoney, Alice Heslin, Florence McFarlane, Anna Mahoney, Elizabeth Farham, Paul O'Dowd, Simon Dean.

**WAGE CUT ACCEPTED BY MILK DRIVERS**  
BOSTON, April 21.—Milk wagon drivers of this city, who had threatened to strike on issues of working hours and other conditions, last night ratified an agreement, which was for one year and provided for an 8-hour day for truck drivers. The workers accepted a wage cut of \$3 a week.

The wage schedule had been agreed to some time ago, but the union opposed proposals of the employers for a nine-hour day for truck drivers and an agreement for six months only.

**NEW WORLD RECORD FOR TAIL SPINNING**  
PHILADELPHIA, April 21.—As the result of eight months' practice, near yesterday, Lester, a boy, 13, of Haverhill, Mass., who served with the British in the world war, claimed he has established a new world record for tail spinning. He tumbled between 9200 and 9700 feet. The record for the tail spin, 8500 feet, was made at Dayton, Ohio, last fall.

Harding carried an observer with him. They took the plane up 11,000 feet and then dropped. The machine was sighted about 1000 feet from the ground without difficulty.

**DEMANDS DAIL REUNITE ARMY OR QUIT**  
DUBLIN, April 21.—(By the Associated Press)—A manifesto issued last evening by the labor party and the trades union congress, calls for a one-day strike and demands that the Eil Eilreann assert its authority, reunite the army under a single command and accept the responsibility of government, or confess its impotence and make way for the people to decide the issues.

The manifesto says the lord mayor and the archbishop of Dublin have been requested to invite the representatives of the executive council of the disident section of the army—that headed by Roderick (Rory) O'Connor—to the adjourned session of the pending conference between representatives of the Free State and the republicans, next Wednesday.

It asserts that the labor party and the trades union congress have consulted the leaders of the contending parties and forces and have been assured on all sides that many deeds of aggression and violence were committed by groups or individuals without authority. Every effort was being made to reduce to a minimum military intervention in civil affairs.

The manifesto declares that it is for the Eil Eilreann, when it meets next Tuesday, to reunite the army and bring it under a single command, so that it may defend the nation and its liberties against foreign intervention. "The country demands that the Dal should assert its authority and accept the responsibilities of government or confess its impotence and make way for the people," it declares.

The manifesto says the Demand is made on behalf of 300,000 organized trade unionists and tens of thousands of other persons outside their ranks. The stoppage of work called for includes all services except humanitarian. The trades councils and unions are asked to organize meetings in support of the action of the labor party. It is understood the strike will affect all the railways and the postal and telegraph services.

## DEMANDS DAIL REUNITE ARMY OR QUIT

DUBLIN, April 21.—(By the Associated Press)—A manifesto issued last evening by the labor party and the trades union congress, calls for a one-day strike and demands that the Eil Eilreann assert its authority, reunite the army under a single command and accept the responsibility of government, or confess its impotence and make way for the people to decide the issues.

The manifesto says the lord mayor and the archbishop of Dublin have been requested to invite the representatives of the executive council of the disident section of the army—that headed by Roderick (Rory) O'Connor—to the adjourned session of the pending conference between representatives of the Free State and the republicans, next Wednesday.

It asserts that the labor party and the trades union congress have consulted the leaders of the contending parties and forces and have been assured on all sides that many deeds of aggression and violence were committed by groups or individuals without authority. Every effort was being made to reduce to a minimum military intervention in civil affairs.

The manifesto declares that it is for the Eil Eilreann, when it meets next Tuesday, to reunite the army and bring it under a single command, so that it may defend the nation and its liberties against foreign intervention. "The country demands that the Dal should assert its authority and accept the responsibilities of government or confess its impotence and make way for the people," it declares.

The stoppage of work called for includes all services except humanitarian. The trades councils and unions are asked to organize meetings in support of the action of the labor party. It is understood the strike will affect all the railways and the postal and telegraph services.

**ANALYZING PRES. HARDING'S WRITING**  
BY ALBERT J. SMITH

The style of handwriting affected by President Warren G. Harding is the typical journalistic hand. It denotes the cool, deliberate, scrupulous of the trained executive with well-seasoned powers of deduction. It is a strong hand. This conclusion is obtained from the semi-angularity of the script, the consistent joining of the letters without a break and the decreasing or wedge shape of the writing.

Harding has a strong intellect. The powers of deep concentration are well developed and the faculty of diplomacy is well marked. We discover these qualifications in the tendency to small writing, the continuity of the pen tracks and the wedge-shaped words "Warren" and "Harding."

The president has more or less of

an impenetrable nature. It is difficult to get behind his motives. He is a deep thinker, the student of facts. He cannot be hurried; he must "be shown."

To the casual observer, Harding would convey the impression that he is slow to move and lacking in aggressiveness. This is due to his impenetrability, for he has the faculty of arriving at his conclusions without attracting undue attention. There is nothing "Barnumesque" in his methods; there is no ostentation, or bombast.

We know that Harding has a keen mind. This is determined by the sharp tops of his writing which he unconsciously tries to incorporate into his usually rounded *a's* and *e's*.

Observe the unpretentious underscore of Harding's signature, the tail-like appendage to the "g" in Harding, gracefully sweeping into a slight curve, without the customary dash of the egotist. This denotes moral courage and reduction, with prudence and that sense of reputation and character upheld at all costs.

**SEATS ON STOCK EXCHANGE SOAR**  
NEW YORK, April 21.—Prices of seats on the New York stock exchange, long regarded by many as an index of approaching market conditions, are still on the upgrade. Wall street got a thrill yesterday when it was announced that Erich Marks had bought the seat of W. F. Blinn for \$93,000, which was \$4000 more than previous sale recorded less than week ago.

**SAND COLOR AND GREEN POPULAR SHADES**  
NEW YORK, April 21.—Sand color and bright emerald green, will be prevailing shades in women's summer and fall millinery.

## SEATS ON STOCK EXCHANGE SOAR

**Berton Braley's Daily Poem**  
UP ANCHOR!

Move about a little and see the world a bit; A plant stays where it's planted and a stone has got to sit. Exactly where it's sitting till it's shoved or rolled away— But you can go a-roving any place you want to stray.

Move about a little and see the world a bit; You may not get so very far before you have to quit. You may run out of money or your feet grow very sore, But after you have paused a bit—why, you can go some more.

Move about a little and see the world a bit; It hardens up the muscles and it polishes the wit. The "old familiar faces" may be nice enough to view, But—now and then refresh yourself with faces that are new.

Move about a little and see the world a bit; You needn't be a hobo—but you ought to "hit the grit." For off and on and now and then the wise man will unravel The many ties that bind him—and he'll try a little travel.

He'll try a little travel and he'll hike a little hike, He'll beat it in an auto, on a train or on a bike, He'll hit the trail for somewhere—for wherever he can hit, He'll move about a little and he'll see the world a bit!

## Lawn Grass Seed

April showers will start your lawns. Get your seed in before the ground gets dry. We carry Grass Seed which is mixed in our store and is absolutely free from chaff or dust. Every seed grows. Put up in packages, 1/2 lb., 1 lb., 2 lbs., 5 lbs. and up.

## More Evidence ALLEN'S LUNG HEALER Prevents Pneumonia

Mrs. W. H. Walker gratefully adds her testimony to the many which have been published:

Mr. H. J. Allen, Druggist:

Dear Sir: Allen's Lung Healer is the most effective medicine I ever used in my life. It seems to work like magic. My daughter was so badly broken up with a cold that she had to give up work and go to bed. Her cough was hard, dry and distressing, her lungs were sore and breathing difficult and she seemed on the verge of having pneumonia. I was told of the Lung Healer and decided to give it a trial. She had taken but a few doses when she began to improve rapidly and in a week's time she was entirely cured and back at her work. You can be sure I was surprised and delighted with the way the medicine worked, so quick and thorough.

Yours gratefully

MRS. W. H. WALKER,  
1 Moulton Street, West Lynn  
Sold in Lowell by A. W. Dows Co.,  
Lowell Pharmacy, F. J. Campbell, L. H. McFadden, J. J. Brown, H. R. Campbell, Fred Jones, Wm. H. Noonan, H. C. Page, L. T. Steeves and T. C. Walker.

has won considerable recognition in her line of entertainment. One of her best features is a monologue described as "A Modernist Art Exhibition." She is perfect in manner and instructively satirical while making the rounds of the imaginary gallery, describing each picture most absurdly. She is particularly adept in satire, giving a perfect reproduction. In another feature, of a society gossip, with all the characteristic artificiality, pretense, critical attitude toward those whom she considers inferior and cringing adulation of those on a higher plane.

Her presentation of little rhymes in the French dialect was a pleasing demonstration of her versatility. As a little French maiden romancing with a Yankee doughboy, and again as a French coquette, she was extremely pleasing. Her "Nervous Woman in an Automobile" was splendid. "A Pattern of the Arts and the Opera" was another exhibition of her trilingual ability of a high order, and her Italian dialect sketches and touching war poems rounded out a splendid hour of choice entertainment.

Miss Osgood has not appeared here for some time, but her next appearance will be joyfully acclaimed by those who attended yesterday's entertainment.

Miss Caroline Downey, president of the association, introduced the entertainer.

EDUCATORS GRATIFIED

DALLAS, Tex., April 21.—Attendance of southern men at northern institutions of learning is a source of great gratification to educators all over the country, inasmuch as it means an interlocking of interests and friendship. Dr. A. Lawrence Lowell, president of Harvard university, declared before the members of the Dallas Harvard club last night.

## AMUSEMENT NOTES

(By Theatres' Own Press Agents)

**B. F. KEITH'S THEATRE**

Charles "Chic" Sale, the peerless entertainer, who is appearing at the B. F. Keith theatre, this week gives the almost entirely new gallery of rural types. His work is quite in a class by itself, as all will admit who have seen it. Somewhat different from last season, his work is none the less finished. James Burke and Eleanor Durkin, who are giving "A Tete-a-Tete in Song" are most interesting performers, whose work is most polished. Then there are Art Hall and Abe Shapiro, who do a comedy stunt that is a riot of fun all the way through. Millard & Marlin make a witty comedy. The Burns Brothers are dress suit athletes, and Bessie Clifford is a stunning posar.

**THE STRAND**

Have you seen Mae Murray in "Peacock Alley" at the Strand yet? If you haven't, don't miss one of the greatest opportunities. And surely don't miss the prologue number by Miss Eula Hezlett. She gives a wonderful demonstration of one of Miss Murray's dance numbers in the picture play. Gareth Hughes in "Garments of Truth" is wonderfully entertaining. The rest of great.

**OPERA HOUSE**

Tommy Levene and his company of comedians and pretty chorus girls, are scoring another big hit during the last three days of the week at the Opera House in their new show, "The Blue Bird Cabaret." It's a clean, clever combination of musical comedy specialties and real vaudeville. Next week, "The Blue Bird Cabaret" will present their big musical extravaganza that started over Broadway. Don't miss it. It has many surprises.

**MERRIMACK SQUARE THEATRE**

Only a few opportunities remain for admirers of Rudolph Valentino to see him in his latest photoplay, "The Wonderful Lover," now showing at the Merrimack Square theatre. The other big feature is Mary Miles Minter in "Fillies." Coming Monday—"Bought and Paid For."

**RIALTO THEATRE**

"The Truth About Husbands" and "A Stranger in Canyon Valley" were the two features which opened a three days' engagement at the Rialto theatre yesterday afternoon. Both were re-

## MUSICAL REVUE BY BROADWAY CLUB

The eighth annual musical revue to be given by the Broadway club in Association hall this evening promises to be among the best and most enjoyable social events of the present season. The final rehearsal was held at the club quarters on Sunday afternoon and the principals and chorus showed the result of painstaking and careful endeavor. The committee has secured Jerome Tighe, one of Brooklyn's leading dancing artists, for the principal feature. Dorla Conway, well known in Lowell, will also appear in song, promenade and character dances, and Michael Brennan will sing one of McCormack's favorite ballads. Messrs. Cummings and Kelly, in a duet, will engage special attention. Eddie Donahue, Dave Boyle and John Spillane are booked to carry the sentimental numbers.

For the endmen the Broadway club

## STARS FORM MOVIE RELEASING COMPANY

LOS ANGELES, April 21.—Negotiations for the formation of a new motion picture releasing company, which it is understood, will insure an open market to independent producers, have been closed here.

The organizers are Douglas Fairbanks, Mary Pickford, Charlie Chaplin, and D. W. Griffith, who founded the United Artists corporation, of which the new company will be subsidiary.

## "THE BLIND BOSS" DIES AT AGE OF 77

## SAGE TEA TURNS GRAY HAIR DARK

It's Grandmother's Recipe to Bring Back Color and Lustre to Hair

That beautiful, even shade of dark, glossy hair can only be had by using a mixture of Sage Tea and Sulphur. Your hair is your crown. It makes or mars the face. When it fades, turns gray or streaked, just an application of two of Sage and Sulphur enhances its appearance a hundredfold.

Don't bother to prepare the mixture; you can get this famous old recipe improved by the addition of other ingredients at a small cost, all ready for use. It is called Weyl's Sage and Sulphur Compound. This can always be depended upon to bring back the natural color and lustre of your hair.

Everybody uses Weyl's Sage and Sulphur Compound now because it darkens so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through the hair, taking one small strand at a time; by moving the gray hair back (disappeared), and after another application it becomes beautifully dark and appears glossy and lustrous. ## SEN. McCUMBER WARNS NATION

**Declares Protective Tariff  
Alone Will Not Bring a  
Revival of Business**

**Manufacturers Must Accept  
Meagre Profits and Labor  
Increase Efficiency**

WASHINGTON, April 21.—Launching the administration tariff bill yesterday in the senate, Chairman McCumber of the finance committee, warned manufacturer, factory laborer and retailer alike, that a protective tariff alone would not bring a revival of business; that there must be a reduction of costs to within the reach of the consumer's pocketbook before there could be a return to "old time prosperity."

Senator McCumber said the way to reduce the costs, was for the manufacturer and retailer to be satisfied with most "meagre" profits for a

**"NOW I  
AM WELL  
AND STRONG"**

If You Cannot Truthfully Say  
This of Yourself, Take  
Gude's Pepto-Mangan

If you are not as strong and healthy as you used to be what are you doing about it? Are you going to let yourself run down in health and be subject to headaches, indigestion, nervousness, and all that long train of ailments that cause so much pain and misery and unhappiness? Don't do it. Start now to take Gude's Pepto-Mangan with your meals and it will build you up to good health again. It contains a form of iron that gets into the blood easily and gives you strength and greater vitality and a good color, and you will sleep well, because your nerves won't bother you. Then you can say "I feel great" and mean every word of it. Gude's Pepto-Mangan has been used for thirty years—you can depend upon it to help you back to health. Sold in both liquid and tablet form in drug stores everywhere, but it will not do you any good if you let it stay on the drugstore's shelf.—Adv.

**Gouraud's  
Oriental Cream**

while and for the factory employee to increase their efficiency "to the highest possible degree." In view of the present high cost of living, he added, it would be "most unjust" for the manufacturer to begin his economy by cutting wages.

"This proposed legislation will open the way to prosperity in the United States, but it will not, unaided, bring about this result," declared Senator McCumber. "The American people must do the rest, and right here, I want to say a word to the American manufacturer and the American laborer in our factories. This bill is intended to, and I believe it will, sufficiently protect our market against excessive foreign invasion, but just remember that over 80 per cent. of all your products must be consumed right here at home."

"I think I am clearly within the actual facts, when I say that two-thirds of the American people, the bread winners in the United States, are not receiving an income any greater than their pre-war incomes. The net earnings of the agricultural class are, on the whole, below the pre-war income. When we deduct the rents or in lieu of rents, the added taxes and cost of upkeep of the homes of another one-third of our population who are also bread-winners—it will be found that their net income is below the pre-war income."

"When I say that these people cannot spend any more than they earn, I think I have sufficiently foreshadowed the necessity on the part of the manufacturers of bringing down the production cost of their commodities to within the purchasing reach of this vast army of American farmers and American wage earners—a reach that cannot extend one inch beyond the limit of their earnings."

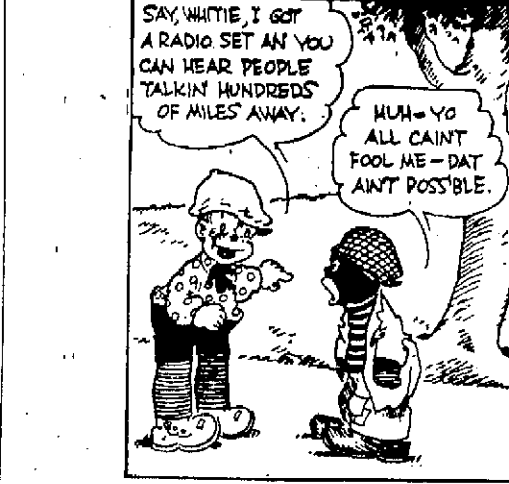

"We have tried to bridge this gap between the production cost of manufactured articles and the consumer's ability to buy them by doing what we can to increase the purchasing power of the latter and it is now up to the manufacturer to do his part to bring his cost down to meet the size of the consumer's pocketbook. With the present high cost of living, it would be most unjust to start his economy by forcing a reduction in the wages of his employees."

"Knowing that the principal cost of idle mills and idle men is this disparity between manufacturers' cost of production and consumers' ability to pay, I think I can suggest a course that will do more for our national prosperity than can be accomplished by any kind of law, tariff or otherwise. Let the manufacturer be satisfied with a most meagre return upon his investment for a while, then let the employee increase their efficiency to the highest possible degree. Then if the retailer will just follow the manufacturer, the great American public, now hungry for more and better things, will give employment to all to supply its demands and old-time prosperity will again reign throughout the land."

After Senator McCumber's address, there was a dispute between republicans and democrats as to procedure, with a result that the reading of the 440-page bill was offered. This continued the remainder of the day.

### FIRST REPRIEVE IN HISTORY OF MAINE

AUGUSTA, Me., April 21.—A reprieve for the first time in the history of the state was granted by the governor and council yesterday. Evidence was presented that Lillian Breen, an inmate of the Knox county jail at Rockland, was in such physical condition that medical treatment was necessary, so she was given a reprieve of 45 days with the understanding that she enter a hospital. At the end of 45 days she is to be returned to the jail. Miss Breen is serving a sentence in jail for the single sale of four ounces of Jamaica ginger.

### COUSENS HELD ON MURDER CHARGE

WESTBROOK, Me., April 21.—Samuel L. Cousens was held without bail yesterday for the May term of the superior court on the charge of murder in causing the death of his wife, who died Wednesday from the effects of two bullet wounds and a fractured skull, inflicted in their home here Monday.

Cousens was weak and pale from the loss of blood, caused by deep wounds in his wrists, self-inflicted after the shooting. He had been in a semi-conscious condition at a hospital since Monday, and was not told of his wife's death until yesterday morning. He claimed he knew nothing of the shooting and that he went to work as usual in the paper mills and received the injuries to his wrists by being caught in a machine. The police alleged he purchased the revolver in Portland within an hour or two of the shooting, and did not go to work that morning.

The last murder in this city was the killing of Mrs. Thomas Stacks on the same street about 25 years ago.

### COSTUME PARTY AND DANCE

A largely attended costume party and dance was conducted in A.O.H. hall last evening by William Sullivan. The decorations about the hall were pretty and the program was very enjoyable. Miss Lanning and Mr. J. Eastman, acting as judges, awarded first prizes for the best costumes to Miss Helen Conway and Mr. Decatur.

### TO ATTEND TRIENNIAL CONCLAVE

PANAMA, April 21.—The delegation of Knights Templar from Boston who have been visiting the Canal Zone sailed yesterday for New Orleans to attend the triennial convocation of the Grand Commandery.

Bradford, England, a city whose people depends on wool and its manufacture in some form or other for their livelihood is sometimes called "Woolopolis."

### NO OLD WOMEN NOWADAYS

Modern dress, hair dressers, facial experts and cosmeticians all combine to keep women of all ages young and attractive in appearance. Not until the telltale wrinkles become so deep, the figure sags, or some ailment or weakness develops to drag a woman down does she really look her age.

Every woman owes it to herself and her family to keep herself young in appearance and happy. When headaches, backache or "the blues" develop or when a woman reaches the trying age from forty-five to fifty, Lydia E. Pinkham's Vegetable Compound may be depended upon to keep her in health as it has so many other women whose letters we are continually publishing in this paper.—Adv.

## BRIEF BUT IMPORTANT WIRE DESPATCHES

NEW YORK, April 20.—New financial underwritings aggregating \$40,000,000 were publicly offered and immediately over-subscribed today. An international banking house sold an additional \$10,000,000 of Paris-Lyon-Mediterranean railroad 6 per cent bonds and a syndicate offering of \$30,000,000 Sinclair Crude Oil three year 5 1/2 per cent was disposed of on country-wide participations.

NEW YORK, April 20.—Supreme Court Justice Waserogel today dismissed indictments charging James H. Michael and John White and William B. Orr with grand larceny in connection with what the district attorney's office last December described as a gigantic directory fraud.

## URGES DRASTIC ACTION TO CURB FAST DRIVERS

BOSTON, April 20.—A small "fine" fails to deter motorists from speeding, Frank A. Goodrich, state registrar of motor vehicles, said in a letter sent today to the chiefs of police in Massachusetts. The April increase in accidents calls for immediate and drastic action, he told the chiefs, asking their opinion how best to combat the problem of speeding drivers as well as those who fail to slow down when approaching street intersections.

## OLDEST NATIVE OF FITCHBURG DEAD

FITCHBURG, April 20.—Henry A. Goodrich, 91 years old, the oldest native of Fitchburg and one of the most prominent men in the city, died today.

Mr. Goodrich was for many years the leading clothing merchant of the city. He was the law representative to the Massachusetts legislature from Fitchburg as a town in 1870 and 1871, was a trustee of the Wallace public library for 45 years, was a member of the school board for 22 years.

## BOSTON POLICE OFFICERS RE-EXAMINED

BOSTON, April 20.—Candidates for promotions in the Boston police department who took civil service examinations on March 25 and 28 were re-examined today. The commission withdrew the ratings of the first test after it was learned that copies of the question had been offered for sale within the department.

BIGAMIST SENTENCED  
SPRINGFIELD, April 20.—Walter L. Davis, an old saloonman of Valley Falls, R. I., with a family in that place and also a wife in this city, was sentenced to one year in the house of correction today on a charge of bigamy of which he was found guilty a week ago. It was brought out that Davis married Miss Grace M. Demerits of this city for seven years and during that time spent week-ends with his Valley Falls family. He married Miss Demerits last November.

SHOE CO. FAILS  
BOSTON, April 20.—The Baker Shoe Co., Inc., of Haverhill today filed a voluntary petition in bankruptcy in federal court. Liabilities were placed at \$23,500, with assets at \$3000. Secured claims were estimated at \$600.

PROBE OF MENTAL CONDITION  
BOSTON, April 20.—Investigation of the mental condition of persons indicted for a capital offense, or who have been convicted a second time for any offense, is provided under a bill reported by the legislature public health committee today. The hearing would be made by the department of mental disease.

## Seeks \$30,000,000 Damages From N.Y. City

NEW YORK, April 20.—Asking \$30,000,000 damages because of the city's failure to construct transit facilities called for under the dual subway contracts, Lindley M. Garrison, receiver for the New York Municipal Railway Corporation and the New York Consolidated Railroad Co., today filed a bill in equity against the city in federal court.

## For General Strike in Ireland

DUBLIN, April 20.—Before the peace conference held here today, the lord mayor consulted Tom Johnson, secretary of the Irish labor party, and Cathal O'Shannon another Irish labor leader. Afterwards it was announced that the labor party was issuing a manifesto calling a general strike throughout Ireland Monday "as a protest against militarism."

## \$5,000,000 Loan to Republic of Liberia

WASHINGTON, April 20.—By a vote of 13 to 9 the house ways and means committee favorably reported today the Fordney resolution authorizing a loan of \$5,000,000 to the republic of Liberia.

## Probe Alien Property Custodian's Office

WASHINGTON, April 20.—Investigation by a special senate committee of the alien property custodian's office administration and disposition of property, especially of the sale of the Bosch Magneto Co., was proposed in a resolution today by Senator King, democrat, Utah, which was referred to the judiciary committee. The resolution would extend the inquiry to any use of influence to prevent criminal proceedings in property disposal cases.

## Typhus Breaks Out Near Liverpool

LONDON, April 20.—(By the Associated Press)—Typhus has broken out in Birkenhead, near Liverpool, 13 cases being reported there and three deaths having occurred, according to information received at the American consulate today. If the disease shows indications of spreading, stringent inspection of British emigrants to America will be undertaken by the American health authorities in London. The American consul in Liverpool has been ordered thoroughly to investigate the epidemic.

## Debt Refunding Commission to Act

WASHINGTON, April 20.—Allied governments to which the United States extended loans during the World war have been advised by the state department that the American debt refunding commission is prepared to begin negotiations for conversion of the various loans amounting to eleven billion dollars, into long time securities. Treasury officials in making this known today said the date of the inauguration of the refunding negotiations could not be determined until replies had been received from the various allied governments. Negotiations with Great Britain over the conversion of its five billion dollar debt are expected, however, to be started within the next few weeks. Under the most favorable circumstances, it is not thought possible that sufficient payments of annual interests can be obtained from Great Britain or any other nation in time to provide for a soldiers' bonus.

## Chauffeur Husband Sues for Divorce

SAN FRANCISCO, April 20.—Floyd Glitz-Bach, Delmonte, Cal., chauffeur, filed suit today for a divorce from Margaret Matzenauer, opera singer, charging that she caused him "grievous mental suffering."

## COUNCIL HELD TAME MEETING

Battle of Ballots Presaged  
at City Hall Did Not  
Materialize

Motion to Take Nomination  
of George E. Putnam  
From Table Was Lost

Mayor Brown Withdraws the  
Nominations of Mac-  
Brayne, Mulry and Rigby

Contrary to all expectations and  
prognostications the city council last  
night pulled off a very tame, matter-  
of-fact session, confined principally to  
pole locations, wire attachments and  
other routine business of a minor nature.

One attempt was made to force home  
action on at least one of the many  
nominations of the mayor that were on  
the table. When Councilor McMenamin  
moved that the nomination of George E.  
Putnam for a place on the board of  
license commissioners be taken up,  
but the motion was lost on a yeas and  
nays vote without touching any of  
the other nominations of the council.

The council met again  
at 8:30 o'clock, to meet again  
next Tuesday evening at 8 o'clock.

A hearing was set for May 18 on the  
petition of the Eastern Massachusetts  
Street Railway Co. to lay new tracks  
in Brookings and French streets,  
to provide for the new street car loop.

An order was adopted for the widening  
of First street, including the taking  
of a number of parcels of land by  
right of eminent domain and defining  
the new line and grades. A commis-  
sion from the board of public  
safety included the awarding of the  
following land damages included in the  
proposed taking:

Marin J. Hart, three parcels of land  
of 244, 410 and 387 square feet respec-  
tively, \$276.00, \$247.50 and \$193.50; John  
Conway, \$258.50; J. Colby, \$258.50;  
Theodore Parker and Mary G. Morrill,  
\$52.75; James W. McKenna,  
\$86.50.

Communications were received from  
the mayor, withdrawing the nomination  
of W. C. MacBrayne for superintendent  
of police; William H. Rigby for a  
city engineer, and Edward P. Mulry for  
superintendent of charities.

Mr. Rigby's nomination was not  
necessary inasmuch as the mayor had  
the power to appoint him without con-  
firmation, while the other two expire  
under the 20-day rule.

An order introduced by Councilor  
Frederick A. Sadtler for the extension  
of the White Way lighting system in  
Graham street from Summer street to  
Thomas P. Mann square, was referred  
to the board of public safety.

A macadam road order in the sum  
of \$25,000, previously ordered adver-  
tised, was adopted.

Gasoline and garage licenses were  
favorably reported on by the chief of  
the fire department and granted as  
follows: Joseph Conners, A street;  
E. W. Douglas, 106 Sanders avenue;  
J. C. Ayer Co., 175 Middle street; Don  
Marche Co., Kirk avenue; L. D. Har-  
ter, 48 Perry street; E. T. Smith, Gor-  
ham street.

## LOWELLMAN MARRIED IN PROVIDENCE, R. I.

PROVIDENCE, R. I., April 21.—One  
of the first weddings of Easter week  
took place when Miss Frances S. Hop-  
kins of 161 Belmont avenue and Mr.  
Charles P. Condon of 223 Wabash street,  
formerly of Lowell, Mass., were united  
in marriage by the Rev. James H.  
O'Brien at the church of the Assump-  
tion, Foster avenue. The double ring  
service was performed. Seated in the  
sanctuary were the Rev. Fr. Daniel Re-  
gan of St. Joseph's church, Backus street,  
and the Rev. Fr. Gordon I. Lambert of  
Providence.

The bride, who was attended by  
her sister, Miss Marie H. Hopkins, wore  
a court train gown of white netting  
with a large shower bouquet of white  
roses and lilies of the valley. The  
bridesmaid wore a dainty dress of  
white and silver tulle with a white  
veil and silver netting. She carried  
a bouquet of white and silver flowers.  
The bridesmaid carried a bouquet of  
white and silver flowers.

The bridegroom was attended by his  
cousin, Mr. Henry P. Condon of New  
York, formerly of New Zealand. The  
bride's gift to the bride was a  
diamond ring set with a large  
diamond and a platinum ring set with  
a large diamond. The bride's gift to  
the bride was a diamond ring set with  
a large diamond and a platinum ring  
set with a large diamond.

After the ceremony a wedding break-  
fast was served at the Narragansett  
hotel, which the guests of honor  
were the Rev. Daniel Regan and the  
Rev. Fr. Gordon I. Lambert. In the  
evening a reception was held at the  
home of the bride, Bellevue avenue,  
at which Mr. and Mrs. Condon left for  
a trip by motor to Canada.

## HELD ANNUAL REUNION

Cole's Inn Scene of Pleasant  
Gathering by Members of  
Battery F

Memories of the dreary days and  
black nights they wheeled through the  
mud-covered ground and shell-torn  
area of France were brought back to  
130 members of Battery F, 102nd Field  
Artillery, 26th division, who last night  
gathered in Cole's inn for an annual  
reunion. The principal speakers were  
Col. John F. Herbert of Worcester,  
Capt. Chadwick of Battery B of Wor-  
cester and Regimental Chaplain M. P.  
Stackpole of Andover.

Last night's affair was admitted to  
be the best ever conducted by the bat-  
tery. Members were present from Low-  
ell and Andover, the latter town be-  
ing well represented. A telegram was  
dispatched to former battery com-  
mander, Capt. Cover, who is somewhere  
in the west. Cheers were given for the  
officers and for Harry C. Cole, former  
mess sergeant, who acted as host last  
night.

Roland S. Black, president of the  
Veterans' association, called the bat-  
tery to order after the banquet and  
turned over the gavel to First Sgt.  
Joseph Daly of Andover. His first in-  
troduction, Capt. Chadwick who read ex-  
tracts from a book published and dis-  
tributed by the town of Andover in  
which Battery F was given a great deal  
of credit for its part in the war.

Following his remarks there was a  
song by Richard Hadley.

Col. Herbert, the principal speaker  
was received with much applause  
for several minutes. He recalled the  
days when the boys went out to meet  
the enemy and recounted many in-  
cidents well remembered by those present.  
He closed with an earnest appeal  
for a thorough organization in the  
102nd Regimental Veterans' association.

After a general smoker and talk the  
party was adjourned.

## MILITARY FUNERAL FOR LOWELL HERO

Arrangements for a burial of the  
late Charles K. Burke, headquarters com-  
pany, 101st Infantry, whose body has  
just arrived from overseas, have been  
completed by the Lowell post of the  
American Legion. The funeral, which  
will be a strictly military affair, will  
take place from the home of the de-  
ceased's sister, West Fourth street  
Sunday afternoon at 2 o'clock.

The funeral will be held at the  
home of the deceased's sister, West  
Fourth street, Sunday afternoon at 2  
o'clock. The funeral will be held at the  
home of the deceased's sister, West  
Fourth street, Sunday afternoon at 2  
o'clock.

Private Charles K. Burke, whose body  
will be buried Sunday, was one of the  
youngest veterans to go from Low-  
ell. He enlisted in the army when  
scarcely 18 years of age and was as-  
signed to the headquarters company of  
the 101st Infantry of the 26th division.  
He was killed in action in France in June,  
1918.

The Legion has been requested by  
the family of the dead hero to take  
charge of the funeral and the drink-  
ing squad, colors, bugles and a large de-  
legation from the post will march. The  
casket will be borne on a caisson, fur-  
nished by Battery F, through the cor-  
tess of Capt. George Fawcett. The Pol-  
ish band will furnish music. All mem-  
bers of the American Legion are re-  
quested to meet at the corner of Bridge  
and West Fourth streets at McKenna's  
undertaking parlors, Sunday afternoon  
at 1:30. Any veterans in Lowell who  
were in the headquarters company of the  
101st Infantry of the 26th division, or  
who served in the dead soldier's outfit,  
are cordially invited to participate.

The American Legion requests the  
public of Lowell to follow a custom  
largely established throughout the  
country during the passing of the fu-  
neral of a returned soldier's body.  
That all homes and places of business  
display the national colors during the  
passing of the dead hero's body.

**FUNERAL NOTICES**  
DRONEY—Died in this city at the  
Lowell hospital, April 19, Michael  
Drooney, aged 45 years. Funeral  
will take place Saturday morning  
from his late home, 135 Lincoln  
street, at 9 o'clock. At the Sacred  
Heart church at 9 o'clock a funeral  
high mass will be celebrated. Burial  
will be in the family lot in St. Pat-  
rick's cemetery. Funeral arrangements  
in charge of Undertakers  
O'Donnell & Sons.

## THE OLD HOME TOWN

TOBY TODD, FOR YEARS HOLDER  
OF THE LONG BEARD RECORD OF THIS COUNTY  
WAS FLABBERGASTED TODAY WHEN A  
STRANGER APPEARED.

**DEATHS**  
FARRINGTON—Mrs. Mary Farrington,  
widow of Peter Farrington, died this  
morning at her home, 132 Perry  
street, surrounded by her many friends.  
She had been a member of the Immaculate Con-  
ception church and always interested  
in its affairs as a member of the Holy  
Rosary sodality. She is survived by  
six daughters, Misses Mary and Clara  
Farrington, Mrs. Helen Donnelly, Mrs.  
John J. Gookin, Mrs. James Patrick of  
Danvers, N.H., and Mrs. Fred Grant of  
West Somerville, Mass.; two sons, Ter-  
ry P. and John C. Farrington; twelve  
grandchildren, one of whom is the  
Rev. Leo P. Patrick, pastor of St.  
Margaret Mary's church in Omaha; and  
one great granddaughter. Mrs. Far-  
rington was a beautiful character, a  
fine example of Christian mother, in-  
tensely devoted to her children and  
home and to those sublime things in  
life which brought comfort and solace  
to the less fortunate about her.

**FUNERALS**  
SUTHERLAND—The funeral ser-  
vice of Hector Magnus Sutherland, Jr.,  
took place at the home of his father,  
H. Magnus Sutherland, 21 B street,  
yesterday afternoon. Rev. Joseph E.  
Kennedy, pastor of the First Presby-  
terian church, officiated. There were  
numerous floral offerings. Burial was  
in the family lot in Westlawn cem-  
tery, where the committal service was  
read by Rev. Mr. Kennedy. The ar-  
rangements were in charge of Under-  
taker W. Herbert Blake.

**GREEN**—The funeral of Peter Green  
took place yesterday afternoon from  
his home, 22 Campos avenue, and was  
largely attended. The services were  
conducted by Rev. J. K. Jones of Lan-  
caster, formerly of this city, assisted  
by Rev. Henry K. Vye, pastor of the  
Calvary Baptist church. There was  
appropriate singing by Mrs. Arthur  
Lavoigne. There were many floral  
offerings. Burial took place in the fam-  
ily lot in the Edison cemetery, where  
the committal service was read by  
Rev. Mr. Vye. The funeral arrange-  
ments were in charge of Undertaker  
William H. Saunders.

**DION**—The funeral of Mrs. Jean  
Dion took place this morning from  
the home of her son, Adolphe,  
35 Lafayette street. Solemn high  
mass of requiem was celebrated  
at St. Jean Baptiste church at 9 o'clock,  
assisted by Rev. E. Turcotte, O.M.I.,  
assisted by Rev. Guillaume Ouellette.

**COULOMB**—Mrs. Charles Coul-  
ombe, nee Sophie Laroque, aged 58  
years and 20 days and a resident of  
this city for the past 54 years, died  
this morning at her home, 72 Farm-  
land road. She leaves her husband  
and five daughters, Misses Mary, Je-  
samine, Jeanne and Marie, all of  
this city, and Mrs. George Paquette  
of Danvers; three sons, Rudolph, Ar-  
thur and George, all of this city.

**HEIKKE**—Mr. William N. Heikke, a  
well known resident of this city, where  
he had resided for the past 35 years,  
being employed all of that time at the  
Lowell Corporation hospital, died  
yesterday morning at his home, 135  
Lincoln street, at 9 o'clock. At the  
Sacred Heart church at 9 o'clock a  
funeral high mass will be celebrated.  
Burial will be in the family lot in St.  
Patrick's cemetery. Funeral arrange-  
ments in charge of Undertakers  
O'Donnell & Sons.

**HEIKKE**—Died in this city, April 20,  
at the Lowell Corporation hospital,  
William N. Heikke, aged 51 years 1  
month and 18 days. Funeral serv-  
ices will be held at his home,  
Merrill avenue, on Sunday afternoon  
at 2:30 o'clock. Burial is respect-  
fully invited. Kindly omit flowers.  
Burial will take place at Upper  
Burleigh street. The funeral ar-  
rangements are in charge of Under-  
taker William H. Saunders.

**FARRINGTON**—Died in this city, April  
21, Mrs. Mary Farrington, widow of  
Andrew Farrington. Funeral Mon-  
day morning from her home, 132 Perry  
street, at 9 o'clock. At 9 o'clock a  
solemn high mass of requiem will be  
celebrated at the Immaculate Con-  
ception church. Burial will be in the  
family lot in St. Patrick's cemetery.  
The funeral will be under the direc-  
tion of Undertakers James P. O'Donnell  
& Sons.

**FARRINGTON**—Died in this city, April  
21, Mrs. Mary Farrington, widow of  
Andrew Farrington. Funeral Mon-  
day morning from her home, 132 Perry  
street, at 9 o'clock. At 9 o'clock a  
solemn high mass of requiem will be  
celebrated at the Immaculate Con-  
ception church. Burial will be in the  
family lot in St. Patrick's cemetery.  
The funeral will be under the direc-  
tion of Undertakers James P. O'Donnell  
& Sons.

**FARRINGTON**—Died in this city, April  
21, Mrs. Mary Farrington, widow of  
Andrew Farrington. Funeral Mon-  
day morning from her home, 132 Perry  
street, at 9 o'clock. At 9 o'clock a  
solemn high mass of requiem will be  
celebrated at the Immaculate Con-  
ception church. Burial will be in the  
family lot in St. Patrick's cemetery.  
The funeral will be under the direc-  
tion of Undertakers James P. O'Donnell  
& Sons.

**FARRINGTON**—Died in this city, April  
21, Mrs. Mary Farrington, widow of  
Andrew Farrington. Funeral Mon-  
day morning from her home, 132 Perry  
street, at 9 o'clock. At 9 o'clock a  
solemn high mass of requiem will be  
celebrated at the Immaculate Con-  
ception church. Burial will be in the  
family lot in St. Patrick's cemetery.  
The funeral will be under the direc-  
tion of Undertakers James P. O'Donnell  
& Sons.

**FARRINGTON**—Died in this city, April  
21, Mrs. Mary Farrington, widow of  
Andrew Farrington. Funeral Mon-  
day morning from her home, 132 Perry  
street, at 9 o'clock. At 9 o'clock a  
solemn high mass of requiem will be  
celebrated at the Immaculate Con-  
ception church. Burial will be in the  
family lot in St. Patrick's cemetery.  
The funeral will be under the direc-  
tion of Undertakers James P. O'Donnell  
& Sons.

**FARRINGTON**—Died in this city, April  
21, Mrs. Mary Farrington, widow of  
Andrew Farrington. Funeral Mon-  
day morning from her home, 132 Perry  
street, at 9 o'clock. At 9 o'clock a  
solemn high mass of requiem will be  
celebrated at the Immaculate Con-  
ception church. Burial will be in the  
family lot in St. Patrick's cemetery.  
The funeral will be under the direc-  
tion of Undertakers James P. O'Donnell  
& Sons.

**FARRINGTON**—Died in this city, April  
21, Mrs. Mary Farrington, widow of  
Andrew Farrington. Funeral Mon-  
day morning from her home, 132 Perry  
street, at 9 o'clock. At 9 o'clock a  
solemn high mass of requiem will be  
celebrated at the Immaculate Con-  
ception church. Burial will be in the  
family lot in St. Patrick's cemetery.  
The funeral will be under the direc-  
tion of Undertakers James P. O'Donnell  
& Sons.

**FARRINGTON**—Died in this city, April  
21, Mrs. Mary Farrington, widow of  
Andrew Farrington. Funeral Mon-  
day morning from her home, 132 Perry  
street, at 9 o'clock. At 9 o'clock a  
solemn high mass of requiem will be  
celebrated at the Immaculate Con-  
ception church. Burial will be in the  
family lot in St. Patrick's cemetery.  
The funeral will be under the direc-  
tion of Undertakers James P. O'Donnell  
& Sons.

## THE AMERICAN LEGION WILL INSTALL LOOP SYSTEM

Lowell Post's Program for  
Memorial Sunday and  
Decoration Day

New Street Car Routing Will  
Relieve Congestion in  
Merrimack Square

Tracks to Be Laid in French  
and Brookings Streets as  
Soon as Possible

Board of Public Service  
to Accept Streets to Be  
Used

As was expected the Eastern Massa-  
chusetts Street Railway Co. has taken  
favorable action on the suggestion for  
a new loop system of car routing in  
French and Brookings streets and on  
vote of the board of public trustees the  
work of laying new tracks and install-  
ing switches will be pushed without delay.

Formal notification of the company's  
decision was given yesterday afternoon  
to the board of public service in the  
form of a letter from Homer G. Loring,  
chairman of the board of trustees.

Installation of the loop means that  
the city must first accept French and  
Brookings streets as public thorough-  
fares and the public service board took  
the first step in this direction by vot-  
ing to have acceptance orders drawn.

The new loop will care for all Lake-  
view and Lawrence line cars and any  
others coming from Centralville that  
do not have through routes and will  
have the effect of reducing present  
congestion in Merrimack square.

The board voted to submit a new  
scale of wages to city payers and ram-  
mers whereby pay will be governed by  
the present system of 48 hours' pay for  
44 hours of labor. The present agree-  
ment with the payers and rammers  
which calls for \$6.25 per day for six  
days a week, expires on May 1.

A conference with union representatives  
will be held next Thursday at 3:30  
p. m.

The board ratified the action of Su-  
perintendent Harry Doherty in dis-  
charging Michael J. Ready, an engineer  
at the city ledge, for alleged insubor-  
dination, and he will be so notified.

The work of grading the Auditorium  
grounds was discussed at some length  
by Mayor Brown, who stated that  
whatever is done will be under the di-  
rection of Architect C. M. Blackhall.

He stated that the Auditorium com-  
mission favors giving William Dracut  
the contract for the erection of a re-  
taining wall along the Concord river.

It was voted that all chauffeurs on  
street department sweeps, trucks and  
other motor vehicles be paid only for  
actual work, thus cutting out any pay  
while machines are being repaired.

The board approved the pension ap-  
plication of Arthur McQuade, a Civil  
war veteran and an old employee of the  
water department and instructed the  
city solicitor to draw up a retirement  
order.

A communication was received from  
Councilor Arthur B. Chadwick of Ward  
8, petitioning that certain streets in the  
Ayer City section be rolled and oiled.  
The petition of Dr. G. Forrest Martin  
that the name of Princeton street be  
changed to Princeton boulevard, was  
referred to the city law department.

**JUVENILE COURT**  
In juvenile court this morning, with  
Judge Enright presiding a young girl  
was committed to the industrial school  
at Lancaster, on charge of leading an  
idle and vicious life. A boy of 12 years,  
brought into court as a delinquent  
child, was sent to the Middlesex County  
Truant school.

Although the Jirrickshaw is part  
of our mental picture of Japan a Phil-  
adelphia clergyman invented this hor-  
seshoe carriage less than a hun-  
dred years ago while paying a visit to  
the orient.

# Urges Seizure of Mexican Ports

## GERMANS AND RUSSIANS REPLY

### EARLY MORNING CAPTURE OF BURGLAR IN DONOVAN BUILDING

Man Believed by the Police to Be a Professional Had Ransacked Four Buildings---He gives the Name of William J. Sternberg and Says He Belongs in Worcester---Capture Due to Good Work on the Part of Patrolman Spillane

After ransacking offices in the Old City Hall building, the Railroad National bank building and the building next door, and the Manser block, William J. Sternberg, recently of 173 Vernon street, Worcester, proceeded to the Donovan building at the junction of Central and Gorham streets, where, through a neat bit of work on the part of Police Officer Paul Spillane, he was captured in the act of burglarizing an office and brought to the station shortly before 2 o'clock this morning.

### Urges Blockade of Mexico Until U. S. Claims Have Been Compensated

WASHINGTON, April 21.—Blockade of Mexico and seizure of Mexican ports until American claims for damages to life and property in Mexico have been compensated, was advocated in the senate today by Senator King, democrat, Utah, in a lengthy address on the Mexican situation. Neither the Obregon nor any other Mexican government should be recognized, Senator King declared until guarantees are given for payment of damages "for nearly 1000 American men, women and children butchered and murdered" and for property losses which he estimated at nearly \$500,000,000. Senator King said he was inspired to make his address because of the murder and eviction from Mexico of Mormon settlers, who, he said, had failed to get protection from their own government.

### 50 Injured, Some Fatally by Explosion

LOS ANGELES, April 21.—Probably 50 persons were injured, a number of them fatally, when an oil station caught fire at Downey, today, and the fire reached underground storage tanks, causing them to explode. Downey is a small town about 15 miles southeast of Los Angeles, and its fire and police facilities were so small that it was necessary to call on the sheriff here to take charge of the policing. Ambulances were sent from the city immediately.

### Steamer Sunk—Engineer Drowned

NEWPORT NEWS, Va., April 21.—The Buxton line steamer Brewster and one of the craft of the Richmond-New York Steamship Line, collided last night in James river, the Brewster going down in 40 feet of water with a loss of one life, according to officials of the owning company. The chief engineer of the Brewster went down with the ship, being unable to escape.

BIG INCREASE NOTED

Assessors This Year List 5000 More Males and Females Than in 1921

Five thousand more Lowell males and females over 20 years of age were listed by the assistant assessors this year than last year according to figures now complete in the office of the board of assessors.

A total of 61,602 men and women were listed this year, against approximately 56,000 last year.

The list shows that precinct 1 of ward 5, which is the territory bounded by Fletcher street, Cabot street, Pawtucket st and the Merrimack river, is the most thickly populated section of the city, with 4784 men and women of adult age being listed. Precinct 4 of

### BIDS FOR FIRST STREET BOULEVARD WORK

City Engineer Stephen Kearney today received an agreement from the state department of public works to be signed by the mayor as the city's executive head and upon the return receipt of which the state will proceed immediately to call for bids on the construction of the new First street boulevard.

There is now a good piece of road at the far end of First street, beginning at the city line. Cinders there have been rolled and the surface has been covered with a tar blanket.

It is expected that the new cold patch mixer will be delivered to the city tomorrow and in anticipation of this, cold patch gangs today were hauling material to points of advantage near stretches of roadway that will be systematically and thoroughly patched.

The mayor has not said that he will authorize the purchase of the new truck and, in fact, said today that it seems quite a lot of money to spend, but he has it under consideration and the chances are that he will eventually sanction it.

She truck at Lawrence street formerly was at the Westford street house, now abandoned and date back to 1872. Its ladders and other equipment are in dangerous condition and it is felt that it is of practically no use to the department and absolutely unsafe for work.

### STRIKERS FACE RENT INCREASES

Rent Boosted by Owner of Tenement House Occupied by Strikers

Rent Must Be Paid Weekly—Textile Council Officials up in Arms

The topic of discussion at this morning's meeting of the local textile strike committee was the increase in rents in various parts of the city, which in most cases are affecting operatives of the Hamilton Mfg. Co. and the Bay State Cotton Corp., who have been out on strike for several weeks.

This morning's meeting of the committee was one of the most important in a long time and it was reported that the attendance was the largest in several weeks.

Numerous matters of importance were discussed, plans for the "flower" day to be held tomorrow for the benefit of the striking operatives were perfected and the remainder of the forenoon was taken up with a general discussion of reports of increases in rent, which have been coming in for the past few days.

In the course of the meeting it was brought out that the owner of a three-tenement house occupied by striking operatives served notices on his ten-

### WANTS MOTORIZED HOOK AND LADDER TRUCK

Fire Chief Edward P. Saunders has recommended to Mayor Proctor that the city at once purchase a motorized hook and ladder truck at a cost of \$8500, to replace the antiquated piece of apparatus now being used at the Lawrence street house.

The mayor has not said that he will authorize the purchase of the new truck and, in fact, said today that it seems quite a lot of money to spend, but he has it under consideration and the chances are that he will eventually sanction it.

She truck at Lawrence street formerly was at the Westford street house, now abandoned and date back to 1872. Its ladders and other equipment are in dangerous condition and it is felt that it is of practically no use to the department and absolutely unsafe for work.

### GERMANS ACCEPT ALLIED PROPOSAL

To Take No Further Part in Negotiations Between Allies and Russians

Reply Does Not Modify Effectiveness of the Russo-German Treaty

Russian Reply Accepts Proposal for Payment of Debts Due to Foreigners

GENOA, April 21.—(By the Associated Press)—Both the Germans and the Russians today submitted their replies to the allies' demands. The German reply accepts the allied proposal that the Germans take no further part in the negotiations between the allies and the Russians, but the reply does not modify the effectiveness of the Russo-German treaty.

The Russian reply accepts the allied proposal for the payment of Russia's debts due to foreigners, and the restoration of foreign property nationalized by Russia, in case the soviet regime is granted recognition by the allied governments as a de jure state, and is given adequate financial assistance.

The effect of the two replies is to continue the German and Russian participation in the work here and thus to bridge over the crisis which recently threatened to disrupt the conference.

### GERMAN REPLY TO ULTIMATUM

GENOA, April 21.—(By the Associated Press)—The German reply to the allied ultimatum accepts the condition that the German delegates be barred from participation in the further discussions of the Russian question by the Genoa conference. The Russo-German treaty signed at Rapallo is allowed to stand.

Arrangements were made to present the note at noon today to Premier Poincaré of Italy as president of the conference and also as the first signer of the protest received by the Germans.

The German note is longer than that

### STABBED DURING FIGHT

North Adams Man Dying in Hospital—Two Arrested and Held Without Bail

NORTH ADAMS, April 21.—James Pierre, 36, is dying at the hospital here from stab wounds received in a fight while at work in the Arnold Print Works here early this morning. After he made an ante-mortem statement, Caroline Gilson, 44, and his son-in-law, Pasquale Accetta, 26, who were working in the same firm, were arrested. In the district court they pleaded not guilty in assault with intent to kill, and were held without bail for a hearing April 23.

### CHANDLER ESTATE IN TEWKSBURY DESTROYED BY FIRE

One of Town's Oldest Landmarks Is Wiped Out---Fire Believed to Have Started From Fireplace in Kitchen---Tewksbury, Billerica and State Hospital Departments Summoned---Loss Is Estimated at \$10,000

Fire, fanned by a high wind, completely destroyed the Chandler estate on James street, Tewksbury, this morning, causing damage that will approximate \$10,000. The estate, at the present time occupied by Steve Urban and family, was one of the oldest landmarks in Tewksbury Centre. Details of the origin of the fire, which broke out shortly after 9 o'clock, are meager, but best information obtainable says that it started from a fireplace in the kitchen. No lives were lost.

In less than 10 minutes after the fire was discovered the house and barn adjoining were burning furiously. The Tewksbury apparatus, with Chief A. P. Haines at its head, made a quick response but the chief realized the fire

### Gen. Tso-Lin Takes Possession of Peking

PEKING, April 21.—(By the Associated Press)—The troops of Gen. Chung Tso-Lin, governor of Manchuria, today took possession of Peking and Tien Tsin, replacing the local police forces of those cities. The transfer of authority was devoid of incident.

### Seeks Details of Leasing of Oil Reserves

WASHINGTON, April 21.—Complete information regarding the leasing of rights of naval oil reserves was sought in a resolution introduced today by Senator La Follette, republican, Wisconsin, who at the same time made public a letter from Josephus Daniels, formerly secretary of the navy, opposing the leasing of the government domain.

Continued to Page 20

### Gov. Cox Has Plan to End Strike

LAWRENCE, April 21.—Ex-Mayor William P. White announced today that he conferred yesterday with Gov. Cox in the state house regarding a possible way of settling the local textile strike. He said the governor had been considering the same plan and that unless the strike ends very soon it may be put into effect. He declined to say what the plan was.

### U.S. AMBASSADOR COLDEST APR. 20 MAY BE PRESENT IN 25 YEARS

PARIS, April 21.—(By the Associated Press)—An English spokesman for the British delegation to the economic conference said today there was no objection to Richard Washburn Child, American ambassador to Italy, being present at sessions of the commission on Russian affairs in order to obtain information for the United States government.

Demanding Cancellation

PARIS, April 21.—(By the Associated Press)—The exclusion of the Germans from discussion of Russian affairs at the Genoa conference is not considered

Coldest in 14 Years

BOSTON, April 21.—This was the coldest April 21 in 14 years. The thermometer registered its minimum 30 degrees, at 5 a. m. At noon it had risen to 44.

by the French government as closing the incident involved in the signing of the treaty of Rapallo between Germany and soviet Russia.

It was pointed out in government circles today that the hearing of the Russo-German treaty on the treaty of Versailles could not be considered at Genoa because of the conditions governing the conference laid down at Cannes, which barred discussion of the peace treaties signed by France. Consequently, it is argued, it remains for the allies to deal with the infringement of the Versailles pact alleged to be involved in the Rapallo agreement. The cabinet met again today to consider the situation.

## HARDING MAY ATTEND

President Hopes to Be Able to Go to Editorial Association Convention

ST. PAUL, Minn., April 21.—President Harding has indicated that if congress adjourns by July 1 he will participate in the 27th annual convention of the National Editorial Association at Minneapolis, Mont.

Definite dates for the convention have been fixed as July 19 to 22, according to H. C. Hotelling, secretary of the association.

In shaping all my plans toward attending the convention," the president is quoted by Mr. Hotelling as saying, "and the only possible contingency that could prevent my going would be congress continuing in session until the middle of July. I expect congress will adjourn about July 1, however."

Special trains will leave Chicago the evening of Sunday, July 9, taking the party westward and participating in the semi-centennial of the opening of Yellowstone National park, according to Mr. Hotelling. Later Glacier National park will be traversed.

Secretary of the Interior Fall probably will be a member of the party. The itinerary of the special trains contemplate stops at Medora, N. D., where a tribute will be paid to the late Col. Theodore Roosevelt in the erection of a monument with suitable ceremonies. Numerous other stops stops will be at Montana towns as well as St. Paul and Minneapolis.

A daily newspaper will be published on the convention train while a complete printing office, including type-casting machine (linotype) and a press will be installed in the baggage car and a copy of this publication will be mailed each day to every daily paper in the United States. The convention will receive a special message from R. E. Brodley, president of the association, who now is United States minister to Spain.

## TARGET PRACTICE

## CAUSES ALARM

LOS ANGELES, Cal., April 21.—Weather conditions are responsible for target practice of the Pacific coast of the Southern California coast being occasionally mistaken for earthquake shocks, according to a report made to the chamber of commerce of this city by Dr. Ford A. Carpenter, head of the meteorological bureau of the chamber.

Dr. Carpenter cited cases of Jan. 17 and March 23 last when vibrations caused by big gun fire rattled houses many miles inland and resulted in reports of "earthquakes" from widely-scattered localities.

"It is a well known fact," the report continued, "that sound coming from some point may be heard more distinctly at certain times than at others. The distance at which the sound may be heard is also variable. The wind direction plays a most important part in this. If the sound-emitting body is in the direction from which the wind is coming, the sound may be heard more distinctly. It can be seen readily that sound waves traveling in the opposite direction from which the wind is blowing or against the wind, will be broken up and deflected."

"The weather conditions during the evenings of January 17 and March 23 were practically the same. At both times an area of low pressure was central over Nevada and Utah, with no area of high pressure off the California coast. Under these conditions Southern California would experience southerly winds shifting to westerly by way of southwesterly."

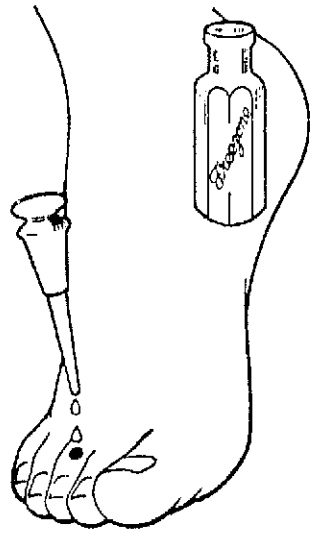

"The firing took place near Catalina Island, which would give the ships a position practically due south of Los Angeles. The great atmospheric waves traveling with the wind would be carried great distances. Had there been a northerly wind the shock would probably have been unnoticed."

"With gun firing at sea, the waves are in the air, but with an earthquake the waves are sent out from some disturbance under the surface of the earth and a vibration of the ground results. The gun firing shocks rattle windows and doors but there is no vibration. The effect is more like a high wind."

"An the navy seems to have chosen California waters for battle practice and target firing of the ships, we are likely to have recurrences of these shocks from time to time."

## CORN

Lift Off with Fingers

"Doesn't hurt a bit! Drop a little 'Freezone' on an aching corn, instantly that corn stops hurting, then shortly you lift it right off with fingers. Truly, your druggist sells a tiny circle of 'Freezone' for a few cents, sufficient to remove every hard corn, soft corn, or corn between the toes, and the calluses, without soreness or irritation.—Adv.

## TO URGE UTILIZATION OF NITRATE PLANTS

BALTIMORE, Md., April 21.—That the government be urged to complete and utilize plants in process of construction for the production of nitrates and other necessary chemical elements needed in agriculture, will be recommended at the convention here of the National League of Women Voters April 24-29. The convention will be held during the sessions of the Pan-American conference of women which opens April 20. The proposal is part of a program to be recommended by the committee on food supply and demand, of which Mrs. Edward P. Costigan of Washington is chairman. Lady Narley Astor, M.P., will address a mass meeting to be held by the convention, April 26.

The food committee will also recommend the support of federal legislation which removing all legal restrictions which hamper co-operative associations conducted on the Rochdale plan. It will advise continued investigation of the operation of the judicial decree of 1920 issued under the agreement between the United States attorney general and the packers, and of the effectiveness of the act of congress of 1921 regulating packers.

The committee attributes the high cost of living in large measure to unorganized and wasteful methods in the distribution and use of food. It demands specifically "manipulation of markets" by large food organizations and combinations, and the practices of "open price associations" which distribute to members information in regard to costs, prices, production and available supply, and demand.

The program to be proposed by the committee on women in industry, of which Miss Mary McDowell, Chicago social worker, is chairman, will include: state legislation limiting working hours of wage-earning women in industry to a maximum of eight hours in any one day and 40 hours in any one week, with one day's rest in seven; establishment by law of a committee with power to fix and enforce minimum wages; re-classification of federal civil service without discrimination on the ground of sex.

Mothers' pensions will be recommended by the committee on uniform laws concerning women, of which Mrs. Catherine Waugh McCullough of Chicago is chairman. The committee will also counsel support of federal legislation for independent citizenship of married women, and state legislation for equal guardianship of children by both parents, for abolition of common law marriages and for other reforms in marriage and divorce laws.

The program of the committee on social hygiene will be sub-divided as educational, recreational, law enforcement, legislative, remedial and medical. Mrs. Ann Webster of Washington is chairman.

An emerald of average quality is much more valuable than a diamond of the same quality.

## TWO RING ENGAGEMENTS

Kid Buck Married—Then Entered Boxing Arena and Beat Frankie Mason

BATTLE CREEK, Mich., April 21.—Kid Buck passed successfully through two ring engagements here last night. As John McCrumb he was married at 7:30 o'clock to Miss Sella Olson. As Kid Buck, an hour and a half later, he went into the boxing arena and de-finitely defeated Frankie Mason of Port Wayne, Ind., former flyweight champion of America.

## FAMINE RETREATING IN VOLGA VALLEY

SAMARA, Russia, April 15. (By the Associated Press).—Famine is begin-ning to retreat in the Volga valley be-fore the slow but steady arrival of American corn for adult feeding. It is due to vanish almost entirely when the spring sunshine uncovers the black earth of this fertile region and brings out the early grasses and vegetables, which, added to the relations sup-ply by the United States, other foreign countries and the Russian government, will sustain most of the population un-till the rice and wheat harvest of late August and early September. The retreat is slow, however, and the death rate from hunger is still mount-ing in the villages, far from centers of rail communication, which have not yet been reached and may never be reached by American and other foreign aid.

## ANNUAL CONGRESS OF D. A. R. OPENS

WASHINGTON, April 21.—A recep-tion at the White House and election of officers held the chief interest today of delegates attending the annual con-gress of the Daughters of the Ameri-can Revolution. The White House recep-tion was scheduled for 2:30 o'clock this afternoon. This will be followed by the ballot-ing on candidates nominated last night for seven vice presidents and the re-sults of the elections are expected to be announced at tonight's session. The candidates for vice president in-clude Mrs. John L. Buel, Connecticut, and Miss Annie Wallace of New Hamp-shire.

## B. & A. REVENUES SHOW DECREASE

BANGOR, Me., April 21.—With the exception of the earnings received from the transportation of freight, revenues of the Bangor & Aroostook railroad showed decreases from those of 1920, ac-cording to the annual report of the di-rectors, just issued to the stockholders of the corporation. The freight re-venues showed an increase of 16.9 per cent. Operating expenses experienced a decrease of 3.6 per cent. From those of the previous year. Lumber ship-ments fell off considerably, while those of potatoes showed a substantial in-crease.

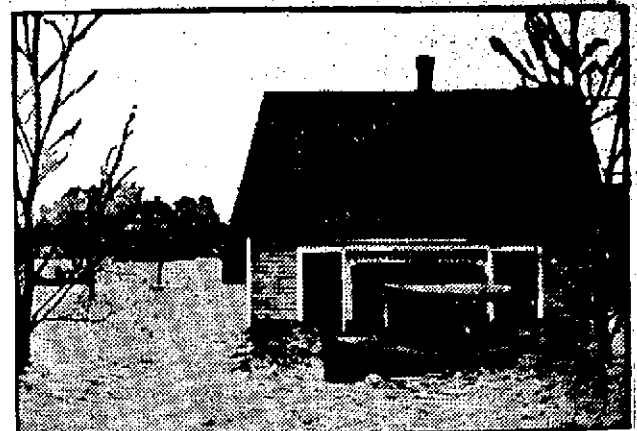

## ALLIES URGE DECISION BY U. S. ON DYES

PARIS, April 21 (by the Associated Press).—The allied reparations com-mission has again cabled an urgent request to the state department in Washington asking it to decide defi-nitely whether the American govern-ment desired to renew its official sup-port of the textile alliance, through which the textile industry is getting all its German dyes, or to make some new arrangement. The dispute grew out of the protest made by the minority American dye makers following the conclusion of a two-year agreement between the al-liance and the reparations commis-sion the first of this year. The failure of the state department to make a de-cision resulted two months ago in the refusal of the German dye manufac-turers to deliver any more dyes to the alliance, seriously handicapping the American textile industry, accord-ing to dye experts. Within the last 10 days Germany has resumed partial deliveries of dyes to the alliance, but officials of the re-parations commission say the dispute has seriously disturbed the whole

machinery of the commission through which the allies obtain 25 per cent of all the dyes in Germany. Germany is still withholding some of the important dyes which the al-liance had ordered, and many orders have been held up six months. It is de-clared, with no prospects of their be-ing filled. Officials of the alliance in Paris say the opposition comes from American agents of the German dye interests who want to eliminate the alliance and sell direct to America as before the war. Germany now gets none of the money paid to the commission for dyes, receiving credit on her repara-tions account instead.

## MORE POLICEWOMEN AT BEACHES URGED

FITCHBURG, April 21.—Encouraged by the success of police women on duty in the metropolitan park district of Boston, the presidents of Massachu-setts women's clubs, meeting here yes-terday, voted to petition the park com-mission to appoint additional police-women at Revere, Nantasket and other beaches. Three hundred delegates at-tended the conference. The women passed a resolution favor-ing the proposed federal appropriation of \$50,000 for hostess houses at mili-tary cantonments.

TO CHURCH IN BOOTS ON EASTER

Beardstown (Ill.) women put away their Easter finery and went to church Easter Sunday in khaki suits, knickers and hip boots after the Illinois river had risen and inundated the whole town. All business since has been suspended due to the river's continuing rise. Photo shows street in residence district.

## Another Serious Case of Nervous Breakdown Benefited by Wincarnis

Mrs. W. I. Fennell of Cato, N.Y. writes: "Some time ago I had a very serious nervous break-down caused, it was said, by over-work. I was in such a debilitated condition that an infection of my blood followed an attack of ulcerative sore throat, and I began to lose weight and strength at an alarming rate. As my condition grew worse, I suffered more and more from wakefulness, and in time it became impossible for me to get a full night's sleep. When my nervousness and weakness became almost un-bearable I began taking Wincarnis, and the improvement was very noticeable before I had finished the first bottle. I am now myself again, and both my father and my son are taking Wincarnis because they have seen how wonderfully it acted in my case. Wincarnis is certainly a remarkable tonic for those suffering from nervous exhaustion, thin blood, sleeplessness or great debility."

Wincarnis is sold in Lowell by Burkinshaw Drug Co., 416-418 Middlesex St., and all First Class Druggists

## WHAT'S THE USE OF WORRYIN'?

A picnic? No, siree! Some of the 2000 negroes made homeless in the fire at Berkley, suburb of Norfolk, Va. They have just received food handed out in one of the 12 breadlines established by the city.

**SURPRISE PARTY**  
A very pleasant evening was spent Tuesday at the home of Mr. and Mrs. Matthew McNamara, of 33 Newhall street when Catherine McNamara surprised her sister, Jennie McNamara, with a wrist watch in honor of her 18th birthday. Games were played and the entertainment included piano selections and singing. Luncheon was served by Mrs. Matthew McNamara and daughter, Catherine, and Loretta Bernardini. Jennie received many valuable gifts. The party broke up at a late hour wishing her many happy returns of the day.

Many temples in China are provided with a bell at the entrance, and when a worshiper enters he gives the rope a pull to ring the bell in order that the gods may be notified of his coming and be at hand to attend to his prayers.

## World's Greatest Woman Preacher

MISS MAUD ROYDEN

By ALEXANDER HERMAN  
NEW YORK, April 20.—If Maud Royden had elected the stage or screen or politics for her career, instead of the pulpit, she would have attained equal pre-eminence.

For Miss Royden has a dynamic, dominant personality that commands recognition. Yet she is pleasing, attractive, congenial, of medium height and slender, with dark hair and dark eyes. She has come to America to attend a Y.W.C.A. convention.

She is one of the most eloquent speakers in Great Britain, wields a ready pen and is fearless in the causes and reforms she advocates.

Her 46 years have been packed with activities. She is the youngest daughter of the late Sir Thomas Royden, a great ship owner of Birkenhead. She was graduated with honors from Cheltenham Ladies' college and from Lady Margaret hall, Oxford university.

For three years after that she worked in a settlement in Liverpool, lectured on English literature at Oxford and then threw herself into the suffrage cause.

"I spread my wings, so to speak, when the University of Oxford asked me to speak on 'Purity,'" she says. "That was my first stepping out of

the smaller circle in which my suffrage activities had confined me.

"Canon Scott Holland was in the chair and my audience consisted of 1200 male undergraduates. It was the first time in 30 years that the university had been addressed by a woman."

Another chance invitation changed the entire course of her life. "It was like a bolt from the blue," said she, "this invitation to preach Rev. R. J. Campbell, the famous preacher of the equally famous City Temple, had to go away because he had worn himself out."

"Dr. Fort Newton had been called to succeed him. They wanted me to fill in. I sent a prompt refusal, but they overpersuaded me. Before Dr. Newton arrived, I preached four times. When Dr. Newton came he stipulated that he would preach only twice a week, so they asked me to occupy the pulpit on Sunday evenings."

Miss Royden won fame as a preacher at the City Temple. Some years later she withdrew and is now the main pulpit attraction at the Eccleston Square Guildhall in London.

There is no subject she will not tackle. She preached a series of sermons, afterward printed in book form, on "Sex and Common Sense."

## DIVORCED MAN MUST LIVE WITH EX-WIFE

KIEV, April 20.—Team work between the soviet bureau of marriage and divorce and the bureau of housing is not so good as it might be in Kiev.

In the past many young husbands have found it impossible to obtain living quarters with their brides, as no one can move without permission from the housing bureau, and this department invariably frowns upon such application.

While these young men have complained, they have not been the objects of much concern, for soviet Russia has many problems of far greater magnitude in the offing. But cold and hunger have not completely banished its ability to sympathize, as was demonstrated recently when the hearts of the populace went out to a young university professor who procured a divorce and walked jauntily over the housing bureau to get a moving permit.

"Nothing doing," was the gist of the clerk's reply.

Thinking he was misunderstood, the professor made it clear that he was divorced and exhibited documents to prove it. Still the clerk remained obdurate and was supported by his superiors, even to the head of the bureau.

The professor spent long hours pleading with the authorities, whose ready supply of excuses for not issuing the permit finally wore his patience down and to this day he and his ex-wife are fighting their battles within the same four walls.

The phrase, "a feather in his cap," originated in an old custom in Hungary, which forbade anyone to wear a feather in his cap unless he had killed a Turk.

## WOMAN FOUND BOUND AND GAGGED IN HOME

BOSTON, April 21.—Mrs. Esther Morrisroe was found bound and gagged in the kitchen of her home last night by her husband, Joseph Morrisroe. She told her husband, who had been asleep in another room, and the police, that she was at a table in the kitchen when the light went out and a hand was thrust over her mouth. She said she was bound and gagged, and that the

intruder then left without disturbing anything.

The state hospital for the insane is nearby and police are working on the theory that the attack was made by an inmate of that institution. The hospital authorities, however, said, no one had escaped.

## WHY BE SICK?

# ADMITTS THEFT OF \$26,000

Assistant Cashier of Edison  
Co. Has Made Confession  
According to Police

Stole to Recoup Gambling  
Losses — Thefts Cover  
Period of Three Years

BOSTON, April 21.—Harold S. Adams, charged with the theft of \$26,000 from the Edison Electric Illuminating Co., by whom he was employed for 14 years as assistant cashier, has confessed that the money was lost in Rhode Island gambling houses, police announced today.

Irregularities were discovered in his accounts last January during a serious illness. The bonding company which bears the loss waited for his recovered health before making an arrest.

Adams' confession, the police said, showed he had been taking money for the past three years. The first theft was to recoup a small gambling loss and, when that and succeeding ventures failed, he plunged deeper each time. Adams, who is 30 years of age and married, had received a salary of \$40 a week.

## GRAND CROSS OF CHRIST FOR NOTED AIRMEN

LISBON, April 21 (By the Associated Press).—Captains Scudura and Coutinho, the Portuguese aviators, who reached St. Paul rocks in their Lisbon to Rio Janeiro flight, have been decorated by the government with the Grand Cross of Christ.

## Germans Accept Proposal

(Continued)

from the allies, and begins by acknowledging "with painful surprise" the protest received which is considered undeserved. The note then repeats what Dr. Rathenau, German foreign minister, has stated on several occasions—that negotiations for the conclusion of the Russo-German treaty had begun long ago and were known to have been in progress by all the European governments and had lately been suspended out of deference to the conference.

But the exclusion of Germany from the negotiations held by the allies with the Russians at the Villa de Albertis gave to the German delegation the impression that the allies were trying to conclude arrangements with the Soviet government without German participation, perhaps to Germany's detriment. At a certain moment, perhaps through misunderstanding, the German delegation received the impression that the allies were about to conclude an agreement with the Russians; therefore the Russo-German negotiations were resumed, and resulted in the signing of the Treaty at Rapallo on Easter Sunday.

The German delegation believes that this treaty does not violate the spirit of the conference and indeed contributes to its supreme aim—the pacification of the world and the reconstruction of Europe.

The note admits that, after the conclusion of this treaty, the German delegation has no reason to participate in the work of the first commission, dealing with Russian affairs, but says it will willingly participate in the other work of the same commission, dealing with European and German interests. The first commission was summoned for a meeting this morning by the chairman, M. Schanzer, for a discussion of the Russian answer to the report prepared by the allied experts at their London meeting.

The Russian answer, which has not yet been made public, is understood to accept in principle the acknowledgment of Russia's pre-war debts on conditions that a long moratorium be granted, this to be followed by minimum interest payments which would gradually be increased as Russia became able to pay. It asks that the other Russian debts be wiped out by the indemnity claimed by Russia from the allies, and, finally, asks for a large loan.

Foreign Minister Rathenau made the German note public to the newspaper representatives today simultaneously with its delivery to the conference officials. He declared the German delegation was absolutely harmonious, and he expressed high commendation for Italy for her skill as a mediator in averting a rupture over the Russo-German treaty.

## RUSSIANS SEEK FURTHER PARLEY

GENOA, April 21.—(By the Associated Press) If the Russians are granted

## You Needn't Look Over 30

Graying hair makes you seem old regardless of age. Restore the original color and keep it young. This is simple, safe and easy—Mary T. Goldman's Hair Color Restorer quickly stops the gray.

Send coupon today for free trial bottle and test as directed on a single lock. Note the even, perfect natural color. See how easy to apply and how pleasant the scientific preparation cleans and restores.

Write: Nothing to wash or rub off. Fill out carefully, answering each question. If possible, enclose a lock of hair. When you have proved results, get a full-sized bottle, from your druggist or direct.

Name \_\_\_\_\_  
Address \_\_\_\_\_

recognition of pure and adequate financial help, they state in their reply, submitted to the entente today, that they are willing to admit Russia's war and pre-war debts, waive their counter-claims and restore the use of nationalized property to its former owners or satisfy the claims of foreigners in cases where the property cannot be restored. The clause of the Russian reply relating to the restoration of nationalized property to foreigners says:

"The Russian government would be willing to restore to its former owners the use of property nationalized or withheld, or where this is impossible, then to satisfy the just claims of the former owners."

The allied proposals on finance to

which the Russians replied today were textually as follows:

"Section I—The creditor allied governments represented at Genoa cannot admit any liability regarding the claims advanced by the Soviet government."

"Section II—In view of the serious economic condition of Russia, however such creditor governments are prepared to write down the war debts owing by Russia to them by a percentage to be determined later; and the countries represented at Genoa would be prepared to consider not only the postponement of payments of interest upon financial claims but also the remission of some part of the arrears of interest or postponed interest."

"Section III—It must be definitely agreed, however, that there can be no allowance made to the Soviet government against: First, either debts and financial obligations due to foreign nationals; or, second, the right of such nationals regarding the return of their property and compensation for damage or loss in respect thereof."

Cite Abolition of Slavery

As justifying their contention that the allies could not as a matter of right demand compensation for property, the Russians cite the abolition of slavery in the United States, where neither Americans nor foreigners were compensated. They also cite the adoption of prohibition in America as a case

where no compensation was given to the producers of alcoholic drinks.

King to Visit Genoa

GENOA, April 21.—(By the Associated Press) King Victor Emmanuel will arrive here tomorrow morning on the dreadnought Conte di Cavour for his visit to the international economic conference. He will receive the authorities at the prefect's palace and give a luncheon at noon aboard the dreadnought Dante Alighieri to which all the delegations have been invited. It is not yet known whether the Russian delegates have accepted the invitation to the luncheon. The Italian communists are urging them to abstain from meeting the king, maintaining this would produce a bad impression among the Italian communist masses.

which conceive communism as anti-monarchical.

Grave Menace

GENOA, April 21.—(By the Associated Press) Germany and Russia, asserts the Cattolico today, already have agreed with the Turkish Nationalist government at Ankara on a common program of foreign policy. This, it argues, will constitute a grave menace to the other powers, especially the Balkan states.

Financial Principles

GENOA, April 21.—(By the Associated Press) Sir Robert Horne, the British chancellor of the exchequer, left Genoa for London today for the discussion of

the British budget before parliament at Westminster. He promised his fellow conference here to begin immediately to put into practice the financial principles that have been approved by the conference.

France, Italy, Belgium and Spain declared their desire to continue intensive work for the regeneration of their finances, gradually bringing their currency up to pre-war value. The representatives of Bulgaria, Hungary, Poland, Finland and Latvia emphasized their special conditions, pointing out that owing to the great depreciation of their currencies it was impossible for them to meet their difficulties by following the same lines as the richer countries.

## MINE STRIKERS GAIN 20,000

Peak Strength Not Yet Reached, Although 630,000 Are Idle, Say Union Heads

Efforts to Bring a More Complete Tie-up of the Industry Will Be Continued

INDIANAPOLIS, Ind., April 11.—With the third week of the nationwide suspension of work in the coal industry ending today, officials of the United Mine Workers of America at union headquarters here declared that the peak strength of the strikers had not yet been reached, although the number of idle miners had increased to 630,000, a gain of 20,000 during the week.

Efforts to bring a more complete tie-up of the industry will be continued, but officials declined to make any specific predictions. They asserted that they expected further gains and added that no break was threatened within the union ranks, which now include many supporters in the unorganized fields.

Under the union's avowed program calling for almost a complete suspension of coal production, any new developments, forced by the union, may be expected to come in the Pennsylvania bituminous regions, and also in West Virginia, the strongholds of the non-union operators. Almost from the beginning of the strike, these two states have provided the centers of activity, and in Central Pennsylvania particularly, the union has massed its organizers for the attack.

In all the Central Pennsylvania region has 55,000 of its 85,000 non-union

BILL COOPER SAYS HE DOESN'T KNOW WHETHER TO GO OUT OR STAY IN EVENINGS—HE GETS THE DICKENS EITHER WAY

workers on strike, according to reports to union headquarters here.

Incomplete reports from West Virginia show 10,000 non-union supporters of the suspension. It was said. All union miners numbering 61,000 also are idle.

As long as the general suspension of work obtains, the nation's coal output hinges largely on the non-union mines, which operators here say have an aggregate output of 6,500,000 tons weekly.

### Strikers Face Rent Increases

Continued  
ants within the past few days to the effect that their rent had been increased from \$15 to \$21.75 a month and that from now on the rent must be paid weekly instead of monthly as heretofore. Another case was brought to the attention of the committee, when a woman reported that the owner of a cottage house, which she occupies with her two sisters, had increased her rent from \$22 a month to \$6.60 a week or \$28.16 a month and that the rent must be paid weekly instead of monthly. Several other similar cases were reported and at the close of the meeting one of the officials of the strike informed The Sun that if anyone disputed the veracity of the reports, they can secure the names of the tenants and their addresses by calling at strike headquarters.

The question discussed at the meeting was whether or not there is any city ordinance or state law forbidding

such radical increases at this time, when wages are being lowered and mill officials are claiming that the cost of living is coming down. A committee was appointed to look into the matter and report at their earliest convenience. It is found that profiteering on such a large scale can be stopped, action will be taken at once by the Lowell Textile council.

The number of pickets at the Hamilton and Bay State mills has been increased and the strikers are doubling their efforts in order to close both mills tight if possible. It is reported that the strikers are holding their own very well at the Bay State plant, as the working force there is not being increased. It is said that every day new faces are seen going into the mill, but the report has it that they are filling places made vacant by strike breakers who got tired of their jobs.

The number of operatives at the Hamilton remains about the same. Some of the operatives, according to reports, enter the mill through the Middlesex street entrance, others through Jackson street and a small number through the door in the rear of the plant in the four of the police station.

### MERRIMACK RIVER IS RUNNING FULL

The Merrimack river locally continues to run well filled for this season of the year and the freshest conditions of last week still are evident.

although the height of the river at Pawtucket dam has fallen considerably.

The Locks and Canals were advised this morning that tributary streams up country still are swollen and there is yet a considerable amount of snow on the ground. Unless a heavy and continued rain comes no sharp rise in the water here is expected.

### THE FIRST STREET OVAL PROPOSITION

While no definite word has been received from the Locks and Canals Co. relative to the city's offer for \$20,000 for purchase of the First street oval, the mayor feels sanguine of its acceptance and today announced that he will authorize the provision of some amount of money to be expended upon the area this year toward its development as a playground proposition. Any work done there would be under the supervision of the park department. Asked how the money would be secured, the mayor said that probably he would take it either from overlay or from the prior revenue account.

# Mme. Calve Will Tutor Girl With "Most Wonderful Child Voice"

MISS KATHLEEN KERSTING

By N.E.A. Service.  
WICHITA, Kan., April 20.—"The most wonderful child voice I have ever heard!"  
Mme. Emma Calve, noted singer of the title role in "Carmen," said it.  
And the praise was prompted by one little song sung by 13-year-old Kathleen Kersting, a high school girl of Wichita.  
As a result Kathleen and her mother are to accompany Mme. Calve to her castle, Le Cabrioles, in southern France. Then the noted singer will see to the proper voice education of her little "And."  
Miss Kersting first attracted more than local attention when Edoardo Sacerdote, noted voice specialist of Chicago, called the girl a "wonder child," after hearing her sing at the Kansas Music Teachers' convention.  
Then Mme. Calve gave a concert in Wichita. Music critics induced her to visit the Kersting home.  
Kathleen sang "Dose in the Bud." That was enough! The trip to France was immediately planned.  
And what does the little singer think about it?  
"Just think what a wonderful teacher I'll have," says she. "And naturally I'm tickled with the idea."  
"I will pursue my regular course of studies in addition to my vocal lessons. A person doesn't get very far nowadays without an education."  
Mme. Calve paid high tribute to Mrs. Martin Flanagan, Kathleen's singing teacher. "There is not a single thing to be undone," said she.

## INSURANCE MEN MAKE MERRY

It was a merry gathering that took place in Fairburn's restaurant in Bridge street last evening, the occasion being a dinner for the members of the Lowell agency staff of the Metropolitan Life Insurance company. The affair was the culmination of a contest recently organized between the local employees of the company, who had been divided into two teams, the losers to settle the expense of the festivities.  
The gathering took place at 7:30 o'clock and, according to reports, the hosts spared nothing to provide an evening of enjoyment for their guests and themselves. Seated around the festive board were the employees of the local office of the company as well as a few guests. Assistant Manager C. O. Leadbetter acted as toastmaster and, under his direction an impromptu program was carried out. Prominent among the entertainers were Agent Galvin, Edouard F. Gregoire, Frank McCarthy, Agent Colby, Thomas Bean and John O'Brien. Interesting remarks were made by Manager J. P. Heron, Assistant Managers Clifton, Daigle and

Nealon. Agent Miller also entertained with delightful violin selections.  
At the close of the post prandial exercises the floor was cleared of the tables and general dancing was started and continued till a seasonable hour. The success of the affair was due to the efforts of the following committee: Peter Gill, Agent Miller and David J. Hackett.

A French engineer claims to have discovered evidence that a great river once flowed northward across the Sahara desert into the Mediterranean, its banks being lined with prosperous communities.

## JUDGE MURLEY WAS WELL KNOWN HERE

Judge Joseph J. Murley of the Boston municipal court, who died Tuesday in Boston after a few weeks' illness, was very well known here. He served in the legislature with Hon. John F. Meehan and Martin F. Conley, and was an able young legislator. He had been an associate justice for almost a decade, and had been doomed lately for congress, to succeed Congressman Tague. The funeral is to be held tomorrow.

## ANNUAL PARTY AT CHILDREN'S HOME

The annual pound party of the Children's home in Hosford square will be held at the home Saturday, April 22. The house will be open all day, and gifts of groceries, vegetables or money will be gratefully received. At 2 p. m. there will be an entertainment in charge of Mrs. Hugh Green, assisted by the orchestra and other talent from St. Paul's Methodist church.

## TO FLASH RADIO MESSAGE

Sec. Wallace Plans Most  
Widespread Distribution  
on Eve of Arbor Day

WASHINGTON, April 21.—Secretary Wallace of the department of agriculture will attempt tonight, on Arbor Day eve, what is described as "the most widespread radio distribution of a single message" ever made.

The message will be transmitted at 9 o'clock eastern standard time, from the government stations at Arlington, Va., San Diego and San Francisco, the Great Lakes navy station, and all army and post office department stations, and also by the Radio Relay League and Radio Broadcasting stations.

One year ago there were perhaps 60,000 radio receiving sets in this country. Today there are over 800,000 and the present monthly increase is estimated at 100,000.

The modern express passenger locomotive can run at the rate of 112 miles per hour on a heavy rail and straight track, provided there is a train behind it to prevent it from jumping the track.

## PRES. WOOD PREDICTS TOTALS \$12,366,000,000

## BANNER YEAR

NEW YORK, April 21.—A banner year for manufacturers of woolen goods was predicted yesterday by President Wood of the American Woolen company, who is registered at the Waldorf Astoria. He said that prices will be higher. He was unable to forecast how much higher they would go, but was sure they would be "very much higher."

Wool in foreign markets is at top prices, he explained, "and with the duty" imposed on wool imports the American manufacturer must depend almost entirely on the American output. "This," he said, "is insufficient to clothe the nation's people."

"Although clothing salesmen have been out only a few days, our woolen departments have already been inundated with duplicate orders," he said. "A large volume of this business it will be impossible for us to accept. The counters of the retailers are pretty bare of goods. The many outside mills have either been shut down entirely or are on reduced output. If these mills continue to remain closed, the American Woolen company cannot supply the demands."

Dept. of Agriculture's Estimate of Gross Wealth Produced by Farmers in 1921

WASHINGTON, April 21.—The department of agriculture estimated today that the gross wealth produced by farmers in 1921 had a value of \$12,366,000,000 or about two-thirds of the aggregate value of the farm products of 1920, and little more than one-half the aggregate for 1919. During the same period, 1919-21, production of 10 crops which represent about 95 per cent of the total crop acreage fell eight per cent.

The total value of crops, the department said, declined from \$15,423,000,000 in 1919 to \$10,909,000,000 in 1920, and to \$7,028,000,000 in 1921. The decline of the total value of animal products on the farm was from \$8,261,000,000 in 1919 to \$7,354,000,000 in 1920 and to \$5,339,000,000 in 1921.

## VOTE MINISTER MAY PLAY BILLIARDS

RELEVUE, Ill., April 21.—The Rev. E. V. McCluskey, of the First Presbyterian church here, may play billiards as often as he wishes, according to a congregational announcement today after a hearing in which the minority seeking his removal was voted down.

## 'TIZ' FOR ACHING, SORE, TIRED FEET

Just take your shoes off and then put those weary, shoe-crinkled, aching, burning, corn-pestered, bunion-tortured feet of yours in a "TIZ" bath. Your toes will wriggle with joy; they'll look up at you and almost talk and then they'll take another dive in that "TIZ" bath.

When your feet feel like lumps of lead—all fired out—just try "TIZ." It's grand—it's glorious. Your feet will dance with joy; also you will find all pain gone from corns, callouses and bunions.

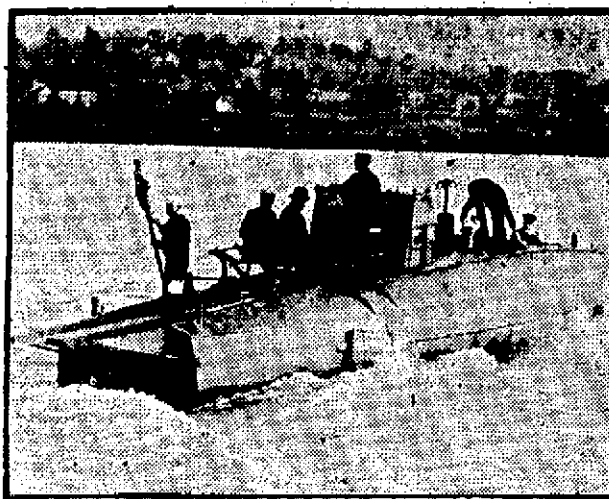

There's nothing like "TIZ." It's the only remedy that draws out all the poisonous examinations which puff up your feet and cause foot torture. A few cents buy a box of "TIZ" at any drug or department store—don't wait. Ah! how glad your feet get; how comfortable your shoes feel.—Adv.

DENBY TESTS NEW SPEED BOATS

Secretary of the Navy Denby takes a trial spin in one of the new boats bought from England for coast patrol duty. It made 42 knots an hour.

## OAT KERNEL SPROUTING IN EAR CAUSED DEATH

NEW HAVEN, Conn., April 21.—An oat kernel which sprouted in the right ear of Peter Everson two weeks ago, brought on meningitis from which Everson died at a hospital here last night.

## TO GIVE BATTLE

Pres. Obregon Orders Attack on Gorozava

MEXICO CITY, April 21. (By the Associated Press.)—Acting under orders of President Obregon, Gen. Guadalupe Sanchez, chief of operations in the state of Vera Cruz, has left for the Huasteca region to give battle to Francisco Gorozava, who began an uprising several days ago.

Gorozava is understood to have more than 300 men in his command.

## DISCUSS WOMEN IN INDUSTRY

BALTIMORE, April 21.—Round table discussions were continued at today's meetings of the Pan-American conference of women begun here yesterday under the auspices of the National League of Women Voters, women in industry being the topic at the first session. Miss Mary Anderson, chief of the women's bureau, United States Department of Labor, presided.

## BIG INCREASE IN BUILDING

BOSTON, April 21.—Building permits issued in 24 Massachusetts cities during March show an increase of 117 per cent over the total for March, 1921, and of 24 per cent over February of this year, the department of labor and industries announced yesterday. These increases are "the basis for much encouragement," the department said, adding that "it appears probable there will be ample employment for all building tradesmen in the state in the very near future."

Ground soapstone is used to some extent in foundry facings, as a lubricant, as a dusting agent in making prepared roofing, in low-grade paints and for a few other minor uses.

# LOWELL MAN'S IDEA

## J. C. Wood Plans Building Factory to Make Self-Wringing Mop

J. C. Wood, of 14 Highland street, who has many inventions to his credit has invented a self wringing mop which is quite simple and will double as a mop and a wringer. The mop has a handle which is twisted up like a rope.

## More Liquor Law Violators

Continued

paid him a visit late yesterday, and found him operating two stills, at one and the same time. About 50 gallons of 'shine, 500 gallons of mash and a

quantity of supplies were found on the premises. He, also, paid \$100. In both cases the men were reported to be selling at the rate of \$5 a gallon.

Demetrios Papadostas was raided a few days ago, and the officers allege that he had a storehouse in the rear of his property, where they found 4 gallons of moonshine and a quantity of incidentals. They say he had a half-pint of the same goods on his person when arrested on a warrant yesterday. He is the proprietor of a "soft drink" emporium in Market street, formerly conducted by one Johnson. The case was continued until May 3.

Thomas E. Roark, of Chelmsford, was charged with illegal keeping, and received the same continuance as in the previous case.

Joseph Janakowski was charged with assault and battery. The defendant is a store keeper, and claimed the complainant owes him \$77 on an old bill. The judge ruled that the evidence was rather unimportant, but that Janakowski was evidently guilty of the charge, and ordered him to pay a fine of \$5, which he withdrew immediately from a large roll in his inside coat pocket.

John J. Boyan, charged with larceny, was found not guilty and dismissed, and Gerald Mandrell and Harrison Simpson, complained of for unlawfully

riding on freight cars, had their cases closed on file.

Wells Pike and Joseph Morrow, were charged with a statutory offense. Morrow was found guilty and fined \$10, while the woman was continued until next Friday under \$300 bonds.

Arthur Bergeron, arraigned on two counts for operating a motor vehicle in violation of the state regulations, was continued until May 3.

Antonio Christefelias, who created such a commotion yesterday by threatening the life of a fellow-countryman in the Market street section, was continued until tomorrow.

John J. Roark, for drunkenness, received a sentence to the house of correction for four months, suspended for six months.

### DOG HIT OFFICER

The head of another Lowell dog, that recently bit Police Officer F. H. Murphy, has been sent to the state laboratory for examination and the local board of health is awaiting notice as to whether or not evidences of rabies were found. The animal in question was owned by M. J. Connerton of 137 Mammoth road.

At the Brazilian centennial exposition in September of this year the United States will have an exhibit showing the work done by the various bureaus in promoting the mining industry.

## LOWELL JEW'S HONOR DAVID ZISKIND

David Ziskind, a well known local business man, will represent the local Jewish people at the Jewish congress to be held in Philadelphia May 31. Mr. Ziskind was chosen as the Lowell delegate to the convention at a recent meeting of the B'nai B'rith society, and his choice was unanimous.

The last Jewish congress in this country was held four years ago and at that time Mr. Ziskind attended the deliberations as the delegate from Lowell having been chosen to that post in one of the liveliest contests

DAVID ZISKIND

ever held in this city. In those days the delegate to the congress was chosen at a convention of delegates of local organizations, and Mr. Ziskind's candidacy was being opposed by a prominent lawyer.

This year the idea of a meeting of representatives of the various delegations was abandoned and the members of the B'nai B'rith, one of the most prominent Jewish organizations of this city, were instructed to select a delegate with the result that Mr. Ziskind's election was unanimous.

## NO CHANGE IN TANNERY STRIKE

There is no change in the strike of the employees of the American Hide & Leather company, and there is nothing to indicate that a settlement will be reached this week, for no move has been made by either side to bring the strike to an end. The strikers are firm in their stand not to return to work until the company has agreed to wipe out the ten per cent. reduction announced some four weeks ago, while on the other hand the company seems more determined than ever not to concede the demand of its employees.

The plant in Perry street is picketed every day and the reports at the strike headquarters are to the effect that no attempt is being made to operate the plant. The cars of coal that were allowed to remain on the spur tracks of the company in the rear of the shop for several days have been unloaded and the men who did the work are now kept busy keeping the fires going.

## Early Morning Capture of Burglar Continued

Office of Dr. William M. Collins he heard a slight noise inside. He called to Officer Liston and both officers entered the dark room with drawn revolvers. The burglar was found hiding behind a desk and was given 30 seconds to put up his hands.

He offered no resistance and Officer Spillane handcuffed him and took him to the box and summoned the patrol.

When the prisoner was searched at the station a machine screw driver was found on his person. This instrument was very heavy and thick and about eight inches long, and was probably used to pry open the windows and doors in the course of his marauding expeditions. Other articles, including money to the amount of about \$30 and a number of postage stamps, were found.

A feature of the man's work was that he wore gloves, showing that he had no intention of leaving fingerprints by which he might be identified.

It has been ascertained that the man came here early last night, registering at the New American house at 8 o'clock, occupying one of the hotel's best rooms. He registered as William J. Sternberg, Allentown, Pa.

At the station he admitted that his last place of residence was at 173 Vernon street, Worcester.

Sternberg, according to the police, began his work after dark, very likely about midnight. Captain Atkinson took charge of the case this morning, and on searching his room at the hotel found among his possessions several bunches of keys, probably taken from burglarized offices, skeleton keys, and various articles which he is believed to have stolen from time to time, among them a dozen boxes of safety razors, with complete equipment of blades, etc., several watches, a number of books of two-cent stamps and several hundred one and two-cent stamps.

It was also discovered that Sternberg had registered at the best hotel in Pittsfield the night before, and the authorities assume that he did similar work there.

The police chiefs of Pittsfield and Worcester have been notified of the capture. On looking up automobile registration numbers, it was found that Sternberg had actually resided at the Worcester address, and had had an automobile registered at that address.

The newly created flying squadron, on duty last night for the first time, and consisting of Officers Conway and Sharkey, went to the building when the patrol was summoned, and conducted a thorough search of the building. They found that the following offices had been burglarized: Room 44, W. N. H. Walker, Incorporated; 42, Eugene W. Hunt, attorney-at-law; 24, Robert E. Crowley, real estate; 23, Hudd French; 31, ex-Mayor Perry D. Thompson; and 24, the office of the National Society Co. All these were victims of Sternberg's burghary were notified, and have been visiting the police station all day to recover their missing property.

Sternberg admitted everything, and in district court this morning was continued until tomorrow under \$3000 bonds.

## Chandler Estate Destroyed by Fire

Continued

was out of his men's control and summoned aid from the Billerica and State Infirmary departments.

The addition of both these forces did little to check the flames and the effort to save the Chandler property was given up. The fire fighters then confined their efforts to keeping the flames within the fire area. The wind carried great pieces of burning wood throughout the countryside. A large henhouse, on some adjoining property, was soon ablaze, but prompt work by the departments snuffed out this blaze before any damage was done.

## Garage On Fire

A call came from Green's garage, more than a quarter of a mile away, that sparks had started a roof fire there. Another record run was made to the garage and the flames extinguished.

For two hours the fire-fighters were kept running from place to place to extinguish small grass fires and at times the entire town was threatened by the flying sparks.

At 10.30 the Chandler estate was just a mass of glowing sparks with not a timber of any kind standing to mark the spot where this famous estate once stood. Members of the Tewksbury force were kept on the job as a flurry of wind carried the sparks soaring into the air to fall glowing on the nearby property.

According to information given out from the fire department headquarters, the fire originated in the kitchen and was started from the fireplace. It was impossible to get in touch with Chief Higgins to obtain his theory regarding the origin of the blaze, as he was kept on the jump directing his combined forces.

There was no livestock in the barn, and fortunately there wasn't, for the rapidly with which the flames spread would have made rescues out of the question. A few hens, quartered in a nearby coop, were released. As soon as the blaze became noticeable Urban's neighbors came to his assistance and helped move out some of the downstairs furniture. A grant deal of this was saved, but most of the effects of the other floors were burned.

It was said that Mr. Urban had the place insured for \$5000. He has lived in the house about one year and has been doing tailoring work at his home. At one time he was employed by a Lowell tailoring establishment.

The Chandler estate passed from the hands of the Chandlers some time ago when Anna Chandler sold the property to a man named Cawley. It was later transferred from his possession to the present owner.

# The Gilday Gown Shop

122 CENTRAL STREET

## Announce a Clearance Sale

STARTING TOMORROW

Of Individual Gilday Spring Models in High Grade

## COATS and SUITS Less 20% Discount

All remaining Coats and Suits selling at \$25 and upwards, now grouped for immediate clearance as follows—

- Gilday \$25.00 COATS and SUITS reduced to **\$20.00**
- Gilday \$29.50 COATS and SUITS reduced to **\$23.00**
- Gilday \$35.00 COATS and SUITS reduced to **\$28.00**
- Gilday \$45.00 COATS and SUITS reduced to **\$36.00**

The consumer's desire for lower prices than we had anticipated, a backward season and a late Easter conspired to leave us with more Coats and Suits from our early Spring purchases than we should have. We have decided to clear them out at once. The collection has been taken from our regular stocks. They are of the usual Gilday standard of material and workmanship. The sale prices will offer decided savings. So come here early if you have not purchased your Spring Suit or Coat.

Yours for personal service, GERTRUDE GILLESPIE GILDAY.

# Radio-graphs

## RADIO TUNING IS VERY IMPORTANT

BY R. L. DUNCAN  
Director, Radio Institute of America

Tuning a radio receiving set is an art in itself. Few amateurs take the pains to learn it. They are in too much of a hurry to start listening in.

In a loose coupling, the operator who wants to get everything, pushes his secondary completely inside the primary, making a tight coupling. For selectiveness in tuning, it is imperative that loose coupling be employed.

This weeds out interference. Of course, there is some loss in energy. But since it is useless to try to tune in with tight coupling when there are several stations transmitting on the same wave length, loose coupling will have to be resorted to.

In this, there is no direct connection between the primary and secondary. The current received in the primary in the form of electro-magnetic waves is induced in the secondary. The further away the secondary, the harder it is for the inductive relation to come about.

In this, there is no direct connection between the primary and secondary. The current received in the primary in the form of electro-magnetic waves is induced in the secondary. The further away the secondary, the harder it is for the inductive relation to come about.

Keep these pointers in mind and you will find that tuning in will be made much easier.

away the secondary, the harder it is for the inductive relation to come about. In this, there is no direct connection between the primary and secondary. The current received in the primary in the form of electro-magnetic waves is induced in the secondary. The further away the secondary, the harder it is for the inductive relation to come about.

Go over all contacts in your set frequently. Those connections which are not soldered should be kept free from all dust and foreign substances.

All currents received are very feeble and the slightest resistance offered them by a poor connection decreases the efficiency of the set considerably.

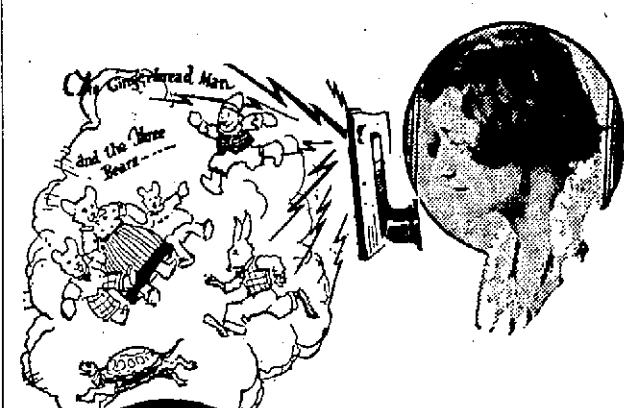

A poor ground on the receiver is the most frequent cause of loss of energy. The best ground is the cold water pipe in the house, or a large iron plate or pipe driven into the ground.

Be sure to scrape the connection surface and solder the grounding.

Keep these pointers in mind and you will find that tuning in will be made much easier.

Keep these pointers in mind and you will find that tuning in will be made much easier.

## Radio Story-Teller Sings 100,000 Children to Sleep—All at Once!

ILSE FORSTER, THE GIRL WHO TELLS THE RADIO BED-TIME STORIES, AND LITTLE DOROTHY HASSELBROOK, NEW YORK, GIRL, LISTENING TO ONE OF THEM.

### RADIO PRIMER

Radio Frequency—Currents alternating at the rate of more than 10,000 cycles a second are termed currents of radio frequency. That is, they produce vibrations of such fast frequency that they are practically inaudible to the human ear.

By N.E.A. Service  
CHICAGO, April 22.—"Sing 100,000 children to sleep!"

That was the order given Miss Ilse Forster, Chicago girl, who often had sung lullabies and kid songs to groups of children, but never to 100,000 scattered over 30 states.

Even the Old Woman-Who-Lived-in-a-Shoe never had a task put up to her like that!

But Miss Forster said: "I'll do it. And if they're not asleep after the first lullaby; if the sandman hasn't come hovering over their cribs,

and some of them are still kicking their fat little legs, I'll give 'em another—a drowsier one."

Twentieth century magic made the task possible. From the Westinghouse company's KYW station here and from other stations throughout the country, Miss Forster sang songs about bunny rabbits, gingerbread men, rag dolls, and other things dear to the child heart, until her big family was satisfied.

"She has promised to sing for them every week at bedtime and save thousands of tired mothers the trouble of rocking their little ones to sleep."

## THE GROTON HOSPITAL

Informal Opening Patriots

Day of the New Hospital and Annex

On April 19, Patriots day, the Groton hospital was the scene of hospitality from noon until late in the evening, the occasion being the informal opening of the new hospital and annex, known as ward 13, to the main hospital. The addition was dedicated, and visitors were delighted with the excellent conditions about the hospital and the discipline among the patients; a credit, indeed, to the authorities in charge.

After the opening exercises a flag-raising was participated in by all present, and the flag was presented to the hospital by the Elks of Framingham. The Legion post from Maynard was present and assisted Commander Peterson in unfurling the colors during the flag-raising.

Present as guests were Col. and Mrs. Charles Stevens of Lowell; representatives from auxiliaries through Middlesex county, the Army and Navy club and the Red Cross. The flowers that filled the room were very beautiful and added greatly to the decorations. Dancing was enjoyed during the evening with a buffet lunch served during intermission.

Dr. Cawley of Boston is the district relief officer, and a very important factor in this particular branch. Great success to Dr. Ayers and his competent staff, Dr. Smith and Mr. Cady, was the wish expressed by the visitors.

Dr. Ayers is an ardent worker for the physical welfare of the boys in his charge, and with the able assistance of Dr. Smith and Mr. Cady has accomplished much for the veterans. If the patient's condition is such that he can sleep outside, there is every opportunity to do so, with pleasant outdoor quarters containing 110 beds and lockers. The best of sanitary conditions prevail. Dr. Ayers, through his untiring efforts, has made a companion and friend of each and every boy in the hospital.

## WAS INJURED IN RUNAWAY ACCIDENT

Stephen Anderson of 43 Hurd street, a teamster in the employ of Saunders' Public Market, Inc., received painful injuries in a runaway accident, which occurred in Pawtucketville last evening. The best of sanitary conditions prevail. Dr. Ayers, through his untiring efforts, has made a companion and friend of each and every boy in the hospital.

## SUES BARBER FOR LOSS OF PRIZED MOUSTACHE

SAN FRANCISCO, April 21.—Injured pride at the loss of a prized moustache "not less than three inches in width and six inches from tip to tip" removed from the plaintiff while he was asleep under a hot towel in a barber shop, had found outlet today in a suit for \$250 damages filed in San Francisco justice court. The suit was brought by James T. Maguire, of Berkeley, Calif., against Henry Jacoby, barber.

The complaint set forth: "That as a result of the said moustache having been willfully and maliciously shorn from the face of said plaintiff, said plaintiff has materially decreased in his personal appearance before the public; his younger children are not able to recognize him and the plaintiff has extreme difficulty in being recognized at banks, restaurants, garages, golf courses and other places where plaintiff has business."

## BIG FOOD FAIR WILL CLOSE TOMORROW

Just two more days of the Food fair at the Kashio, and you should take steps as soon as possible to visit the big arena and get in touch with some of the delectable things exhibited. Some person who visits the fair every day will draw a huge basket of good things—free of charge.

One should not overlook the booth where the Friend Bros. products are on exhibition. These include their celebrated canned beans of different varieties, such as yellow-eye beans, California pea beans and red kidney beans. Cakes, bread and brown bread, and general pastry are also shown at this booth.

The American Sugar Refining company has a splendid exhibit of its products, including Traveler loaf sugar, granulated sugar, cinnamon sugar, confectioners' sugar, old-fashioned brown sugar, and syrups and honeys. As a special feature this firm has Kookie Top Krystals, which are exceedingly appetizing. "Sweeten With Domino" is the slogan for this firm.

Mall-a-Milk company of Kansas City has a lot of new things to show. They are putting on the market Choco, which is a combination of chocolate, malt and milk, treated by a patent process whereby all starches are changed to sugars and so are made very soluble. It can be used with water for a drink, or in icings for cakes.

The Sheffield Condensed milks are also attracting much attention. This is a New York company which features Seal-ect brands of condensed and evaporated milks.

The Wameta cocoa is also a great drawing card for all who go to the fair. The cocoa is put up in glass jars. Chocolate bars, plain and with nuts, are also on display. During the war the company had two factories turned over to the government for the manufacture of chocolate for the army and navy.

## 25,000 TO LIVE IN TENTS IN CHICAGO

CHICAGO, April 21.—Twenty-five thousand Chicago families will live in tents in nearby forest preserves during the summer to avoid paying high rent. E. A. Potter, manager of the Chicago Tenants' Protective league, announced yesterday. All plans have been completed, he asserted, and said that a

## LOWELL DISTRICT OPERATED AT LOSS

According to the financial statement issued by the board of public trustees of the Eastern Massachusetts Street Railway Co., the Lowell district was operated at loss during the month of March, the difference between revenue and cost of service being \$1028.92. The total operating expenses amount-

ed to \$73,140.66, plus \$3135.18 charged to taxes and \$22,420 in interest at 6 per cent, on cost of property. The total cost of service was \$98,704.84 and revenue, \$97,665.91.

## "FARMER PAINTER" DEAD

LOS ANGELES, April 21.—Alfred Montgomery, 65, known as the "farmer painter," died here last night. His "Down on the Farm" was hung at the Paris exposition in 1900 and later was sold for \$10,000.

Because of the many fine woods in Paraguay suitable for the making of walking sticks, the manufacture of canes is a growing industry there.

## BELFAST DEATH TOLL NOW 12

Firing Again in Progress—  
Looters Tamed and Feathered by Police

Attack on Wellington Barracks Continued 40 Minutes—  
Bombs Hurlled

BELFAST, April 21. (By the Associated Press.)—Firing was again in progress in the Short Strand area of Belfast, early today. A sergeant in the special Ulster constabulary was the first casualty of the day. Two deaths in the hospital last night and the death of Andrew McCartney, one of yesterday's wounded, raised the Rastertide toll to 12. Three men who were discovered looting in the Falls district yesterday, received a severe shock when they were tried and sentenced by republican police to be tarred and feathered. The sentences were duly carried out, and the thieves were marched down the street labelled: "Looters, beware," and accompanied by a joyous shouting crowd. The arrival of the military ended the thieves' ordeal.

Bomb Explosions Cause Alarm  
DUBLIN, April 21. (By the Associated Press.)—The attack on the Wellington barracks, which began at 11.15 o'clock last night, continued 40 minutes, when the besieging forces were beaten off by the garrison of regular Irish republican army troops. An attempt was made to rush the front gate, and two grenades were hurled, slightly wounding three of the garrison. The guard replied with a grenade, and it is believed two of the attackers were wounded, as they were seen being assisted away by comrades. The firing in different parts of the city, while it lasted, was even more intense than that of the previous night, the explosions of bombs causing the greatest alarm.

Wireless Station Seized  
BELFAST, April 21.—The wireless station at Dunbeg, near Gweedore, on the western Donegal seaboard, has been seized by republican forces, it was announced here today. The raid provided the naval men in charge of the station with transportation to the nearest railroad depot.

BELFAST, April 21.—The Belfast newspapers today received a request from a leading newspaper distributing firm not to send their editions to Dublin or to the firm's railroad headquarters outside of Ulster, until further notice. A boycott was formally proclaimed today at the city of Londonderry on merchandise from Belfast, Lisburn, Dromore and Dandridge.

## FLOATING EFFECTS MARK SUMMER FROCKS

The fact that Paris is using a great deal of lace just now, added to the fact that many lovely frocks were seen at Palm Beach, indicates that lace of every kind, color and width, will be much used this summer. Spanish laces, in black and white, are still decidedly popular. A new lace which seems destined to enjoy a real vogue this spring and summer is the early summer is a mixture of silk and wool in a big floral design. This comes in wide banding.

To meet the demand for dainty fabrics which float gently, the manufacturers have done their utmost, and the array of chiffons, crepes, embroidered net, sheer novelty cottons, batistes, voiles and the like is enough to turn the heads of beauty-loving womenfolk. The spring of 1922 has witnessed such an array of color, following a season of somber black, that it will be no surprise if the brightest colors in wash fabrics are favored by the women, leaving her summer dresses, and white or sweet pea shades chosen, leaving the high colors for the younger generation, which does not grow so fagged and flustered when the thermometer begins to climb. White or cream, pale blue, yellow or orchid always look exquisitely cool, and will be worn extensively.

## PAINTING WHITE CROSSING LINES

More white crossing lines were painted on the pavement at the head of Central street last night and were in use today. As was the case in Merrimack square, pedestrians used them in the majority of instances and the traffic officer at that point felt that his work was greatly facilitated. The lines were put on between the hours of 12 midnight and 3.30 a. m. by two men of the street department and under the direction of Traffic Supervisor Edward Connors. It has developed that the lines recently painted in Merrimack square have not worn well and to be of continued effect must be recoated. Whether it is the fault of the paint or whether it is due to the continuous traffic stream cannot be determined, but a different make of paint was used at the head of Central street and some decision may be possible after a comparison of the two jobs is made. Within a few days the same scheme of crossing lines will be carried out at the intersection of Market, Central and Prescott streets and at Toward corner.

# Sixteen-Year-Old Girls Country's Most Famous "Siamese Twins"

DAISY AND VIOLET HILTON

(BY N. M. A. SERVICE)  
SAN ANTONIO, Tex., April 21.—Living here are the successors of Rosa and Josefa Blazek, world-famed Siamese Twins, who died recently at Chicago.  
They are Violet and Daisy Hilton, 16, and attractive.  
Violet and Daisy are "Siamese Twins"—their bodies are joined together at the base of the spine—just like Rosa and Josefa, just like Eng and Chang, original Siamese Twins whom Barnum made famous in the last century.  
Save for the abnormal joining of their bodies, Violet and Daisy are just like any two ordinary, 16-year-old girls.  
And save for the fact that one must

go wherever the other goes, they enjoy the same pastimes and diversions any girls of 16 would enjoy.

## Fond of Games

They're fond of cards, checkers and dominoes. But both don't always play the same game at the same time.  
"The other night Daisy was engaged in beating her uncle at dominoes while Violet, brows puckered, was trying to disentangle herself from the intricacies of a high bid in bridge.  
Both girls like to read. But while one reads Oliver Twist, the other may be thrilled by a movie serial.  
Both are fond of the movies—and of the same kind of movies, for both must always attend the same show. They prefer serial pictures of wild adventure to the humdrum society romance.

## Writing Different

Each twin writes an entirely different handwriting. While the penmanship of both is good, their scripts are as different as the two poles.  
"The children romp and play about the grounds of their winter home here just as any children. They move about with marvelous rapidity and ease.  
Daisy and Violet have been educated by private tutors. Their parents refused to send them to public school because of the comment their joint condition might call forth.  
San Antonio's "Siamese Twins" today are the oldest known such twins in existence. Many such twins are born, but few live beyond babyhood.  
Rosa and Josefa Blazek were well over 40 when they died. Eng and Chang were 63.

## SLAYER ARTHUR GIVEN 14 MONTHS

DORHAM, April 21.—Julius B. Arthur of Quincy pleaded guilty to a charge of manslaughter when arraigned in Norfolk superior court late yesterday for the murder of his brother-in-law, George Rodney, on June 18, 1921. Judge Nelson P. Brown sentenced Arthur to 14 months in the house of correction.  
Asst. Dist. Atty. Kane, in announcing that the state would accept the plea said that the shooting had followed a family quarrel after both men had drunk considerable liquor.

Paper is made from wood, rags, banana skins, beanstalks, pea vines, coconut fiber, clover, hay, straw, weeds, seaweed, 50 kinds of bark and more than 100 kinds of grasses.

## TO WELCOME CARDINAL

Mgr. O'Brien, Humphrey O'Sullivan and Edward O'Connell at New York

NEW YORK, April 21.—Prominent Catholic clergymen and laymen of

Wet Feet

AFTER your energies have been "short circuited" through undue exposure, fatigue or worry, restore the system to normal health and vigor by taking that blood-maker and tissue-builder

**BOVININE**

The Food Tonic Of All Druggists

Greater Boston, who have come here to welcome Cardinal O'Connell on his return from Rome, experienced a few anxious minutes yesterday when they learned that the White Star liner Arabic was battling southwest gales and heavy seas about 1000 miles east of New York harbor.  
Their fears were dissipated when at 10:50 a. m. a wireless message was received from Capt. W. Marshall of the Arabic that the 23,000-ton liner was weathering the gales, though receiving a severe buffeting, and all was well with those aboard, the cardinal and his companions being in particularly good health.

At the time the message was sent the Arabic was 153 miles east of Ambrose light, and consequently there is no possibility of the steamer's arriving here before daybreak Saturday. At the headquarters of the White Star line here it was said that the vessel would not arrive at quarantine before Saturday afternoon. She was scheduled to dock this afternoon.

The Rev. Charles Sullivan, vicar-chancellor of the archdiocese of Boston, who is in charge of arrangements for the reception to be given by the clergymen, said last evening that he had been informed that the Arabic might arrive at quarantine about 4 o'clock Saturday afternoon. Should the liner reach the lower harbor after sunset she would be compelled to remain there until Sunday morning, and the passengers would be held aboard, that being the ruling of the government officials.

Accompanying the cardinal are Mgr. Richard J. Haberlin, chancellor of the archdiocese, who is the cardinal's secretary; Mgr. M. J. Splaine of St. Joseph's parish, Roxbury, and Dr. John

R. Slattery, knight of the Holy Sepulchre, who is superintendent of St. Elizabeth's hospital, Brighton.

Among the Boston archdiocese clergymen who were at reception headquarters, the Hotel Belmont, yesterday were Mgr. John B. Peterson of St. John's Seminary, Brighton; the Rev. Charles Sullivan, Mgr. William O'Brien of Lowell, Mgr. Joseph F. McGonigley, diocesan director of the Society for the Propagation of the Faith; the Rev. John J. Ryan of St. Paul's church, Cambridge; the Rev. William E. Finnigan, rector of the Cathedral of the Holy Cross, and the Rev. Philip J. O'Donnell of St. James' church, Harrison avenue.

Other clergymen who will greet the

cardinal on his arrival include Mgr. Arthur T. Connolly of Jamaica Plain, Mgr. Ambrose F. Roche of Watertown, the Rev. Lawrence Slattery of Newtonville, and the Rev. Nicholas J. Murphy of Allston.

The prominent laymen who will be here to receive Cardinal O'Connell include Henry V. Cunningham, Joseph H. O'Neill, James J. Phelan, Francis E. Slattery, all of Boston; Edward O'Connell, brother of the cardinal, and Humphrey O'Sullivan, both of Lowell, and Maurice J. Curran of Andover.

Galen, born about 125 A.D., complained that there were no real doctors after truth in his time, but that all were intent on money, political power or pleasure, and that not five of a hundred had met preferred to be rather than seem, wise.

DYE OLD SKIRT, COAT, DRESS IN DIAMOND DYES

Each package of "Diamond Dyes" contains directions so simple any woman can dye or tint her worn, shabby dresses, skirts, sweaters, coverings, draperies, hangings, everything, even if she has never dyed before. Buy "Diamond Dyes"—no other kind—then perfect home dyeing is sure because Diamond Dyes are guaranteed not to spot, fade, streak, or run. Tell your druggist whether the material you wish to dye is wool or silk, or whether it is linen, cotton or mixed goods.—Adv.

## GOLFERS

Now that the outdoor season is underway our golf goods are back in our sporting goods basement where we are prepared to give you the same service as before. We thank you.

## SPECIAL SHOWING OF WALL PAPER

Half a thousand beautiful patterns of the latest and best in dependable Wall Papers are attractively shown in our Wall Paper Shop. Attractive goods designed to fittingly decorate your home. OUR PRICES ARE THE LOWEST IN LOWELL, QUALITY CONSIDERED. Nowhere else can you see so many really beautiful papers as we show. We sell nothing but first quality papers.

A bit of shopping around will convince you that our prices are right.

NOW IS THE TIME TO DECORATE AND HERE IS THE PLACE TO BUY WALL PAPER

FREE Direction Given for Hanging Wall Paper.

# LADY ASTOR PRAISES LEAGUE OF NATIONS

NEW YORK, April 21.—Lady Astor in praising the League of Nations before a gathering of nearly a thousand men and women last night, declared her applause when she appealed for the United States to either enter the league or some association of nations, banded together for peace.

She led up to this appeal, which brought the crest of the almost continuous wave of applause, given her by the gathering under the auspices of the English speaking union, by saying she did not believe war ever could be ended with war.

"All Europe wants to get back to what you call normalcy, whatever that means," she said. "I wish America had entered the Genoa conference for its purpose is to straighten things out. You cannot live near Europe without wanting to help her out of her sad devastation. It's all very well to say it's Europe's own fault, but it is our fault if we don't help her."

Then she spoke of the League of Nations "where angels fear to tread," praised its accomplishments, and declared that while it was only half a league, it was half a league onward. The audience at the dinner, including leaders in many branches of activity, cheered continually.

"They are very generous in the house of commons to America," she went on, "more generous than some people," and then, hesitating added, "some people in the senate."

## MASSACHUSETTS HOME ECONOMICS CLUBS HELD AN ENTERTAINMENT AND EXHIBITION

The Massachusetts Home Economics clubs held an entertainment and exhibition of the work done by the members of the clubs at the Prout

Orange hall recently. A play entitled "Hiring a Maid," singing of club songs and a demonstration by members of the sewing club on the care of clothing were features.

W. J. Howe of M.A.C. spoke of the splendid work done by the club. Miss Forbes then awarded prizes to the following club members: Boys' Bread

club, first year members, first prize, Maurice Alberts; second prize, Merrill Huntley; third prize, Howard Walsh; second year members, first, Warren Lahue; second, Kenneth Molr; third, Arthur Wells; Girls' Bread club, first year, first, Leona Mailer; second, Grace Robertson; third, Gertrude Cullahan; girls' first year sewing, first, Rella M. Park; second, Ora K. Park; third,

Dorothy Brown; second year, first, Hazel Wilkinson; second, Laura Hague; third, Ruth Middleton; third year, Marjorie E. Root.

South American ant-bears have been imported into the state of Washington by fruit and vegetable growers to keep down the various insects that infest this region.

## FOREIGN JAZZ ARTISTS POPULAR IN PARIS

PARIS, April 21.—American, Cuban and Hawaiian jazz band instrumentalists have become so popular in Paris restaurants, hotels and dance halls that the municipal council is considering limiting the number of foreigners employed in an orchestra to 10 per cent.

More than 50 per cent. of the musicians in most Paris establishments are foreigners, while it is estimated more than a thousand French instrumentalists here are without work.

# 8th Birthday Sale!

Our Birthday Sale has been a great success—now comes the wind-up and greater values. There's a great difference between sale stores and stores that have occasional sales and make those real sales—this is a real sale—a sale with a purpose. We celebrate our success by sharing our profits with you. We don't promise you something for nothing—no exaggerations—A real sale with unusual values.

## LIGHT ON COAL STRIKE

There is probably much in reference to the coal strike that is still not clearly understood by the general public. But while mutual recriminations are going on between operators and miners, the National Bank of Commerce of New York comes out with a statement showing that the blame rests on neither side but on the fact that the bituminous mines are able to mine all the coal needed to meet the demands of the nation in 215 days, thus leaving the miners idle for the remaining 150 days, which, deducting Sundays, would leave 98, or a little over three months, of actual idleness.

It is not surprising, therefore, that the miners ask for a five-day week and a six-hour day in order to give them continuous employment. In 1921 the bituminous mines worked only from 165 to 170 days during the year. The miners may be excused, therefore, if they want a wage that will be sufficient to support them during their idle time as well as when they are at work.

On the other hand the operators have large fortunes tied up in the mines and they naturally expect reasonable returns. But they find that by working the mines for nine months of the year they can meet all the demands for bituminous coal.

It is estimated that the capacity of the mines, if worked continuously, is 750,000,000 tons, but the consumption and export combined has never exceeded 550,000,000 tons. There is thus an unnecessary mine capacity or surplus of 200,000,000 tons of bituminous coal and 175,000,000 tons of anthracite.

For this degree of overdevelopment, the bituminous operators are not to blame. Indeed it appears that they would gladly have adopted some plan of curtailing the output but for the fact that any general agreement of this kind would be treated as a violation of the anti-trust law.

The only remedy for the present condition is to get rid of the surplus output of the mines by export or else to put a limit on the production. Under present conditions of the international rates of exchange, there is no prospect of any material increase in the export of bituminous coal from this country. The other countries could not pay the price. Hence the whole problem must be settled at home. The mine operators cannot afford to conduct the mines without a fair profit on their investment; the miners cannot afford to lose three months of the year unless they have a rate of wages during the other nine months of the year high enough to enable them to live during the period of idleness.

All this is quite reasonable so far as both sides are concerned and hence, the case is one that demands the attention of congress or of some government agency. There must be a new basis of operation as well as of dealing with the miners. The demand for a five-day week and a six-hour day will hardly be conceded; but the only alternative is that some plan be devised of keeping the miners continuously employed at fair wages. Otherwise, they must get as much for nine months' work as they would for a full year. The situation has its difficulties and unless the government intervenes, it is likely to be settled by increasing the price of coal to the consumer, although it is now at least \$4 per ton higher than it should be if justice prevailed.

## CIRCUMNAVIGATING THE EARTH

Much interest was centered in the enterprise started by the brothers Ross and Keith Smith of Australia to fly around the earth in an airplane, starting from Croydon, England, on April 25. Unfortunately, one of the brothers was killed while practicing near London so that the joint attempt as planned cannot be carried out. The surviving brother, however, will probably get some other aviator to undertake the feat with him and it is not at all improbable that it will be successfully achieved. When an aviator can cross the Atlantic, he can also cross the Pacific, and if he can circumnavigate the earth, the progress made in rapidity of travel is really marvelous. The Smiths calculated that they could circle the earth in 240 hours of actual flying divided over a period of ten days.

The sailing ship in which Magellan started in 1519 to sail around the world for the first time, took three years and thirty days for the trip. Since then there has been wonderful progress in conquests over time and there is reason to believe that the future progress of our present methods will be quite as great as has been the progress that of Magellan.

## WORLD'S BIGGEST CITIES

Chicago will have 4,000,000 population in 1940, predicts Ernest Thurston of the research department of Illinois Bell Telephone company. The population may be five or six million in 1940. There is no telling what the expansion of that city will be if it is progressive and well governed. Its present population is about three millions.

Some census experts believe that Chicago eventually will be the world's largest city, with at least 20,000,000 population.

An American city of that size will be a frightful mess to live in, unless there is a revolutionary readjustment in municipal management.

New York is at present the most populous city in the world, having recently outstripped London. Its population in 1920 was 5,629,948 and its increase in the decennial period about 147,000 less than a million. The population of London in 1921 was given as 6,521,646.

## COST OF LIVING

The cost of living among wage earners' families March 15 was nearly 55 per cent higher than in 1914. It had dropped about 34 per cent from July, 1920, when living costs were highest. These figures, furnished by the Na-

tional Industrial Conference board after a check-up, are obtained by striking a national average. In some sections, it is higher than the average and in others lower.

Unless the rate of decline increases, it will be May, 1924, before the cost of living gets down as low as it was before the war, if it ever gets so low again, which is doubtful.

When the high protective tariff is put into operation, the prices of many commodities will jump upward. Then the cost of living will follow and wages will struggle quite a distance behind.

## BOOTLEGGERS BUSY

The bootleggers are still active in Lowell and the sale of liquor is going on in the saloons, despite the activity of the liquor squad in bringing in moonshine stills. Occasionally the rum-runners are caught bringing their supply from Canada, although the imports from that source are not so heavy as formerly. The bootlegger is still an active agent in maintaining illegal sales.

Liquor, shipped to foreign countries for storage on the eve of national prohibition, is gradually being brought back, some by smugglers, some through legitimate channels.

The total of this liquor is worth \$300,000,000 in the legitimate market, \$1,000,000,000 if handled by bootleggers, says John D. Appleby, general prohibition agent in the New York and New Jersey district.

At this rate, the bootlegging system takes 22 1/2 per cent profits for the risk it runs. This reduces bootlegging to a mathematical basis, operating on the law of averages.

## FULLER-WARNER

Former Speaker Joseph Warner is to be a candidate for lieutenant governor against Lieut. Governor Fuller. Doubtless the contest will wax warm and it remains to be seen whether Fuller will resort to his usual plan of vilification in dealing with Warner. He assailed him to such an extent in his campaign two years ago that Warner sued for \$100,000 damages in a slander suit. He won a verdict of a dollar, which is still in litigation. Fuller is not likely to use any milder methods in conducting his campaign this year. He may not go to the extent of accusing Warner of being connected in any way with Al Bala and his forty thieves; but he can be relied upon to deliver some stunning blows. It will be a sort of Brutus and Cassius affair with Warner the more excitable in the colloquy.

## TARIFF ON SUGAR

The American producers of Cuban sugar are making a big kick over the proposed increase of 60 per cent of the tariff on sugar, which would raise the price to the American consumer and thereby serve as a subsidy to American producers, something which is not needed. Exports estimate that the subsidy would amount to \$72,000,000 and that the total increase in the amount of the annual sugar bill of the United States as purchased from Cuba, would be \$162,000,000. The high tariff was proposed at first to prevent dumping the Cuban sugar crop here; but the surplus of the crop has disappeared so there is no valid excuse for a very high import on sugar.

Venerable indeed and dear to the heart of Lowell are the survivors of the old Sixth regiment, who gave the first martyrs to the Union cause. There are but a few of them left in Lowell and they are revered by all who know them for the glorious service in which they bore a heroic part.

Treasurer Groves of the Pacific mill of Lawrence seems at least to be candid and unafraid to talk. If conditions are as he says, there is not much hope of a victory for the Lawrence strikers. If he could get along with a 10 per cent cut for the present, the change would be readily accepted by his employees.

President Harding wants the tariff bill pushed ahead of the bonus bill but congress refuses to hold the bonus bill to await the outcome of the tariff. Both should have been disposed of long ago, had the republicans shown the business capacity of which they are wont to boast.

Mayor Hyman is threatened with removal by Governor Miller and should the governor attempt such a coup, he would probably make Hyman a potential candidate for governor. That is how the political game has been working of late.

The city of Savannah, Ga., has barred jazz music under penalty of \$100, or imprisonment for thirty days. For a state that holds the record for lynching without any apparent qualms, this appears rather amusing.

The republicans ask the legislature for power to appoint women to the state committee. If women enjoy all the rights and privileges of men, why offer them any special privilege?

Germany undoubtedly feels that she could not expect much from the Geneva conference anyhow and that she had better get what she could from Russia in advance.

If Lloyd George can bring Lachmoy out of the chaos that confronts the Geneva conference, he will have won one of the greatest triumphs of his political career.

The building trades refuse to reduce wages in order to encourage a building boom. That puts a damper upon building operations for the season.

This is forest protection week against fires. We haven't many forest fires hereabouts, but somehow we manage to have our share of brush fires.

## SEEN AND HEARD

Liberty bonds are getting higher—so is liberty.

This is the time to keep cool over the coal situation. Next winter will be the time to get hot.

Some married people are happy; others make their home with the parents of the bride.

## Thought For Today

What is meant by redeeming time? It is to fill the hours full of the richest freight, to fill them with the life of thought, feeling, action as they pass by. One moment of self-conquest, one good action really done, yes, one effort to do right, really made, has the seal of time put upon it.—James Freeman Clarke.

## A Word a Day

Today's word is decay. It is pronounced—de-cay, de-cay, de-cay, de-cay. It means to waste, to decay, to decay. It comes from—Old French "deceoir," to cry out against. It is used like this—"The whole world decayed the action of the German emperor in plunging Europe into war."

## Drop in Temperature

Little Girl (rushing into doctor's office)—"Please, doctor, come at once to father," said the little girl. "Mother's taken his temperature, and it's gone down." "That's all right, my dear—that's splendid," replied the doctor. "That's all right; it's gone right down. He's awakened it."

## Very Poor Picking

He was recognized as the meanest man in the neighborhood, but this did not prevent his house being broken into by optimistic burglars. When the gang met later to talk matters over and adjust finances the gloom of the leading burglar checked all questions. "What makes you so gloomy?" asked someone at last. "Make much?" jeered Bill, with sarcasm. "I lost money over the job."

## "Curious" All Right

A huntsman called at the farmstead to settle for damage done by the hounds and found only the farmer's wife at home. "The young good man made an examination, yet," he asked. "That he have, sir," replied Mrs. Hodge. "Rather a curious examination, I suspect?" "O, dreadful, sir! Such knowledge I never heard—never!" And the dame held up her hands at the bare recollection.

## Not Easily Disturbed

A number of sportsmen in the north of Scotland, putting up at Jack Mac Gie's cottage, found their sport much interfered with by rain. Still, fine or wet, the old-fashioned barometer that hung in Jack's front room marked "set fair." At last one of the party of sportsmen drew Jack's attention to this curious glass. "Don't you think," he said, "there's something the matter with your glass?" "No, sir," answered Jack indignantly. "She's a good glass and a powerful one. But," he added, reflectively, "she's no moved by trifles."

## Deserved Promotion

A young Australian reporter was left in charge of the news room one evening. Suddenly he was confronted with, to him, an incredible cable from England. It ran: "Lincoln, 3.50. Dean Swift Oblit Roscoe Dawn," and was, in fact, the result of a race which had been run that day. Knowing nothing about racing and feeling bound to justify his existence, the incoherent youth hit the following inspired paragraph inserted in the paper next morning: "We regret to announce the death at Lincoln at 3.50 yesterday afternoon of the Very Reverend Dean Swift, the author of the well known hymn, 'The Roscoe Huns of Early Dawn.'"

## A New Mexican Hill Song

Wind in the lap of green places Sweeping the cliffs and the sands, Daring the desert's hot white spaces Give me your ghostly hands. I would dance with joy across the hills, Over the depths and heights, Along the crest where the swollen sun drops, Scattering rainbow lights.

I know the touch of the harsh rock, The hush of the oak and the pine; I know the peaks where the rose light lingers, Wind, they are mine, are mine. Once I saw a yellow trail went winding, I heard your whispered call. Why are you dumb to me, when will you come to me, Mad with your spirit thrill?

The tough hill grasses are gray and golden, The yuccas are white with blooms. The still, hot sunbaked hills are unbroken, The barren mesas are vainly kneeling Under the desert blue, High in the hills comes a presence— Wind, are you?

—JOSE BENDELSON, in the Dial.

## MAN ABOUT TOWN

The beautiful new chapel in St. Patrick's cemetery, which was dedicated yesterday, is one of the most important ceremonial improvements conceived and carried out in Lowell for many years. The amount of thought on the part of Rev. Mr. Griffin which was put into the designing and construction of this chapel must have been very great, when one considers the wealth of detail which has been taken care of in such perfect manner. It speaks well of the local clergy when such a leader is found, a man who, despite his advancing years and the multifarious duties of his position as a permanent rector, can find time to plan such an original enterprise, and, in addition, see that his plans are properly executed. The building is so constructed that it will combat the storms of ages and will be an enduring memorial of its sponsor and builder. The opening on Memorial day is certain to be attended by thousands, and until that time comes rest for the public will be unable to realize not only its beauty and convenience but its durability as well.

On all sides you hear people say, "A fellow wouldn't mind this dedication so much if taxes didn't stay so high." National taxes during the fiscal year, which will end next June 30, average \$32.10 for each American. The Englishman is paying an average of \$128.39, compared with our \$32.10. Italian pays \$15.35, Frenchman \$41.45. The United States, which figures this out, also finds that corresponding taxes in Germany are only \$2.18 for each inhabitant. That's a peculiar form of penalty for losing the war.

If Simon H. Harris were alive, he would be up daily to see the fish jumping over the fish highway at the falls. Mr. Leon A. Flint has been named a special commissioner to watch the fishway and report upon the kind and number of fish he sees making their way up stream. It may be possible, but I believe Mr. Flint will have to wait quite a while before seeing any fish jump over the fish highway.

quite a while before seeing any fish jump over the fish highway at the falls. Mr. Leon A. Flint has been named a special commissioner to watch the fishway and report upon the kind and number of fish he sees making their way up stream. It may be possible, but I believe Mr. Flint will have to wait quite a while before seeing any fish jump over the fish highway.

Another discussion relative to "nest-hole" conditions, although not as yet brought to the attention of the general public, is said to have arisen in the sections of the city surrounding the various parks and recreation grounds, particularly the North and South commons. With the happy location of the boulevard dance hall proposition, which has afforded great satisfaction to the residents of Pawtucketville, the people who live in the neighborhood of the two commons, two of the city's most popular recreation centers, are complaining of the lighting conditions now of existence, which they say make for a situation in the heart of the city comparable only to those predicted on the boulevard in the event that the new dance hall was licensed. Those who are in the best position to know say that the North commons is by far the darkest spot in the night time in the city. The only lighting on the commons is supplied by pale gas lights at infrequent intervals, with large sections of the wide area in complete darkness except on moonlight nights. The policing of the commons is not so extensive as to make further lighting unnecessary. From the first instance until, after midnight the officers on their rounds can pay but infrequent visits to the commons, and on the late shift the visits are still farther apart. With the policemen starting on their vacations, a natural shortage has developed, and on many nights the officer covering the lower Broadway beat, which is the North commons, is compelled to "double," and include the beat in the vicinity of Liberty square. At other times the situation is reversed, with the same results. The commons cannot be patrolled as it should. The officer who walks the beat which includes upper Broadway, Pawtucket street and River street, seldom has time to do more than walk along the westerly side of the commons once in two hours. As this visit corresponds very nearly to that of the other officer, when doubling, intervals of two hours elapse without anyone in authority in sight. Residents of the section consider this condition deplorable, and believe that action of some kind should be taken, particularly on account of the extreme watchfulness exercised in the daylight hours, when everything is open to the eye. Not so much is heard relative to the South commons, although it has been remarked that there is a considerable area along the southern side of the commons on the upper Thorndike street section, which is not lighted to the extent that might be considered desirable with such isolated surroundings.

## More Evidence ALLEN'S LUNG HEALER Prevents Pneumonia

Mrs. W. H. Walker gratefully adds her testimony to the many which have been published:

Mr. H. J. Allen, Druggist:

Dear Sir—Allen's Lung Healer, is the most effective medicine I ever used in my life. It seems to work like magic. My daughter was so badly broken up with a cold that she had to give up work and go to bed. Her cough was hard, dry and distressing, her lungs were sore and sheathing difficult and she seemed on the verge of having pneumonia. I was told of the Lung Healer and decided to give it a trial. She had taken but a few doses when she began to improve rapidly and in a week's time she was entirely cured and back at her work. You can be sure I was surprised and delighted with the way the medicine worked, so quick and thorough.

Yours gratefully  
MRS. W. H. WALKER,  
1 Moulton Street, West Lynn.  
Sold in Lowell by A. W. Down Co., Lowell Pharmacy, F. J. Campbell, L. B. Brannelle, J. J. Brown, H. R. Campbell, Fred Jones, Wm. H. Noonan, H. C. Page, L. T. Stevens and T. O. Walker.

has won considerable recognition in her line of entertainment. One of her best features is a monologue described as "A Modernist Art Exhibition." She is perfect in manner and insinuatingly satirical while making the rounds of the imaginary gallery, describing each picture most absurdly. She is particularly adept in satire, giving a perfect reproduction, in another feature, of a society gossip, with all the characteristic artificiality, pretense, critical attitude toward those whom she considers inferior and ongoing adulation of those on a higher plane.

Her presentation of little rhymes in the French dialect was a pleasing demonstration of her versatility. As a little French maiden romancing with a Yankee doughboy, and again as a French coquette, she was extremely pleasing.

Her "Parisian Woman in an Automobile" was splendid. "A Patron of the Arts at the Opera" was another exhibition of her histrionic ability of a high order, and her Italian dialect sketches and touching war poems rounded out a splendid hour of choice entertainment.

Miss Osgood has not appeared here for some time, but her next appearance will be joyfully acclaimed by those who attended yesterday's entertainment.

Miss Caroline Downey, president of the association, introduced the entertainer.

**EDUCATORS GRATIFIED**  
DALLAS, Tex., April 21.—Attendance of southern men at northern institutions of learning is a source of great gratification to educators all over the country, because it means an interlocking of interests and friendship. Dr. A. Lawrence Lowell, president of Harvard University, declared before the members of the Dallas Harvard club last night.

## AMUSEMENT NOTES

(By Theatres' Own Press Agents)

B. N. KEITH'S THEATRE

Charles "Chic" Sale, the peerless entertainer, who is appearing at the B. N. Keith theatre, this week, gives an almost entirely new gallery of rural types. His work is quite in a class by itself, as all will admit who have seen it. Somewhat different from last season, his work is none the less finished. James Burke and Eleanor Durkin, who are giving "A Tete-a-Tete in Song" are most interesting performers, whose work is polished. Then there are Art Hall and Abe Shapiro, who do a comedy stunt that is a riot of fun all the way through. Harold & Helen make a witty team of entertainers, and Flo and Ollie Walters are singers and dancers possessing youth. The Burns Brothers are dress suit athletes and Jessy Clifford is a stunning posur.

## THE STRAND

Have you seen Mae Murray in "Peacock Alley" at the Strand yet? If you haven't don't miss one of the remaining opportunities. And surely don't miss the prologue number by Miss Etta Heald. She gives a wonderful demonstration of the "Peacock Alley" dance numbers of the picture play. Garth Hughes in "Garments of Truth" is wonderfully entertaining. The rest of great.

## OPERA HOUSE

Tommy Levine and his company of comedians and pretty chorus girls, are scoring another big hit during the last three days of the week at the Opera House in their new show, "The Blue Bird Cabaret." It's a clean, clever combination of musical comedy specialties and real vaudeville. "The Blue Bird Cabaret" is a "Shiftery Gaiety Girls Company" will present their big musical extravaganza that startled even Broadway. Don't miss it. It has many surprises.

## MERRIMACK SQUARE THEATRE

Only a few opportunities remain for admirers of Rudolph Valentino to see him in his latest photoplay, "The Wonderful Lover," now showing at the Merrimack Square theatre. The other big feature is Mary Miles Minter in "Follies." Coming Monday—"Bought and Paid For."

## RIALTO THEATRE

"The Truth About Husbands" and "A Stranger in Canyon Valley" were the two features which opened a three days' engagement at the Rialto theatre yesterday afternoon. Both were re-

## MUSICAL REVUE BY BROADWAY CLUB

The eighth annual musical revue to be given by the Broadway club in Association hall this evening promises to be among the best and most enjoyable social events of the present season.

The final rehearsal was held at the club quarters on Sunday afternoon and the principals and chorus showed the result of painstaking and careful endeavor. The committee has secured Jerome Tigue, one of Brooklyn's leading dancing artists, for the principal feature. Doris Conway, well known in Lowell, will also appear in song, monologue and character dances, and Michael Brennan will sing one of McCord's favorite ballads. Messrs. Cummings and Kelly, in a duet, will engage special attention. Eddie Donahue, Dave Boyle and John Spillane are booked to carry the sentimental numbers.

For the endmen the Broadway club

## STARS FORM MOVIE RELEASING COMPANY

LOS ANGELES, April 21.—Negotiations for the formation of a new motion picture releasing company, which, it is understood, will insure an open market to independent producers, have been closed here.

The organizers are Douglas Fairbanks, Mary Pickford, Charlie Chaplin, and D. W. Griffith, who founded the United Artists corporation, of which the new company will be subsidiary.

## SEN. McCUMBER WARNS NATION

**Declares Protective Tariff  
Alone Will Not Bring a  
Revival of Business**

**Manufacturers Must Accept  
Meagre Profits and Labor  
Increase Efficiency**

WASHINGTON, April 21.—Launching the administration tariff bill yesterday in the senate, Chairman McCumber of the finance committee, warned manufacturer, factory laborer and retailer alike, that a protective tariff alone would not bring a revival of business; that there must be a reduction of costs to within the reach of the consumer's pocketbook before there could be a return to "old time prosperity."

Senator McCumber said the way to reduce the costs, was for the manufacturer and retailer to be satisfied with most "meagre" profits for a

**"NOW I  
AM WELL  
AND STRONG"**

**If You Cannot Truthfully Say  
This of Yourself, Take  
Gude's Pepto-Mangan**

If you are not as strong and healthy as you need to be what are you doing about it? Are you going to let yourself run down in health and be subject to headaches, indigestion, nervousness, and all that long train of ailments that cause so much pain and misery and unhappiness? Don't do it. Start now to take Gude's Pepto-Mangan with your meals and it will build you up to good health again. It contains a form of iron that gets into the blood easily and gives you strength and greater vitality and a good color—and you will sleep well, because your nerves won't bother you. Then you can say "I feel great" and mean every word of it. Gude's Pepto-Mangan has been used for thirty years—you can depend upon it to help you back to health. Sold in both liquid and tablet form by druggists everywhere, but it will not do you any good if you let it stay on the druggist's shelf.—Adv.

Oriental Cream**

while and for the factory employee to increase their efficiency "to the highest possible degree." In view of the present high cost of living, he added, it would be "most unjust" for the manufacturer to begin his economy by cutting wages.

"This proposed legislation will open the way to prosperity in the United States, but it will not, unaided, bring about this result," declared Senator McCumber. "The American people must do the rest, and right here, I want to say a word to the American manufacturer and the American laborer in our factories. This bill is intended to, and I believe it will, sufficiently protect your market against any excessive foreign invasion, but just remember that over 90 per cent. of all your products must be consumed right here at home."

"I think I am clearly within the actual facts, when I say that two-thirds of the American people, the bread winners in the United States, are not receiving an income any greater than their pre-war income. The net earnings of the agricultural class are, on the whole, below the pre-war income. When we deduct the rents or in lieu of rents, the added taxes and cost of upkeep of the homes of another one-third of our population who are also bread-winners—it will be found that their net income is below the pre-war income."

"When I say that these people cannot spend any more than they earn, I think I have sufficiently foreshadowed the necessity on the part of the manufacturers of bringing down the production cost of their commodities to within the purchasing reach of this vast army of American farmers and American wage earners—a reach that cannot extend one inch beyond the limit of their earnings."

"We have tried to bridge this gulf between the production cost of manufactured articles and the consumer's ability to buy them by doing what we can to increase the purchasing power of the latter and it is now up to the manufacturer to do his part to bring the cost down to meet the size of the consumer's pocketbook. With the present high cost of living, it would be most unjust to start his economy by forcing a reduction in the wages of his employees."

"Knowing that the principal cost of life mills and life men is this disparity between manufacturers' cost of production and consumers' ability to pay, I think I can suggest a course that will do more for our national prosperity than can be accomplished by any kind of law, tariff or otherwise. Let the manufacturer be satisfied with a most meagre return upon his investment for a while, then let the employees increase their efficiency to the highest possible degree. Then if the retailer will just follow the manufacturer, the great American public, now hungry for more and better things, will give employment to all to supply its demands and old-time prosperity will again reign throughout the land."

After Senator McCumber's address, there was a dispute between republicans and democrats as to precedence, with a result that the reading of the 440 page bill was deferred. This consumed the remainder of the day.

### FIRST REPRIEVE IN HISTORY OF MAINE

AUGUSTA, Me., April 21.—A reprieve for the first time in the history of the state was granted by the governor and council yesterday. Evidence was presented that Lillian Green, an inmate of the Knox county jail at Rockland, was in such physical condition that medical treatment was necessary, so she was given a reprieve of 45 days with the understanding that she enter a hospital. At the end of 45 days she is to be returned to the jail. Miss Green is serving a sentence in jail for the single sale of four ounces of Jamaica ginger.

### COUSENS HELD ON MURDER CHARGE

WESTBROOK, Me., April 21.—Samuel L. Cousens was held without bail yesterday for the May term of the superior court on the charge of murder in causing the death of his wife, who died Wednesday from the effects of two bullet wounds and a fractured skull inflicted in their home here Monday.

Cousens was weak and pale from the loss of blood, caused by deep wounds in his wrists, self-inflicted after the shooting. He had been in a semi-conscious condition at a hospital since Monday, and was not told of his wife's death until yesterday morning.

He claimed he knew nothing of the shooting and that he went to work as usual in the paper mills and received the injuries to his wrists by being caught in a machine. The police alleged he purchased the revolver in Portland within an hour or two of the shooting, and did not go to work that morning.

The last murder in this city was the killing of Mrs. Thomas Stocks on the same street about 25 years ago.

### COSTUME PARTY AND DANCE

A largely attended costume party and dance was conducted in A.O.U.F. hall last evening by William Sullivan. The decorations about the hall were pretty and the program was very enjoyable. Miss Lillian and Mr. J. Eastman, acting as judges, awarded first prizes for the best costumes to Miss Helen Conway and Mr. Decatur.

### TO ATTEND TRIENNIAL CONCLAVE

PANAMA, April 21.—The delegation of Knights Templar from Boston who have been visiting the Canal Zone since yesterday for New Orleans to attend the triennial convocation of the Grand Commandery.

### BRADFORD, ENGLAND, A CITY WHOSE PEOPLE

depends on wool and its manufacture in some form or other for their livelihood is sometimes called "Woolopolis."

### NO OLD WOMEN NOWADAYS

Modern dress, hair dressers, facial experts and cosmetics all combine to keep women of all ages young and attractive in appearance. Not until the telltale wrinkles become so deep, the flaccid strops, or some ailment or weakness develops to drag a woman down does she really look her age.

Every woman owes it to herself and her family to keep herself young in appearance, and happy. When headaches, backache or "the blues" develop or when a woman reaches the trying age from forty-five to fifty, Lydia E. Pinkham's Vegetable Compound may be depended upon to keep her in health as it has so many other women whose letters we are continually publishing in this paper.—Adv.

## Down-To-Date In Price Up-To-Date In Style

**And Up to the Usual P&Q  
High Standard In Quality!**

To the many of our customers who already know us we hardly need say it. But this Spring when so many are sacrificing Quality for Price, it really means something to be able to say that we still hold fast to our time-honored standard of Quality.

High quality here, however doesn't mean a high price --- our policy is to figure everything on to-day's lowered cost of production.

"Surprisingly good" — one of our customers called them the other day.

And they are good! — in all that the word implies. Good in fit, Good in workmanship, Good in every essential that makes high grade Clothing.

We venture to say that never before have you seen brighter, better fabrics or a more thorough assortment of classy Clothes at anywhere near their prices.

## INCREASE IN WAGES GREATER THAN INCREASE IN COST OF LIVING

Committee on Local Industrial Increase in Cost of Living Survey Submits Interesting Report to Lowell Contractors' Association—Building Trades Union Refuse to Accept Voluntary Wage Reduction as Suggested by the Contractors

Feeling that the increase in wages in the building line in this city was far greater than the increase in the cost of living and that the members of the different building crafts should voluntarily agree to a reduction in wages in order to stimulate business, the Lowell Contractors' association has had prepared under its direction a list of prices for foodstuffs and other necessities of life as well as prices on building materials and wages in the building line, showing a comparison between prices in 1913 and prices in effect Feb. 14 of this year.

Work on the gathering of data necessary to complete the list of comparisons was started Jan. 5 and was not completed until a few days ago. It was an impartial report that the association was after and it got it, for on the committee were representatives of the citizens at large, representatives of labor and members of the executive board of the Lowell Contractors' association. These people worked incessantly at their task and to them the association is very grateful.

The report of the committee, which was given the name of committee on industrial survey of the city Lowell, was filed with the association at its last meeting and when it was found that the average increase in wages was greater than the increase in the cost of living, a suggestion was made to the various building crafts that they agree to a voluntary reduction in wages, as such action would tend to stimulate business in their line and would probably result in giving them full-time employment. The matter was discussed at meetings of the various crafts, and according to reports made at the Lowell Contractors' association meeting held yesterday afternoon, the suggestion was not received with favor.

The report of the survey committee was read at the meeting and then referred to the executive board, which later voted to give it to the press for publication without any comment whatever.

The committee that made the survey consisted of the following: The following, who were members of the committee, were responsible for the gathering of cost prices on the various articles mentioned in the report: W. A. Mitchell, Percy Gilbert, J. W. Robinson, William H. Lyons and

James E. Curry, the two latter representing labor organizations. Citizens committee: Rev. Appleton Grannis, Rev. Caleb E. Fisher, Rev. Daniel J. Keleher, William A. Mitchell, Charles P. Conant, George M. Harbison, Percy F. Gilbert, Herford N. Elliott.

Representatives of labor unions: Harry Costello, Bricklayers; William Cassidy, Building Laborers; C. W. Dickey, Carpenter District Council; Albert Gibbons, Electricians; William Lyons, Painters; John Dillon, Plasterers; Thomas Judge, Plumbers; James Curry, Steam Fitters; Telephone Leblanc, Sheet Metal; Edward Lalour, Lathers.

Members of the executive board of the Lowell Contractors' association: John W. Robinson, president; George A. Stewart, secretary; Daniel P. Carroll, John Dwyer, Lucius A. Derby, John J. O'Connor.

The report shows that the average rise in the cost of meats on Feb. 14 over prices prevailing in 1913 was 38.2 per cent, while on groceries, exclusive of canned fish, canned milk, cornmeal and bread, the average increase was 43.2 per cent. On the last named articles the average increase was 22.3 per cent.

In setting up their report the members of the committee also made an investigation of prices of meats in other cities and they figured out that in Springfield the prices averaged 25 per cent higher than in this city, while in other cities the average percentage in prices higher than in Lowell was 19.

According to the report the price of wheat increased 10 per cent, for the best grades and 50 per cent for the medium grades, while the cost of suits went up 71 per cent.

In building materials, including paints, varnish, enamel, shellac, lead, oil, turpentine, nails, base, inside door, rails, brick, cement, lime, lumber and various hardware, the average cost has also increased 50 per cent to 200 per cent.

The increases in wages for the various crafts as submitted by the committee are as follows: Masons, 100 per cent; carpenters, 100 per cent; painters, 146 per cent; plumbers, 125 per cent; steamfitters, 125 per cent; sheet metal, 128 per cent; electricians, 138 per cent; laborers, 60 per cent, and

season tenders, 56 per cent. It will be seen by the report that the painters have received the largest increase, and the laborers, the smallest.

## ARMED MEN RAID SLIGO, IRE., NEWSPAPER

SLIGO, Ireland, April 21.—(By the Associated Press)—Armed men raided the offices of the Sligo Champion today and smashed the frames of type for this week's issue, apparently in order to prevent publication of the newspaper's report of Sunday's meeting when Arthur Griffith, president of the Dail Eireann, delivered an address in favor of the Free State treaty.

## TO TRANSFER XMAS SAVINGS CLUB FUNDS

BOSTON, April 21.—The full bench of the Massachusetts supreme court today permitted Bank Commissioner Joseph C. Allen to transfer \$188,201 in Christmas savings club funds from the commercial to the savings department of the Hancock Trust company, which was closed in 1929.

The court said it was plain that under the law the club deposits of that year were in fact savings and should have been placed in the savings department.

MANILA, April 21.—The independence commission today had settled its differences over its instructions to the independence mission to the United States by instructing the mission to work for immediate restoration of the Philippine republic.

## THE BICKER FAMILY

## SALVATION ARMY FUND CAMPAIGN

Plans are now being made by Adj. Mark Arnold of the Salvation army for the annual fund drive which is scheduled for the last two weeks in May. The army leader is working on his committee and expects to announce it within a few days. Already a number of business men have signified their willingness to serve on the committee

and lend all possible aid to the drive. The drive will be carried on by the subscription plan and it is expected the request for funds will meet with the usual response. The money obtained goes into the general fund for the maintenance of the army's work. Adj. Arnold points out the following things done by the army during the past year as an example of what the organization is doing. He said that 110 week day open air meetings had been held and through them 37,300 people had been reached, 145 Sun-

day open-air meetings through which 30,601 people had been reached, 150 pairs of shoes given away, 700 garments distributed, transportation furnished to 131 persons and during the winter 59,000 meals distributed exclusive of the Thanksgiving and Christmas dinners.

BERLIN, April 21.—(By the Associated Press)—A new phase in the battle for a proletarian united front has begun, says the Rote Fahne, the soviet organ here.

PAYMENTS UNCONSTITUTIONAL BOSTON, April 21.—The Massachusetts senate today had an opinion from Attorney General J. Weston Allen holding that legislation authorizing cities and towns to pay to dependents of public employees who die in office the balance due on their yearly salaries is unconstitutional. Several bills authorizing such payments are now before the legislative committee on cities. Mr. Allen ruled that such expenditures were not for any public purpose.

MISS MADLEINE BARNES

### WEST VIRGINIANS SAY SHE'S CHAMP SPELLER

By N.E.A. Service  
FAIRMONT, W. Va., April 21.—The champion speller in the elementary schools of the United States! That's the title which the people of

West Virginia claim for Madeline Barnes, 16, who missed only one word out of 300, in a district spelling match, and only four out of 40 in a county spelling match here. She is already the acknowledged champion speller of West Virginia.

Miss Barnes is the daughter of Mr.

'T WAS NEVER THUS

EVERETT TRUE

and Mrs. G. W. Barnes of Colfax, Marion county.

"Just have someone read a few of these words which she was correct on and you try and spell them correctly." Allegiance, disaster, callers, apologetic, moose, snake, exuded, twelve, perspiration, coupe, omnibus, conveyed, consensus, venomous, galvanizing, corroding, occurrence.

In the district contest, Miss Barnes missed what was regarded as one of the easiest words—automobile. And it's a word she says she knew how to spell before she entered school.

POSTMASTER RECEIVES BIDS

Two bids were yesterday received by Acting Postmaster X. A. Delisle for repairs on the postoffice roof. The bids were opened before witnesses in the postoffice. They were submitted by Arthur Roux and J. L. Douglas & Co., of Lowell. The bids will be forwarded to the treasury department for disposition.

TREE DELAYS TRAFFIC

A large tree which fell across the tracks near the Andover street turn-out delayed the 8 o'clock car this morning. Although the tree carried electric and trolley wires with it the repair crew got a through passage in less than one hour.

### BOY KILLED HIS MOTHER

13-Year-Old Lad Fearing Punishment Then Shot His Father and Himself

REDFIELD, S. D., April 21.—Mrs. J. E. Scermerhorn was shot and killed last night when a small calibre rifle in the hands of her son, Elmer, 13, is believed to have accidentally discharged. Fearing he would be punished, according to Coroner A. D. Coleman of Redfield, Elmer shot his father in the jaw, and then inflicted a wound in his own forehead which physicians say may prove fatal.

POSTOFFICE SIGNS

Large painted signs have been posted in the postoffice building and the sub-station in Middle street by order of Acting Postmaster X. A. Delisle. The postmaster's name is affixed to each which read as follows: "Are we pleasing you? Patrons of this office are entitled to and must receive prompt, efficient and courteous service. If you think our methods or conduct can be improved the postmaster wishes to hear about it personally."

### Big Increase Noted

ward 9, the South Lowell district, is the most sparsely settled, having only 917 names on the list.

Other thickly populated districts are Precinct 3 of Ward 7, Pawtucketville and upper Moody street; Precinct 3 of Ward 6, West Centralville; Precinct 1 of Ward 5, upper Highlands and Precinct 2 of Ward 3, lower Highlands and Chalmersford street district. The precincts of Ward 5 and Precinct 1 of Ward 3, Bolvidere and the Oaklands have small lots.

The board of assessors at present are working on real estate assessments in Ward 6, having already covered the first five wards of the city. After the real estate is finished up there will be upwards of 7000 automobile pleasure vehicles and trucks to value and in this connection the assessors can be greatly aided in their work if individuals owning machines will file a proper and complete description of them in the office at city hall. Quicker and more equitable valuations will be made if this is done, wherever possible.

The assessors this year are using the Buick car, formerly driven by Commissioner George E. Marquand. It is without a self-starter and dates back to 1917 but the members of the board feel that it is more convenient than being obliged to walk.

### 250 Miners Face Trial on Indictments

CHARLESTON, W. Va., April 21.—A special train carrying 250 miners and their leaders left Charleston today for Charleston where they are to be tried on indictments returned in Mingo, Logan and Kanawha counties in connection with the armed march last summer. Included among the passengers were a number of women and children, families of the accused.

### Suit for \$300,000 Against Pilot

BOSTON, April 21.—A suit for damages of \$300,000 against Russell Rotch, a New Bedford pilot, because of the grounding of the Portuguese steamer Sao Vicente in that harbor a year ago, came to trial in the admiralty court here today. Antonio Fortello of Fall River testified that in a conversation with Captain Rotch after the accident, the pilot said it was due to the fact that he was unable to locate a certain buoy.

### 35-Foot Depth for Cape Cod Canal

WASHINGTON, April 21.—A 35-foot depth for the Cape Cod canal, so as to accommodate larger merchant ships, was advocated by H. L. Colbeth, general manager of the property, before the house commerce committee today at hearings on the Winslow bill for government purchase of the Massachusetts waterway. Secretary Denby in urging recently a 40-foot depth which would permit passage of battleships declared the loss of one vessel of that type would be greater than the cost of the improvement suggested by him.
